The Folly Of Rationing

Sen. Henry Jackson's proposal for gasoline rationing contains the makings of an America tragedy.

The badly hit automobile industry is just beginning to show signs of a healthy revival as a result of a hard sell campaign involving cash rebates from manufacturers to purchasers. This campaign has resulted in a big jump in new car sales. It is impressive evidence of what an all-out merchandizing effort can achieve even in very difficult times.

But imagine what would happen to Detroit and to all the industries associated with auto-making - everything from glass to textiles - if gas rationing were decreed. Who would buy a new automobile if government limited purchases of gasoline.

There is much talk of the future of mass transportation in America. But the fact of life is that the American lifestyle is built around the automobile. The prosperity of countless small communities is associated with service stations, motels, and restaurants that cater to travelers.

Ironically, Sen. Jackson proposes gas rationing at a time when there is an abundant supply of gasoline. In World War II, when rationing was in effect, rationing at least was based on the rationale of easing the lot of people in a shortage. The Jackson rationing plan sounds like a surefire way for turning a recession into a depression, starting in Detroit and spreading throughout the country.

It is true that the United States is spending too much money for foreign oil. The money hemorrhage must be stopped. But the way to do that is to increase the production of fuel in the United States. This, in turn, means speeding up development of drilling for oil, especially on the outer continental shelf.

Unfortunately, the liberal mind doesn't take to the idea of increasing supply through more effective use of the free enterprise system. Instead, the typical liberal thinks in terms of restrictions - restrictions on developers of resources and restriction on users.

Rationing, of course, is the hardest kind of restriction on users and, customarily, is employed only in wartime.

In arguing for rationing in wartime, proponents of it can cite power of the citizenry's patriotism to keep the system working - doing whatever the government asks them to do, that is. But even during World War II the rationing system was ineffective and blackmarkets resulted. Today, at a time when gasoline is available in large quantities, rationing would be impossible to enforce. It is likely that millions of Americans would feel no moral obligation to support it.

This means that blackmarkets would thrive and rationing, in its practical effect, would produce conditions of inequity. How much better to let the price mechanism work as a means of allocating this and other resources.

Another aspect of the rationing idea that needs examination is the cost factor. U.S. Sen. Jesse Helms (R-N.C.) recently said: "I am advised that it would be necessary to hire 20,000 bureaucrats to administer a gasoline rationing plan. It would cost the taxpayers $2 billion a year. If there's anything America doesn't need, it's a $2 billion program involving 20,000 additional federal employes."

One further comment on rationing: In any such system, someone has to decide who is entitled to what. In point of fact this means that a government bureaucrat is given power to decide what driving is essential and what is non-essential. The opportunities for unreasonableness and unfairness are enormous.

Mr. Bureaucrat, by the way, is likely to decide that all his own driving is very essential.

When rationing was imposed during World War II the automobile didn't play such an important part in the American lifestyle. There were fewer cars on the road. Today, millions of Americans live in suburbs remote from their places of work. Thus to ration their gasoline would impose much greater hardships and involve problems of truly huge dimensions.

Surely now is the time for the public to speak against the rationing proposals being voiced in Congress. These proposals would cause economic distress and promote lawlessness. They would be costly and, ultimately, unworkable. They would lead America in the direction of a permanently regimented economy. Gasoline rationing, in short, would create hideous problems for the nation.

To Present Possibility Of Establishing Community Gardens In County

(Continued From Page One)

ington, D.C. These plants were distributed to thousands of people in six hours. A few weeks later, he took a million plants to Harrisburg, Pa., where they were distributed to flood victims. All of this was at his own expense.

In 1973, at the urging of Mr. Paulk, Congress amended the Food Stamp Act enabling food stamp recipients to purchase seeds and fertilizer in grocery stores with their food stamps.

The Bonnie Plant Farm had its beginning back in 1918 when Mr. and Mrs. Paulk planted two pounds of cabbage seed in a large garden out behind their home. They sold these plants throughout Bullock County. A horse and buggy were used to deliver house to house. The Paulks were successful in selling all of the plants that spring. The next year they planted ten pounds of cabbage seed and bought a Model T Ford car. They moved out in other counties and sold all of the plants they grew. The business grew each year, and it wasn't long before they bought a truck for plant delivery. There were six children in the family, two girls and four boys. As each boy finished school, they bought them a truck and each boy began delivering plants. These were the first five trucks delivering plants. The business continued to grow; and this spring Bonnie Plant Farm will have over 40 trucks deliverig plants to seed and garden supply stores in 11 Southeastern states.

Bonnie Plant Farm grows cabbage, onion, collard, lettuce, tomato, pepper, eggplant and sweet potato plants and last spring deliveries were made to 2500 seed and garden supply stores, all on a consignment basis, a little over 400 million plants. Total sales amounted to just over 225 million plants. Bonnie Plant Farm grows plants on 700 acres of irrigated land. Two farms are in Florida, one in Georgia, one in Texas, and one is in Alabama.

Back in March of 1972, Jim Paulk, President of Bonnie Plant Farm, decided to promote a National Gardening Program. This program had its beginning April 6 of 1972 when Sen. Jim Allen, from Alabama, at Jim Paulk's request, introduced a resolution in the U.S. Senate calling upon every American family to plant a vegetable garden. The resolution was introduced in the U.S. House by Representative Bryan Dorn of South Carolina, and by Representative Elizabeth Andrews of Alabama, and was passed both in the Senate and the House.

County Civic clubs and other organizations are being asked to have representatives at one of these sessions. Interested gardeners are invited to the 1:30 p.m. session with the general public.

Local Bills Await Action In Assembly

With less than a week to go before adjournment, the Maryland General Assembly still faces action on several bills of major importance to Garrett county.

House Bill 685, which proposes relaxation of air quality control standards in both Garrett and Allegany counties passed the house 118-0 last week and is now before the Senate Economic Affairs Committee.

Present state standards for air emissions are much more stringent than those of most other Eastern Seaboard states. Regulations have prohibited local industries from burning Western Maryland coal because of the high sulphur content of the coal, and in turn, coal operators have been forced to ship much of their coal out of state because there is no market for the mineral locally.

While the local bill seems destined for passage, an identical bill for the entire state was voted down by the House.

House Bill 813 by Del. DeCorsey Bolden to create an elected Board of Education for Garrett County, replacing the current appointive board, has cleared the House. However, Sen. Edward J. Mason has indicated he may attempt to have the measure amended in the Senate.

Senate Bill 526, to place controls on deep coal mining operations which at this time are limited to Garrett County, has been amended by the House, reducing the proposed per-ton surcharge on deep-mined coal from five cents to two cents.

These and various other measures still await action by the Assembly, which must legally end its spring session at midnight, April 7. More than 3,000 bills and resolutions have been introduced in the General Assembly since the session began early in January.

433 Gov't Units To Get $1.2 Billion

Some 433 state, county and local government will receive at least $1.2 billion to operate manpower programs under Title I of the Comprehensive Employment and Training Act (CETA) for fiscal year beginning July 1, 1975.

Secretary of Labor, John T. Dunlop, said the prime sponsors would now be able to plan local programs of training, work experience, summer youth jobs, job counseling and placement, transitional public service employment and other manpower services for fiscal 1976.

The amount earmarked is the minimum and is 90 percent of the amount each received in fiscal 1975 under Title I. Final allocations will be based on the actual Congressional appropriations for fiscal 1976.

Allocation for Garrett County for fiscal 1976 totals $331,857, compared to $368,730 or fiscal 1975.

Listen, Americans!

By DR. GEORGE S. BENSON
President—National Education Program

It has become obvious to the free world that while Russia talks about "Detente" and limiting the arms race, the Communists are busily engaged in enlarging their military capacity in every respect. There is not the slightest indication to contradict the fact that Russia through the importation of free world computer technology, integrated circuitry and other sophisticated technology, is moving rapidly toward the goal of absolute world-wide military supremacy.

"Detente does not mean that the Russians have had a change of heart" (Charles Colby, Director of the CIA). "Detente does not mean that the Russians have changed the objective" (Secretary of Defense Schlesinger). Secretary of Research and Development for the Armed Forces, testified before the House Armed Services Committee with these words: "Detente means that the Russians are going after our technology."

Bolstering this evaluation of Soviet intent are these words of Communist Party Secretary, Leonid Brezhnev, in a recent speech to the leaders of the Warsaw Pact nations: "We Communists have got to string along with the capitalists for awhile. We need their agriculture and their technology. But we are going to continue massive military programs and by the middle 80's, we will be in a position to return to a much more aggressive foreign policy designed to gain the upper hand in our relationship with the West."

Many voices, including Alexander Solzhenitsyn and Andrei Sakharoff have warned that providing the technical means by which the Soviets build their military industrial complex only encourages the Communists to both repress their own people and pursue their world-wide objective of total domination.

Avraham Shiffrin, former Soviet Red Army Major and Chief Legal Advisor, Contracts Division, Ministry of War Equipment, U.S.S.R., now turned to the West, told a House sub committee: "Each day I say how the U.S.S.R. used the technical achievements of the U.S. and other Western nations to create weapons for the destruction of those same nations. I heard many discussions of how to cheat the U.S. out of strategic military equipment.

"The U.S.S.R. has obtained U.S. materials for supersonic aviation, for the earliest Soviet missiles, and for building the first aerodynamic wind tunnels for testing models of supersonic military aircraft.

"Foreign tools are bought only when the Soviet attempt to copy, fails. In such a way, there was 'bought' in England a complex of machines for production of very high temperatures. It played a crucial role in production of the Soviet H-bomb."

It is the Congress that is charged with the Constitutional responsibility of regulating foreign commerce. Yet, Administration of the Export Control Act has been delegated to the Secretary of Commerce with slight interference from Congress. The Export-Import Bank is prohibited by law from lending money to Communist countries, save "when the President determines it is in the national interest to do so."

Local Measures On Liquor Changes Before Governor

Four measures concerning liquor regulations in Garrett county are now on Gov. Marvin Mandel's desk for signature, having successfully passed both houses of the Maryland legislature.

They include:

A measure changing the effective dates of licenses from July 1 of each year, rather than the current May effective date;

Lifting the ceiling of $100,000 which the liquor control board now uses to provide liquor sales in the county;

Creation of a class A beer and light wine license with an annual fee of $350;

Changing the closing time on Saturdays from the present 1 a.m. to a new closing time of 2 a.m.

The bills would take effect July 1, if signed.

The Campaign Against Terrorism

Carping critics of the FBI and our law enforcement agencies are so intent upon their attacks that they refuse to acknowledge the dangerous realities of present day extremism and violence. Indeed, some would seem to extol violence by making "folk heroes" of the terrorists.

In the FBI's "Law Enforcement Bulletin," Director Clarence M. Kelley points out that in recent years "there has been in the United States a proliferation of groups with sinister and militant-sounding names that have adopted foreign-bred terrorist tactics as their creed. . . . Thus far this year, for example, individuals affiliated with these groups have been linked with the killing and wounding of police officers, kidnappings, racist murders, bombings, jailbreak attempts, prison riots, bank robberies, urban guerrilla warfare and even the posting of public notices threatening death to any who oppose them."

"Surely," continues Director Kelley, "there are no rational philosophies, programs or grievances that need communication by such methods. . . despite its faults and shortcomings, this Nation offers more peaceable remedies for grievances, real or imagined, than any on earth. . . This is the strength of democracy; its capacity to accommodate a wide range of sharply divided opinions. Reasonable men advancing reasonable arguments need never resort to violence."

Toward the end of stopping the growth of terrorism and violence, the FBI Academy has held many symposiums and several hundred conferences have been conducted throughout the nation with local, State, and other law enforcement agencies, and more sessions are contemplated.

Little wonder, then, that the sneering cynics espousing the Marxist theories of violence should mount their malicious attacks against the FBI. It is the Marxist contention that democracy must be destroyed by violence. It is the FBI's contention that democracy can be preserved without violence. We'll stick with the Bureau, thank you. —U. S. Press Association.

SENSING THE NEWS

ANTHONY HARRIGAN

Southern States Industrial Council

As Others See Us

The world's perception of America has undoubtedly changed in recent years. Earlier in our history, America was regarded as a land of fabulous prosperity. To the immigrants, this was a country where "streets were paved with gold." And the immigrants of the 19th and early 20th centuries knew that the great wealth of the United States stemmed from the hard work of its people. Indeed Americans were regarded as the hardest working people in the world.

Today, however, the world recognizes that our wealth as a nation is threatened by our terrible load of debt. Foreigners observe that taxation in America has become an enormous burden for productive citizens. People abroad question America's future as a land of opportunity. They suspect that the phenomenal worker productivity, which gained the nation the highest standard of living in the world, is waning rapidly.

These doubts and concerns were candidly stated by Kenneth Fleet, a British writer, in a report from America published recently in The Daily Telegraph in London.

"Three developments are taking place in the United States" he said, "which may herald the end of the golden road. They are: 1.) The growing strength and overt political ambitions of American trade unions; 2.) the rapid development of service industries where productivity is at best an elusive concept; and 3.) The vast and sprawling overhead of government."

Mr. Fleet correctly pinpointed the principal threat to the future well-being of the American people. He rightly noted that government spending is not only advancing more rapidly than America's real wealth, but with so many Americans employed in government, the true wealth-creating capacity of American industry is progressively limited.

We need not move toward the great American disaster. But the American people will have to recognize the real threats to their prosperity. At this point, there is little evidence of recognition..

In late December, President Ford signed a bill strengthening the nation's antitrust laws, but the law did nothing about the worst monopoly situation—the union monopoly. By exercising monopoly power over labor in certain industries, union leaders can apply tremendous political and economic power in ways contrary to the national interest and the rights of citizens and communities.

Sen. Paul Fanin (R-Ariz.) noted not long ago, for example, that "The people of Hawaii are almost totally dependent on imports of most of their goods and they live in great fear of the power which lies in the hands of the labor unions to cut off the availability of these goods."

Aside from the problem of monopolistic union practices, we have come to rely unduly, as Mr. Fleet observed on service industries. These are important, but the basic strength of the nation is derived from manufacturing, mining and energy development. These industries provide the foundation for the economy.

Yet in recent years environmental crusaders have sought to shut down existing heavy industry and prevent construction of badly needed new facilities. America must have heavy industries at home. It cannot rely on facilities overseas. These are being nationalized. In recent weeks, for example, Saudi Arabia began the final take over of the Arabian American Oil Co. Venezuela nationalized the Orinoco Mining Co. Everywhere Third World countries are seizing what American enterprise has built.

As for the cost of government—it continues to soar. Dominant liberal forces propose that the nation spend its way out of recession. Hobart Rowen, economic columnist for the Washington Post, writes that but to "spend more money in an effort to stem the slide" . . . bu tto "spend more money in an a dated notion straight out of the New Deal of 40 years ago.

Truly, the American people will have to undergo a severe shock of recognition of reality if they are not to reach "the end of the golden road" as forecast by Mr. Fleet.

House Drafts Amendments To River Measure

Further amendments to legislation to include the Youghiogheny River in the Maryland Wild Rivers Act have been drafted in an effort to allay concerns in this county over the bill.

The legislation would place the Youghiogheny and seven other Maryland rivers under the law and allow the Department of Natural Resources to set down strict guidelines for uses in development of the river.

Some citizens apparently fear the state will set up yet another state park in the county along the river, but Sen. Edward J. Mason said last night he has received assurance from DNR that no such park would be established.

Additional amendments to the bill offered by Del. DeCorsey E. Bolden would:

Establish a wild rivers boundary from Miller's Run to the westerly limits of Friendsville, rather than from the B. and O. railroad bridge near Oakland, to Friendsville;

Increase the local advisory board from five to at least seven, with two from property owners contiguous to the area, two other residents owning land not contiguous to area, and one representing the county commissioners;

Restriction of wild rivers rules to just the scenic corridor of the river, not the buffer zone;

Approval from General Assembly before any program open space funds could be used to acquire land for property rights for the river.

School Officials Anti Closed Shop

Garrett and Allegany County public school officials were in Annapolis yesterday talking against two measures — one creating a "closed shop for teachers" and the other mandating binding arbitration in negotiations with teacher unions.

The Senate already has passed the bill requiring all teachers in public school systems to pay a registration fee to the union representing them, even though they may not be members of the union.

The House also approved the binding arbitration measure which also includes a "no strike" clause for the teachers. Each measure is now in the other house awaiting action.

SB 550 is being heavily lobbied for by the Maryland State Teacher association. It would require that all teachers in the public school system pay registration fees to the union designated as the exclusive bargaining agent for the teachers.

Sen. Edward J. Mason said he supported the bill when it was approved by the Senate because he felt that teachers benefiting from contracts negotiated by the teacher union should have to pay fees to that union. He said teachers have the option of voting in another union if they are not satisfied with their representation or they can vote to have no union at all.

The binding arbitration bill would have a third party step in and make a decision when negotiations break down. Del. DeCorsey E. Bolden voted against this measure.

Both school boards are against both measures.

Problems Facing Elderly Outlined

Some of the problems facing the elderly who have only Social Security benefits to live on, were listed this week by W. Dale Ellis, director of the Senior Citizens programs in the county. He agreed with a columnist who said, "The most pathetic victims of the economic squeeze are the elderly."

Ellis listed a Crellin man who spent $700 on a hearing aid he may not have needed but was persuaded to buy. Had he been able to find a health service first he may have saved several hundred dollars.

He listed an elderly Oakland area man who purchased a hearing aid that he was unable to get serviced. It fell apart despite good care. He said some elderly people are persuaded to purchase excessive health and life insurance which may never benefit them of "fine print" stipulations.

He listed two Loch Lynn women who spent a cold winter because of increased rent costs while the homeowner turned down the thermostat. He pointed out that an elderly housing project could solve some of the problems.

He also spoke of the hardships involved with the increased cost of electricity, and the fuel adjustment cost which came without warning. He spoke of the hardships of the elderly who must try to buy eye glasses or false teeth on Social Security payments.

Mr. Ellis indicated his department hopes to expand and develop the Senior Citizens program further this year, after making some headway during the first six months of the program. He indicated an increase in the information and referral program and a telephone reassurance program.

The department is wanting to provide each elderly citizen with social and recreational needs and a hot meal at least three days a week through centers in Crellin, Jennings, and Kitzmiller.

IN MEMORIAM

In loving memory of our sister, Mildred L. Cuppett, whom God called to rest April 9, 1974.
Have you ever lost a loved one
Who was very dear to you.
One you loved so very much,
And miss her like we do?
Have you ever known a heartache,
Or ever felt a pain, or ever wept those bitter tears
That drop like falling rain?
If you never ever had these feelings then,
I pray you never do.
For when God takes your sister
He is taking a part of you.

LETTER TO THE EDITOR

Dear Sir:

While listening to the news I heard that there is a bill being introduced to stop the manufacturing and sale of handgun ammunition. This disturbs me very much. As you know some handgun ammunition also fits rifles, in fact two of the all time favorite small game rifles are the .22 and the .22 magnum. I wonder if this stupid law would pass how long it would be until another bill is introduced to stop the manufacture and sale of all rifle and shotgun ammunition.

Sometimes I wonder if the communists are running our country. If what I hear about the CIA and the mafia is true, I believe then it's time to clean up our government in Washington now.

If we remember or care to look up the facts preceding Hitler's disarmament of the people of Germany we will find a very similar, almost identical plan being carried out now right here in America.

This proposed bill and all others like it deny us our constitutional rights and I wholeheartedly disapprove. I hope your readers will do as I have and write their congressmen and let them know how they feel.

It is only by our pressure on our elected officials that we can defeat this bill. Thank you.

Man Hospitalized Following Wreck Late Last Friday

A Pennsylvania man was hospitalized overnight in the Garrett County Memorial Hospital following a one-car wreck on U.S. 219 just north of Oakland late Friday evening. Another person was taken to the Meyersdale, Pa., hospital last Wednesday morning.

Herbert Joel Rach, 43, of Monongahela, Pa., was admitted to the hospital following the 8:15 p.m. accident Friday and discharged the following day.

Rach was traveling south on U.S. 219 about a half mile north of Fourth street and lost control of his car on the wet roadway. The car then crossed the road to the left side and struck an embankment. He was apparently suffering from a previously injured back. Tfc. L. R. Rosage investigated. Rach was taken to the hospital by the Southern Rescue Squad.

Ruth Isabel Kinsinger, 60, of Salisbury, Pa., was taken to the Meyersdale Community Hospital by the Northern Rescue squad following a car-truck wreck at Keyser Ridge last Wednesday morning.

Ruth Kinsinger was traveling west on U.S. 40 behind a heavy truck driven by Robert Joseph Kirkham, Jr., Keyser, W. Va. She started to pass the truck just as it started to make a left turn into U.S. 219 and the two collided. The Kinsinger car then struck the curb and SHA information sign. Tfc. Ronald Lewis charged Ruth Kinsinger with passing on the left at an intersection.

One passenger in a car of a two-car mishap in front of the Mt. Lake Park post office was injured last Friday about 1:30 p.m. She was treated and released from the Garrett County Memorial hospital later the same afternoon.

Pearl L. DeWitt, 70, Westernport, was a passtnger in the car driven by George Percy DeWitt, III, Hyattsville. DeWitt was driving west on Md. 135 as Marilyn Sue Foy, Mt. Lake Pk., was driving east. She attempted to turn left and went into the path of the DeWitt car. She was charged by Tfc. G. D. Broadwater with failing to grant the right-of-way when making a left hand turn.

A rig overturned on U.S. 40 near Amish road last Tuesday afternoon with no apparent injuries.

Don Grimm, Uniontown, Pa., was traveling east in his rig and attempted to avoid hitting an unidentified vehicle making an improper pass. The tractor-trailer ran up an embankment and overturned on the roadway. The rig was owned by the Sproul Lumber Co. Tfc. G. A. Berkebile made no charges.

A hit-and-run mishap occurred on Md. 560 about a mile south of Loch Lynn last Friday morning. James E. Baker, RD 2, Oakland, was headed south on Rt. 560 as the unidentified vehicle was headed north. The unidentified vehicle failed to keep to the right of the center of the road and struck the Baker car as it passed.

Tfc. Broadwater investigated.

Two Saturday accidents were listed.

Theodore F. Plechey, Clairage, Pa., was northbound on U.S. 219 just south of Gravely Run road about 1 p.m. last Saturday and followed by Rex Roy Burns, Jr., Bradley Manor, Oakland, in a small truck. Plechey signaled and began to turn right into Gravely Run road. Burns did not notice the movement in time and struck the Plechey car on the right shoulder. Sgt. H. W. Graham charged Burns with failing to reduce speed to avoid a collision.

The car of Charles E. Helbig, Oakland, was parked, unoccupied, headed north on the right shoulder of Old 219 in the McHenry area. David J. Belliotti, Pittsburgh, backed from a parking space into the Helbig car. Belliotti failed to stop but was located by the investigating officer, Tfc. Ronald Lewis, at the Youghiogheny Mountain Club. Belliotti was charged with failing to notify the owner of the car he had struck.

Dennis W. King, Route 42, in Friendsville, had started to make a right turn onto another road from Mattingly Hill road and due to high shoulder had backed up and was in the middle of the road. John R. Ross, Friendsville, came over a hill crest, sideswiped the King car and struck some guardrails. Trooper Ronald C. Georg charged King with failing to keep to the right side of the road. The mishap occurred just before midnight on March 24.

Avoid smashing your thumb with a hammer — hold nail near the head when you start it. If you miss, you'll just knock your fingers away without doing any real damage.

Hot water lines make noises if water is too hot — steam may be created that interferes with free flow. Adjust the hot water heater thermostat to control this.

To remove the stick-on designs that create a non-skid surface in tub or shower, pull off as you would adhesive tape, then scrape with an almost-flat razor blade. Lacquer thinner should remove any residue.

Today, sky diving has become something of a sport, and even if you are low on courage, you can feel fairly safe about a parachute. But what about the brave soul who first tested the parachute? What must his thoughts have been as he donned the machine that would — he hoped — save his life? Who was he? His name was Sebastien Lenormand of France. And he did not really have a parachute. What he used was a conical canopy, he jumped from an observation tower in Montpelier, France in 1783 — and lived to tell the tale.

Hungarian Ballet To End Concert Association Series

The Tri-State Community Concert Association will conclude its 16th season with a performance by the Hungarian Folk Ballet of Budapest and Gypsy Orchestra at 8 p.m. on Thursday, April 3, in the Fort Hill High school auditorium in Cumberland.

Many residents of Oakland and elsewhere in the county subscribed to memberships in the association last May. That membership entitles each holder to attend all five concerts in the current season.

This is the first time that the Hungarian Folk Ballet and Gypsy Orchestra, comprised of 45 musicians, has toured the United States.

Istvan Molnac, founder-director, created the first company more than 25 years ago to preserve Hungary's rich and varied past.

The association will begin its 17th annual membership drive with the renewal phase starting April 6.

A case of non-support was stetted because of civil action being taken in Preston County, W. Va. Otto White, Crellin, had been charged with non-support of his wife, in Deer Park, since last June.

For operating without registration card in possession, he was found guilty but a $25 fine was suspended. On the charge of allowing an unauthorized person to operate a vehicle, the not guilty plea was sustained.

James R. Otto, RD 1, Swanton, had been charged with disorderly intoxication at RD 1, Swanton, March 1. The case was dismissed as the wife would not testify.

Two cases of worthless checks were heard and both dropped as restitution had been made. The charges were against Mary L. Everett, RD 1, Oakland, and Mary Downton, Grantsville.

Who Promotes Americanism?

Americanism is the concept that:

1. God is the source of our rights, and no government can take them away.
2. LIMITATION of government is the essence of freedom.
3. Individuals SHOULD conduct their lives according to FREELY ACCEPTED moral restraint.

DOES THE U.S GOVERNMENT PROMOTE AMERICANISM TODAY? The honest answer would have to be no. God has been permanently suspended from all government (public) schools by the Supreme Court. The Executvie Branch has created, with the approval of the legislature, an immense bureaucracy, which gets bigger and more expensive every day. Virtually all Americans agree that taxes are too high. Federal welfare programs alone cost the taxpayers 131 billion dollars a year — that is $1600 per worker per year. Some 130 million man-hours are wasted each year because businessmen must spend them completing paperwork for various Federal bureaus. The average taxpayer now works from January 1 'til May 1 of each year just to pay his taxes. IS THIS LIMITATION OF GOVERNMENT? No. There is not one agency of the Federal Government working to LIMIT GOVERNMENT!

DO THE AMERICAN PEOPLE PROMOTE AMERICANISM? For the most part, us ordinary Americans FAVOR Americanism, but we do not PROMOTE it. Many of us WANT to help make our nation strong and sane again, but we DON'T KNOW HOW. We are amazed and confused when we hear that we are giving scarce wheat and feed grain to our sworn enemies. Our leaders say they can't stop inflation. Why? Jobs have become scarce. Why? Taxes are higher than ever before. Why?

Members of the John Birch Society (JBS) have been saying for years that there is planning and organization behind many of our nation's problems. The JBS has been actively promoting Americanism all over the nation since 1958. We thoroughly understand the real causes of our nation's woes, and we are committed to helping you to understand them too. We have a positive program and years of experience. More and more local residents are taking time to hear what we have to say.

If you are concerned about our great nation, we hope that you will find out more about us. Perhaps you will want to become a part of our great educational army.

My Tree

Arbor Day in our state reiterates what we hear on the TV program: "Maryland has it all." Swamp oak, magnolia, holly, table mountain pine, loblolly - there seems to be no end to the diversity of our trees. We also have the white pine, which is now so popular for landscaping. It has such clean lines! Whoever again has included its symbol along with the oak leaf on Maryland's forestry emblem, has my salute.

Eric Sloan calls the white pine the all-American tree. New Englanders honored it enough to use it on their colonial flag in defiance of British rule, and its image was on our first coinage, the Massachusetts pine tree shilling.

My favorite white pine stands alone, a sentinel seen from a picture window (in the true sense) at Finzel. How this isolated tree has survived in a field which was often cultivated, we cannot guess, but maybe some one person realized how beautiful it would one day be. The most terrible intimation heard by our family in many years was the lumberman's suggestion that it would be worth a lot to him and the seller. But we threatened that owner - she couldn't withstand our feelings, so the monarch is extant.

On balmy spring mornings the mountain air resounded with bird calls from its branches, on this west side of Little Savage, and we were awakened. On cold blowing snowy nights the fire roared in the black kitchen stove, while beside it, frost covered the picture window, but never quite obscured the deep shadow of the white pine standing there, sighing as if bathed by the bitter wind. After each snowfall, a sparkling expanse of white contrasted with the aged green of our tree. But as the moon rose behind its boughs on a clear night, the pine was loveliest, and so it rtmains.

Years ago, the corn surrounded it, and on some evenings the children watered cabages nearby. Several times we planted and harvested potatoes while wishing we could rest in its shade. For some time a thicket of rocks and briers surrounded it, but a youngster gently cleared them away, and there it stands, stalwart and American, damaged by the weekend severe December snow, but strong in endurance.

This white pine is probably Finzel's centennial tree, for the hamlet's settlement in 1858 would make a new sapling then into a centenarian now. Its spreading crown is an assertion of its advanced age. This isolated tree has marked the childhoods of three generations. Perhaps that is why we have adopted it as our very own, for under its green surveillance we grew up.

Deep Creek Zoning Ordinance Drafted

The Garrett County Planning Commission has completed a draft zoning ordinance for the Deep Creek Lake Zoning District and has recommended that the County Commissioners consider this ordinance for adoption. According to Charles C. Bender, Chairman of the Planning Commission, this draft zoning ordinance would replace Interim Zoning ordinance adopted by the County Commissioners in 1971 as a temporary moratorium on certain types of commercial development in the Deep Creek Lake area.

During the past three years, the Planning Commission has studied development trends, land-use patterns, and recreational use of Deep Creek Lake to determine the optimum areas of the lake for different types of development and to match the locations of higher density residential and commercial development with planned county improvements such as roads and sewer lines. The recommendations made by the Planning Commisison were included in the Garrett County Comprehensive Development Plan adopted by the County Commissioners in May, 1974.

Following the adoption of the plan, the Planning Commission began preparation of the Deep Creek Lake zoning ordinance. According to Mr. Bender, the draft zoning ordinance reflects the land-use recommendations contained in the plan, would establish areas for commercial, higher density residential, and "second home" lower density development. In addition, standards for "Lake access" development are proposed in this draft ordinance.

The Planning Commission conducted approximately 15 public meetings in the Lake area during the three years involved in the Lake study, according to Marshall Rickert, County Planning Director. In addition, numerous meetings with business and property owners organizations were held. Following the drafting of the ordinance, copies were sent to the Deep Creek Lake Businessmen's Association, the Property Owner's Association, the Save Deep Creek Lake Association, and the League of Women Voters for review. Most of the comments from these organizations were incorporated in the draft ordinance, Rickert added.

The County Commissioners will conduct a public hearing on this ordinance on April 26 at Garrett Community College at 10 a.m. In addition to Mr. Bender, other members of the Planning Commission are Wayne Hamilton, George Brady, Thurl Tower, Haig Jackson, Robert O. Glotfelty and Merle Garletts.

To Break Ground Sunday For New Lutheran Church

A ground breaking ceremony, signifying the start of construction of a new Lutheran church, corner of Second and Center streets, in Oakland, will be held next Sunday morning, April 6, at 11 o'clock, immediately following the morning worship service, it was announced by J. Haig Jackson, chairman of the building committee.

The construction of the new $292,000 facility was authorized several months ago by the congregation, at an official congregational meeting.

The one-story structure, with basement, will include a number of Sunday Church School facilities and kitchen in the basement area.

A spade of earth is to be turned by five individuals; J. Haig Jackson as chairman of the building committee; Mrs. Polly Hanst as president of the church council; Donald R. Sincell, member of long standing, who was instrumental in negotiations for the property a number of years ago from Zaidee Browning; Eugene Durben, representing the youth; and Dale Bittinger, representing the children.

Included in the program will be music by St. Mark's choir, directed by Mrs. Jack Turney, with brass accompaniment by Donald W. Sincell, Joe Ashby, Laurie Warren and Steve Filemyr; a hymn, psalm and scripture lesson, and remarks by Mrs. Hanst, as church council president.

Present for the occasion will be Donald Heath, of Fulton and Heath, architects, Uniontown, Pa., and William A. Shirer, Oakland contractor.

A brunch type reception will follow immediately after the service to be held at the Community room of the First National Bank building nearby.

The present structure was constructed in 1906 and has served the congregation for almost seventy-five years. It will still be used for Sunday Church School purposes and other activities. Completion is set for 1976.

Quite A Girl!

Aunt Sara looks about as stern as they come, doesn't she? As they used to say, "butter wouldn't melt in her mouth." I don't remember the occasion of this picture, since I was the baby. But I do remember Great Aunt Sara very vividly and she was quite a girl!

She was what they call a "pillar of the church." She must have baked an astronomical number of chicken pies for church suppers and served on almost every committee at one time or another. You might say she was pious, a word we don't usually care for. What I mean is that she revered her God and loved Him.

She also had a tremendous sense of humor. I remember she used to tell the funniest stories.

The point is this. So often people mistake religious fervor for a certain "holier than thou" attitude. They don't believe that humor and religion go together. But Aunt Sara proved them wrong. The Church encompasses all of life—humor and wit—as well as love and compassion . . . and so much more! You can easily find out for yourself.

ON SEEING STARS

Lesson for April 6, 1975

Background Scripture: Psalms 104.
Devotional Reading: Psalms 95:1-7.

Some evenings ago, frustrated with seemingly endless and insoluble problems, I decided to take a walk in order to "clear out the cobwebs." As I walked along in the inky darkness, I happened to glance upwards and was surprised to find the dark sky punctured with millions of bright, shining lights. Like a gawking tourist who was seeing them for the first time, I stood and stared upward for a long time.

Rev. Althouse

Suddenly I was aware that the "cobwebs" were gone. The light of those myriad stars had cleared my vision. For a while I was absorbed into something that utterly dwarfed my problems: a picture window into God's great universe!

"Thou art very great!"

When was the last time you stood and looked into the sky on a beautiful starry night? Can you remember in your mind's eye the thousands of twinkling lights? Few of us can look into such a sky without a deep sense of awe and reverence overcoming us.

It had been a long time since I had looked into the heavens on such a night. This is a statement I make with regret since it is only a matter of a few days since I had seen a cruel face, a littered lawn, a dingy street. I am not suggesting that we should not look at these things—we can hardly help it—but that if we only see these things and miss the starry skies, the red sunsets, and the wild flowers of the field, we are missing something vital.

The ancient man lived closer to these things than most of us do today. He tended flocks on the hills of Judea and had the whole evening to contemplate the heavens. He walked along winding roads and had time to see the wayside flowers and stop beside the quiet pools and springs.

Not us ... we whizz along the highways, seeing little but the ever present billboards and discarded refuse. We drive to school, to work, to play and there is no time for wayside flowers and quiet streams.

"I will sing praise"

A number of years ago I led a group of highschool youths on a bicycle trip over some terrain that I thought was quite familiar to me. Many times I had driven over the roads of this area. Yet, how different it seemed by bicycle! How differently things looked! There were so many thing I had never even noticed before.

Perhaps this is why we miss so much that is around us: we don't take time to really see what is there. Yet, when we do, we find God speaking to us through what he has created. Suddenly we are confronted with something bigger than ourselves and our own problems and concerns.

Obviously, it was an experience such as this that led the psalmist to declare:

Bless the Lord, O my soul!
O Lord my God, thou art very great!
(Psalms 104:1)

When life closes in around us and we have forgotten the Source of our being, it is then that we must once again lift up our eyes and see the stars and turn once more to the Creator who made us and sustains us.

By
Congressman Goodloe Byron
Maryland—Sixth District

The regular column serves as another vehicle to keep in touch with all segments of my constituency. It is an open invitation for you to question me on issues, let me assist you with your problems, request information or comment on whatever happens to be on your mind. Letters should be sent to me, c/o U. S. House of Representatives, Washington, D. C. 20515. While space is obviously limited for printing all replies, I shall make every effort to answer each person who contacts me.

The following questions were typical of the kind asked of me in recent weeks;

I understand that a measure has been introduced in Congress to provide health benefits for the unemployed. Has any action been taken on the bill?

Hearings are currently being held on legislation that would guarantee the unemployed health insurance benefits they lose along with their jobs. A recommendation from the House Ways and Means Committee and the Interstate & Foreign Commerce Committee is expected in the near future.

What is the maximum insurance coverage available for members of the Reserves or National Guard?

Under the Veterans' Insurance Act of 1974 the maximum amount of Servicemen's Group Life Insurance was increased from $15,000 to $20,000.

Will you suport the emergency employment program to be voted on in the House this month?

Last week the House passed the Emergency Employment Appropriations Act. I voted in favor of this measure because it will create jobs in areas such as the emergency public service employment program, the summer youth jobs program and the college work-study program. Jobs will also be created indirectly by accelerating work on a variety of federal public work projects.

What were the results of your questionnaire relating to the matter of wage-price controls?

By a narrow margin of 53 percent to 47 percent, respondents favored strict wage-price controls. On other economic matters, overwhelming majorities supported cuts in federal spending, loosening monetary controls to reduce interest rates, a tax cut, and the creation of public employment programs to aid the unemployed.

How did you vote on the foreign aid bill recently passed by Congress?

I voted against the $3.5 billion foreign aid appropriation. I believe it is time to tighten our monetary belt abroad and provide financial aid for those in need at home.

The New Label

Those squares of parallel lines appearing on labels is not modern art. Many cans, cartons and packages found in the supermarket now carry this design. At first glance the squares all seem to be the same, but they aren't.

The new design actually is an identification code. The Universal product code, (UPC). Individual codes have been designed to each product with the exception of fresh produce. These codes are designed for use with an electronic checkout system.

The UPC will gradually replace the conventional price markings. The code contains a series of lines of varying width with a series of numbers beneath them. These are the "language of the computer." The first five numbers identifies the manufacturer, the second 5 the product.

Stores are gradually changing to the electronic checkout system. Some large chains have already installed the first segment of the system and expect to complete it within a year. The system offers advantage to both the consumer and to the retailer. For the consumer it means:

—Faster service at the checkout stand: as usual, the shopper will place all merchandise on the counter. But instead of the cashier reading each price and ringing it up by hand she will merely pass each coded item across the "Optical Scanner" which translates the Universal product Code to the terminal. The terminal (the unit which replaced the cash register) will translate the code automatically flash the price, identifying the item and abbreviation of the manufacturer's name on the display panel, and at the same time print the information on the sales slip. All this takes less than 1 second. The checkout time is expected to be reduced by at least one-half.

—A more detailed sales slip: The new sales slip will list the name of each item along with its price. This will provide shoppers with detailed information which can be helpful in planning the weekly food budget.

— Increased accuracy. There is less chance of error. Since the price of each item is fed into the system, errors in reading prices and of striking the wrong key on the cash register will be removed.

— Customer inconveniences caused by "out-of-stock" items: Because of the structure of the system the retailer can at any given time determine his inventory of any product. This will enable him to reorder before stocks are depleted.

Retailers are continually trying to improve both their services and the effeciency of their operations. The new UPC is another step into the future.

CARD OF THANKS

I would like to take this opportunity to thank my many friends who sent gifts, cards, and most of all, for all who prayed for me, while I was a surgical patient at G. C. Memorial Hospital. There is no other method of thanking everyone. I also want to thank the nurses and staff of the third floor for taking such good care of me, and to thank Dr. Thomas for everything.

May God bless you all.

American Christian Freedom and Responsibility

By Rev. W. H. Leake, Deer Park, Md.

COMMUNISTS ENTER THE TEXTBOOK CONTROVERSY. Our national news media would have us believe that the forces opposing the controversial textbooks in Kanawha County, West Virginia, are "bigoted right-wing extremists", to use one of their kinder expressions. Certain groups have been singled out repeatedly in attempts to discredit all opponents of these disputed textbooks.

On the other hand, the forces promoting these textbooks are depicted as virtuous defenders of "academic freedom."

With such obvious slanting by our national news media in the coverage of the textbook controversy, it is not surprising that there has been no mention, to our knowledge, of the part played by the Communist Party, U.S.A. Thus, we feel this is an aspect which needs to be exposed. On December 5, 1974, the Communist Party of West Virginia issued a statement urging support for the textbooks. The Communist statement called opponents "redbaiters," a long-time Communist smear term. In attacking the textbook opponents, the Communist statement also attacked the so-called "immorality" of our free enterprise system. The statement said: "The Communist Party ... calls on all supporters ... to join a fight" for the textbooks.

The January 29, 1975, Communists DAILY WORLD ran a front-page headline article viciously condemning the "campaign against textbooks in West Virginia." The February 19 Communist DAILY WORLD referred to what it characterized as the "know-nothing attack on textbooks in Kanawha County, W. Va."

The Communist DAILY WORLD of February 22 featured a full two-page spread in its magazine section entitled "The Kanawha Fight Is About More Than Textbooks." This lengthy article was "a statement by the Coal Commission of the Communist Party and the West Virginia Communist Party."

The Communist statement called the adoption of these textbooks "a victory for academic freedom in West Virginia and throughout the country" and demanded that the Kanawha County school system "must continue to expand upon the use" of such books.

The statement declared: "Should these reactionaries succeed in removing ... the school books, they would deal democracy a serious setback" ... "as Communists, we call upon all these forces ... to pool their strength together. We call upon workers, intellectuals, housewives, parents, teachers, clergymen, and people in the black community to work together ... against the charlatans and right-wing goons leading the anti-textbook movement."

WHY IS SUCH IMPORTANT INFORMATION ON THE COMMUNIST ROLE IN THE TEXTBOOK CONTROVERSY KEPT FROM THE AMERICAN PEOPLE? Readers of this column should disseminate these vital facts to uninformed fellow citizens and make every effort to expose the truths about some of the promoters of these dangerous, evil textbooks.

PUBLIC NOTICE

Notice is hereby given that the State Highway Administration of the Maryland Department of Transportation will conduct an Interim Alternatives Location Meeting with respect to the proposed relocation of Maryland Route 42, in Garrett County. The limits of the project extend from U. S. Route 219 to relocated Maryland Route 42, south of Friendsville, a distance of approximately 7.2 miles.

This project is currently in the State Secondary Highway Improvement Program (1976-1980) for project planning. No other activity is scheduled during the program period. This meeting is one of the initial steps in meeting Federal and State requirements to complete the necessary preliminary work to ready this project for possible inclusion in future construction programs.

The public meeting will be conducted in the Friendsville Elementary School Auditorium, located just off existing Maryland Route 42, in the Town of Friendsville, on Tuesday, April 22, 1975, commencing at 7:30 p.m.

All interested persons are invited to attend this meeting. The purpose of this type of meeting is to allow the Project Planning Team to acquaint those in attendance with the studies as they have been developed to date. The advantages and disadvantages of each alternative will be discussed and recommendations made, as to which alternates should be fully developed for presentation at a future public hearing.

Time will be provided for those in attendance to form small discussion groups with members of the Project Planning Team, providing the opportunity for an exchange of information on a more personal basis.

Beginning April 8, 1975, the Interim Location Report will be on display, for public inspection, at The State Highway Administration's District #6 Office, located on Braddock Road in LaVale, Maryland.

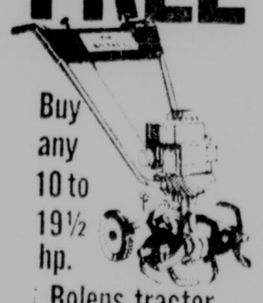
Lunar Apogee

The moon is in orbit around the earth. In the 17th century Johannes Kepler discovered that the planets move in elliptical orbits. Studies of the Lunar orbit indicate that it too is an elipse. Since the earth is not at the center of the elipse formed by the moon's orbit, the moon is not always the same distance from the earth. When the moon is at its greatest distance from the earth, it is at its apogee. The moon will be at apogee on Monday at 12:00 noon. It will be 405,870 kilometers (252,250 miles) from the earth at this time.

Last Quarter phase of the moon occurred this morning at 8:25 a.m. This week the moon will be seen in the morning sky as a crescent passing near Mars in the southeast on Sunday, Monday and Tuesday.

The visible planets are Venus, Mars and Saturn. Venus dominates the evening sky in the west. It sets about three hours after the sun. Saturn remains among the stars of Gemini setting before midnight. Mars rises about two hours before the sun. It will be near the crescent moon in the early morning sky this week.



There will be fifteen minutes more daylight Wednesday than we experience today. Sunrise was at 7:00 a.m. this morning. Sunset wil be twelve hours forty-three minutes later. Wednesday the sun rises nine minutes earlier than it did today. It will set twelve hours fifty-eight minutes later.

VOLUME 99 | OAKLAND, GARRETT COUNTY, MD. APRIL 10, 1975 | PER COPY 15c | NUMBER 6

COMING SATURDAY — Stonewall Jackson, right, and his Minutemen will perform country and western style Saturday evening, April 12, in the Southern High School gymnasium, sponsored by the Oakland-Mt. Lake Park Lions Club. Stonewall, known as the superstar of country music, has written many of the songs he sings. Also appearing will be "Bill Atkinson and the Country Gents" with Julia Howe, Frostburg, as vocalist. Tickets are $3.00 in advance from any Lions club member and from either the First National or Garrett National Bank, or $3.50 at the door Saturday evening. Proceeds will go for community projects supervised by the Lions club.

Operation Engrave Underway Through Police Lodge 99

In 1974, there were 513 reported breakings, enterings and larcenies in this county, with approximately $60,000 worth of merchandise stolen.

In only eight to ten percent of the cases were the stolen items recovered, because insufficient information concerning the items was available from the owners.

In order to combat this problem, members of Fraternal Order of Police, Lodge 99, are offering the use of an engraver free of charge to the public. The lodge recently purchased ten of these engravers, which will write on any hard surface, so that local residents may mark their furniture, appliances, televisions, etc., with their name or social security number for easy identification.

Called "Operation Engrave", the project was begun in mid-March under the instigation of sheriff's deputy David Livengood. Anyone interested in using the engraver may contact either the sheriff's office or the Oakland city police. Deputy Livengood is also available to speak to groups and organizations which may be interested in such a project.

The lodge also plans to offer forms to the public to be filled out with make, model and serial number of all televisions, stereos, etc. One section of the form will be kept by the owner, and the other given to the lodge to be kept in a master file for easy reference.

Once such information is obtained, if merchandise is stolen and turns up in another town or state, the information can be fed into the National Crime Information Center computer and thus traced to the original owner.

Man Charged With Larceny, Acquitted

The motion of acquittal was made and granted by Chief Judge Stuart F. Hamill, Jr.

The cable was valued at $188 and the case was transferred from District Court in June.

The Garrett County Alcoholism Services has received formal notification of accreditation by the Joint Commission on Accreditation of Hospitals, Accreditation Council for Psychiatric Facilities, it was announced by Lowell Bender, chairman of the local Program Advisory Board.

Nine other alcoholism programs in Maryland have received accreditation, including Johns Hopkins Hospital and the University of Maryland.

Broadford Dam Recreation Area To Open April 19

The Broadford Dam recreation area located on the North side of the Broadford Dam, just East of the town of Mountain Lake Park, will open on Saturday, April 19, for fishing and picnicking only, officials announced. The Broadford Recreation Area is owned and operated by the Town of Oakland as part of the Broadford Dam Project which also includes water supply and flood control. It is anticipated formal opening of the park will be held later this year.

The Recreation Area was constructed at a cost in excess of $700,000.00. Funding for the Recreation Area was supplied by the Soil Conservation Service, the Appalachian Regional Commission, and the Town of Oakland through funds borrowed from the Farmers Home Administration. The dam has been stocked with fish by the Department of Natural Resources.

The Operation and Maintenance Agreement between the Soil Conservation Service and the Town of Oakland requires admission fees be charged to amortize the cost of the facility. The daily charge per person is twenty-five cents. A car and driver will be admitted for $1.50. Annual passes for an individual are $5.00 except for any child under 12 for whom the pass is $3.00. An annual pass for a car and driver is $15.00. A boat is admitted for $1.00.

No trail bikes are permitted to be used off the roadway and no boats are permitted to remain overnight in the area. Use of sail boats on the lake is limited by the restrictions imposed by overhead electrical transmission lines which cross the lake.

The park will be open each day and will close at sunset. For the time being only the Pittsburgh Avenue (Mt. Lake Park) gate will be open and the Broadford Road gate will be closed, it was stated.

County To Get $159,600 From New Tax Measure

Local governments will receive $159,600 from a tax package enacted Monday by the Maryland General Assembly.

School Board Bill Is Killed In Legislature

Measure Proposed The Election Of Board Of Education Members With Referendum

The bill proposing a 1976 referendum for an elected board of education in this county failed to pass in the Maryland legislature, it was learned from Delegate DeCorsey E. Bolden this week. The legislature adjourned Monday evening.

The bill became bogged down in the state senate after it had been passed by the House.

Bolden explained that the bill called for the question to be placed on the general election ballot. State Senator Mason amended the bill in the Senate so that it would be held at the primary election.

The bill originally called for a five member board, to be phased in during 1978, 1980 and 1982 elections. Senator Mason wanted all members to be elected in 1976. He also wanted a seven member board, two to be from each commissioner district and one at large who would be the chairman. Bolden said Mason also wanted four year terms with no limit on the number of times to be re-elected. Bolden said he had stipulated six year terms with a limit of two terms.

The two legislatures will discuss proposed amendments and probably reintroduce the measure next year. Delegate Bolden, in his re-election campaign, had pledged to introduce legislation to allow the county to vote on whether or not they wanted an elected school board.

Public hearings will probably be held on the subject, he indicated.

Scenic River Bill Passes

Delegate Bolden said the Wild Rivers bill passed both houses. The measure establishes the Yough River scenic area from Miller's Run to the western limits of the town of Friendsville and creates a local advisory council of at least seven members, with more to be named if desired. Two landowners would be contiguous to the river, two landowners within the county, one representative of local government and two soil conservation district members. They would be appointed with advice and consent of the county commissioners.

Among other legislation passed was a measure to prohibit West Virginia Methodist conference from acquiring church property formerly owned by the Church of the Brethren. This disagreement arose when some churches merged and there was uncertainty as to ownership of the church buildings.

A measure excluding silos from real property tax also passed.

Man Is Sent To Pen For 8 Years On Two Charges

A man found guilty by jury at a trial March 24 was sentenced Monday by Chief Judge Stuart F. Hamill, Jr., to eight years to the Maryland Penitentiary on two charges.

Edwin Alan Lewis of the Swallow Falls area, pleaded not guilty of breaking and entering and grand larceny but was found guilty of both by the jury at the March trial. At the time Judge Hamill ordered a pre-sentence investigation. Following the investigation Judge Hamill sentenced Lewis to the Commissioner of Correction for a period of eight years.

Lewis was involved in the break-in and theft at Maple View Inn near Deer Park last November.

Man Is Held On $25,000 Bond On Charge Of Rape

Bond of $25,000 was set at a preliminary hearing for a man charged with rape in District Court by Judge Lewis R. Jones Tuesday. Two others were found not guilty and six charges were dropped.

Roger Lee Mattingly, Oakland, received a preliminary hearing Tuesday. At that time he was ordered held on $25,000 bond for trial in Circuit Court. Mattingly has been charged with rape of a minor in March.

Two persons were found not guilty. Paul D. Thayer, Mt. Lake Park, had been charged with assault and battery and Gary L. Duff, Front Royal, Va., had been charged with larceny of items with total value under $100 from Pritts Garage, in Oakland.

Six cases were dismissed for various reasons:

David Tracy, Rowlesburg, W. Va., and Zane T. Riggleman, of Swanton, had been charged with non-suport of their wives and children, but now payments are being made.

Robert W. Rounds, RD 2, in Grantsville, had been charged with assault and battery on his wife but she refused to testify at a trial.

Annoying Spring Blizzard Hits Area

early Spring blizzard struck the Mountain Top last Thursday. The thick blowing, blinding snow caused a rash of twelve accidents in a four and a half hour period. Schools were closed Friday because of the continuing storm with poor visibility and slippery roads.

The school closing last Friday will be the first day to be made up in the school year. State and county roads spokesmen indicated no particular difficulties had been encountered because of the storm. Six of the twelve accidents occurred within a fifteen minute period.

Last Thursday morning's mixture of rain, sleet and snow blown by gale force winds, turned to snow before noon. High winds, gale force at times, with some snow continued through Friday. Some flurries

W. Curtis Durst, 46, Swanton, Died Of Fractured Skull Tuesday Morning

W. Curtis Durst, 46, of route 1, Swanton, was killed almost instantly Tuesday, April 8, while at work at the Wood Products company in the Oakland Industrial Park, just southeast of town.

He was fatally injured about 10:45 a.m. when he was struck in the head by a piece of board while he was operating an edger at the plant.

Mr. Durst was pronounced dead on arrival at Garrett County Memorial hospital, Oakland, where he was transported by the Southern Garrett County Rescue squad. Dr. James H. Feaster, Jr., deputy state medical examiner, said the man died of a fractured skull.

Born near Swanton, the victim was a son of the late William E. and Sarah P. Casteel Durst.

Surviving are four half sisters, Mrs. Hattie Murphy, Mrs. Lois Howell, Cumberland; Mrs. Catherine McCracken, Mesa, Calif.; Mrs. E. Marie Nicklow, Oakland; two half brothers, Lester F. Durst, Swanton, and Vernon E. Durst, Cumberland.

The body was taken to the Stewart Funeral Home in Oakland. Funeral services will be conducted from the funeral home Friday afternoon at 2 o'clock with Rev. Alva Maust officiating. Interment will be in the Broadwater cemetery, at Swanton.

Teacher Bills Fail Passage

Two bills affecting teachers, one creating a "closed shop" and the other requiring local boards to submit to binding arbitration, were killed in the closing hours of the General Assembly session Monday.

The Senate bill requiring all teachers in the state to pay registration fees to the teacher union representing them at the bargaining table died in the House.

A House measure setting up the binding arbitration policy plus a "no strike" clause for teachers, failed to get action in the Senate.

The first bill would have required non members of the union to pay the negotiation fee.

In another education related area, the House enacted SB 866 increasing state assistance to Garrett Community college and Chesapeake Community college. The colleges, the two smallest community colleges in Maryland now receive $1,100 per full time equivalent student. The state share will be increased to $1,300 beginning July 1.

Biology Students To Participate In Pilot Program

A pilot enrichment program for some students in the tenth grade biology classes for Northern and Southern high schools has been approved by the Board of Education. This will be a resident program for four days and three nights at Camp Hickory, adjacent to Northern High school, Accident.

Dates of the program will be April 14-17 for students of Northern High, April 21-24 for students of Southern high. Instructors for this activity will be Charles F. Strauss and Joseph L. Winters.

Instructors explained that in this program the students will examine a naturel biotic community to identify as many kinds of interrelationships between species as possible. Students will study the diversity, density and abundance of the organisms in a selected area and will attempt to evaluate their functional relationships in the community.

They explained that during the two week program there would be evening seminars by resource persons dealing with ecology of Western Maryland. Monday evenings Ed Golden will speak on "Wildlife and Its Management-emphasis." Tuesday evenings, R. W. Morrow, Jr., will present a program on "Environment Crisis." Wednesday evenings Kent Fuller will speak on "Pollution and Ecology."

Snow, Wind Play Havoc On Roads; Many Accidents

Blowing snow played havoc on county highways last Thursday afternoon between noon and 4:30 causing numerous accidents. Many persons sustained injury, five were admitted to Garrett County Hospital, and several were treated and released. In all, twelve accidents occurred, with six between 3:00 and 3:15. There were no injuries in some of the accidents. Twenty-eight vehicles were involved.

Four persons, of apparently the same family, were admitted to the hospital and discharged the following day. The injured were Thomas. A. Grantham, 22, operator of the car, and three passengers: Stanford B., 24, Judy A., 20, and Marie E. Grantham, 24, all of Shepherdstown, W. Va.

David D. Judy, Arthur, W. Va., was traveling west on U.S. 50 just west of Wilson-Corunna road as the Grantham car was traveling east. Due to high winds and blowing snow and very limited visibility, the two vehicles collided head-on. Trooper J. E. Foley investigated.

Earlier in the afternoon a 79 year old woman was taken to the hospital following a wreck on U.S. 219 just north of Silver Knob road.

Mrs. Sadie Gnegy, RD 2, Oakland, was admitted but since discharged. She was one of two passengers in a car operated by Ruth V. Gnegy Arnold, also of RD 2, Oakland. Two vehicles, a light truck operated by Robert W. Friend, RD 1, Oakland, and the Arnold car were traveling south. Friend had stopped or slowed down due to blowing snow and very poor visibility. As a result, Ruth Arnold was unable to see the Friend truck and struck it in the rear. Trooper Foley investigated this one also.

The operator of the middle car of a three-car chain reaction wreck, was treated and released from the Garrett County Memorial Hospital. The accident occurred on U.S. 219 about a mile and a half south of Oakland about 3 o'clock.

The injured were Gloria M. Riley, 60, of RD 2, Oakland, and Daniel M. Miller, operator of a second car, and his pasenger, Grace M. Miller, both of Md. 669, Grantsville. The latter two were not treated at the hospital. Miller had stopped for a SHA snow plow and was struck in the rear by the Riley car. The Riley car was then struck in the rear by a car driven by Adam J. Lucas, Jr., RD 2, Oakland. All cars were headed south on U.S. 219. The road was snow-covered. Charges are pending according to Sgt. H. W. Graham who investigated. The Riley car was called a total loss.

Another two-car accident occurred at the same time farther south on U.S. 219 near the Wes White road. There were no apparent injuries in this one. Elmer H. Dillsworth and Sara H. Ramsey, both of RD 2, Oakland, were traveling south on U.S. 219. Due to wind and blowing snow, Dillsworth slowed or stopped in the road. Sara Ramsey, following was unable to stop and struck the rear of the Dillsworth car. The Ramsey car was then struck in the rear by an unidentified vehicle which failed to stop. Trooper Foley charged Sara Ramsey with driving without a license.

Arthur G. Kitzmiller, RD 1, Swanton, was slightly injured in a two-vehicle mishap on Md. 135 near the Deer Park road at 3:10 p.m. Kitzmiller, in a pickup, was in the process of making a left turn into a private drive from Md. 135, Shirley L. Beckman, RD 1, Swanton, was traveling east on 135. Kitzmiller failed to notice the Beckman car due to severe blowing snow and the collision occurred on the right roadside. Tfc. C. H. Hinnant investigated.

A little later in the afternoon two passengers were apparently only slightly injured in a two-vehicle collision on U.S. 219 near Gravely Run road.

John B. Miner, operator, and his passenger, Mary G. Miner, both of Atlanta, Ga., were the injured. They were traveling south on 219 when a car driven by Donald J. Baker Jr., Oak street, Oakland, pulled from Gravely Run road to go south on 219, into their path, and the two collided. Sgt. Graham charged Baker with failing to stop before entering a highway.

Two other accidents occurred at 3 o'clock but these did not involve any apparent injuries.

Golden G. Weaver, RD 2, Oakland, in a pickup, was traveling north on Md. 560 just south of Garrett road as John E. Glover, Petersburg, W. Va., was going south. Due to poor visibility because of high winds and blowing snow, the two vehicles collided head-on. According to appearance of debris on the road, the collision occurred in the north-bound lane. Trooper Foley investigated.

Carl H. Sapp, Newburg, W. Va., Darrell F. Radford, Eglon, W. Va., and David R. Anderson, Warren, Vt., were all headed west on U.S. 50 just east of U.S. 219 at 3 p.m. All three were slowing or stopped for an unknown vehicle ahead. Gary E. Holland, Reese street, Oakland, following Anderson, struck his car and a chain reaction followed involving the other two cars. Visibility was reduced to zero by blowing snow. Cpl. S. M. Russell investigated.

A double accident occurred on Md. 495 about a mile south of Grantsville at 4 o'clock in the afternoon. The first involved a school bus. Trooper R. C. Georg investigated both.

Harvey R. Mason, RD, in Grantsville, stopped in the roadway with the front end of his car in a ditch. Blain M. Bowser, Star route, Grantsville, driver of the school bus with 45 passengers aboard, could not see the Mason car due to blowing snow, struck it in the rear, skidded to the left of the road and over an embankment. Mason left the scene without identification and was charged with leaving the scene of a vehicle accident.

Blain Hetrick, Fort Hill, Pa., had stopped because of the above accident and was drifting backward from another vehicle involved. Hetrick drifted back into a truck driven by Theodore H. House, RD 1, Grantsville. Paul R. Stark, Frostburg, in a pickup, ran into the rear of the House truck. The driver of each vehicle could not see for blinding, blowing snow.

In a 1:30 mishap Junell Jo Shaluta, RD 2, Oakland, and Pete J. Vescovi, New York City, in a recreational vehicle, were traveling south on U.S. 219 about a mile north of Gortner. Due to weather conditions, with visibility reduced to zero, Vescovi struck the Shaluta car in the rear, stopped on the roadway. Cpl. Russell investigated this one.

The first mishap of the afternoon series occurred at 12:10 on Md. 135 at the western edge of Mt. Lake Park. Richard W. Wildesen, Swanton, was traveling east and Theodore R. Jones, RD 1, Swanton, west. Jones failing to keep to the right side of the road due to prevailing weather conditions, struck the Wildesen car. Tpr. Hinnant investigated.

Food Day Will Be Observed April 17

Food Day, a national day for action on the food crisis, will be observed in Garrett County on Thursday, April 17, according to an announcement by Margaret Boyle, county nutritionist, located at the county health department office.

She said the event was being modeled after "Earth Day," staged by environmental groups in 1970. She said it was an opportunity for concerned persons to join in promoting action related to the three major areas, food prices, world hunger and quality of the American diet.

Miss Boyle provided some facts related to the day which would give opportunity to concentrate on the day in a special way.

She pointed out that one-third of the population does not get enough Vitamin A daily in their diet, a vitamin necessary for good vision, healthy skin, eyes and hair. Major food sources are milk, fortified margarine, liver and kidney, leafy dark green and yellow vegetables;

That children between eight and twelve need four servings of fruits and vegetables every day, to include one source of vitamin C such as orange, grapefruit, tomatoes, cabbage or broccoli;

That soft drink consumption increased from 16.8 gal. per person in 1942 to 30.3 gal. in 1972 with calories being the only contribution soft drinks make to the diet;

If mixed correctly combinations of foods like dried beans and rice can give about the same nutritional value as animal protein foods;

Frozen orange juice is cheaper than bottled or fresh; that peas in a can cost less than peas in a pod; that dry milk is cheaper than bottled.

You have to eat the right kind of foods for malnutrition to go away;

Half of the people eligible for food stamps are not receiving that assistance;

On the average each person in the United States consumes about 1,850 pounds of grain a year, most of it in the form of meat and dairy products, compared to the average in poor countries of about 400 pounds, almost all of it consumed direcly;

During the past two years while hunger increased, U.S. food asistance to other countries sharply declined.

Miss Boyle said these few items give one an opportunity to concentrate on observing the day. She said any person having special interest or concern in any of the topics could contact her at the health department for additional information.

Americans For Freedom Attend Conference

Members of a county delegation who attended a conference of the Middle Atlantic Region of Young Americans for Freedom in Philadelphia April 4-6, have returned to their homes.

It was announced at the conference that Groves, who presently is serving as state vice-chairman would soon be promoted to state chairman. The local delegation had a tour of historical Philadelphia.

The meeting included political action workshops, speaking and preparation for the national convention to be held this summer in Chicago.

At a Saturday luncheon Congressman Robert Bauman, Maryland Republican, warned that an ultra-liberal Congress was pushing for federal land use control, gun control, and socialistic health insurance. Congressman Jack Kemp also spoke on how American business had been strangled by government economic controls.

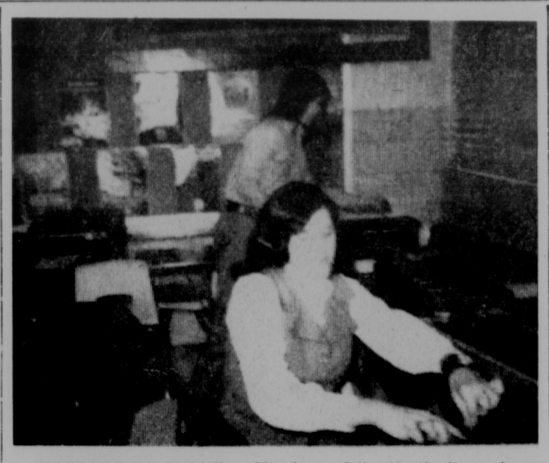
Feature On Maple Syrup Industry Appears In "Sun"

The annual features in nearby newspapers concerning the maple syrup season have been appearing in recent weeks. One appeared in the feature section of the Baltimore Sun, morning edition, on Thursday, April 3.

This time the persons featured were Guy Stanton, Jr., Thomas W. and Wililam T. Stanton, of Grantsvile, sons of Mr. and Mrs. Guy Stanton, Sr.

The Stantons also are in the beef business. The procedure for collecting the sugar water, and the method of making the syrup and sugar were outlined by Martha H. Schoeps, foods editor of The Sun, with photographs of Guy Stanton, Sr., with sap bucket in hand, and one of the oldtime wooden buckets which are used to collect the sugar water from tapholes.

Stanton said that 765 taps were made this year, just about half the number used last year, because of lack of time. The three brothers have other jobs. Guy Stanton, Jr., holds a doctorate in swine nutrition from the University of Maryland. Dr. Stanton said they manufacture 200 gallons and sell them at retail directly from the farm to customers who have come to them for many years.



The Stantons use a "shook" shack that was built in 1881 and the trough that is used to take the sugar from the collection tank into the evaporator system is more than 100 years old, according to Mr. Stanton, Sr. The Stantons have been using a gas burner for the past 14 years.

PUBLIC SERVICE COMMISSION OF MARYLAND

IN THE MATTER OF THE INVESTIGATION BY THE COMMISSION ON ITS OWN MOTION OF ELECTRIC UTILITY RATE STRUCTURES AND THE CHANGES, IF ANY, THAT SHOULD BE MADE IN PRESENTLY CONSTITUTED RATE STRUCTURES TO ENCOURAGE CONSERVATION OF ELECTRICITY IN THE STATE OF MARYLAND.

BEFORE THE PUBLIC SERVICE COMMISSION OF MARYLAND CASE NO. 6808

Notice of Prehearing Conference on Electric Utility Rate Structures and Filing of Petitions to Intervene

This is to give notice that a prehearing conference will be held in the above-entitled matter on Friday, May 2, 1975, at 10:00 o'clock, a.m., in Room 100, State Highway Administration Building, 300 West Preston Street, Baltimore, Maryland.

Any party wishing to intervene in this matter shall file with the Commission its petition for intervention, which must be received at the Commission's offices, 904 State Office Building, 301 West Preston Street, Baltimore, Maryland 21201, no later than the close of business April 30, 1975, and will be considered at the prehearing conference.

In this proceeding the Commission's investigation includes, but is not limited to, consideration of the following proposed alternatives:

1. Discount prices for consumers who achieve a decrease in their consumption of electricity compared to a like period in the preceding year.
2. Placing all future rate increases on the tail blocks of the existing decreasing block-pricing structure so that in time an increasing block-pricing structure will be achieved.
3. Inverting the rate structure to achieve immediately an increasing block-pricing structure.
4. Requiring new metering which would enable higher prices for consumption of electricity at the demand peaks each day.
5. Seasonal peak pricing, which would not require new metering, but which would price electricity used during the seasonal peaks higher than that used at other times.
6. Marginal cost pricing; that is, pricing all electricity at the cost of producing the last unit of electricity at the most recent plant, rather than average cost pricing which is currently used.

IN MEMORIAM

In loving memory of our father, Charles W. Strawser, who passed away April 14, 1968.
Those rich and happy memories
And fond recollections too ...
Time can't destroy their beauty.
For as long as memory lives
Years can't erase their pleasure
Or the joy that a Dad gives.
For a Dad is a priceless gift
That can't be bought or sold.
But to have had a Dad like you
Was worth far more than gold.
So to those memories we will Cling.
Until in heaven we will be with You again.

Loved and Missed by,
Wife, Nelda and children,
Darlene, Naomi, Flora, Pete,
Sharon and families.

from the

State's Attorney's Office

My Fellow Garrett Countians:

Since taking office as your State's Attorney, I have been very concerned about the illicit and illegal sale and use of drugs in Garrett County, which has affected all of our lives. The disastrous and tragic consequences of such drug use has recently made its impact with the news of events in our criminal courts.

It is necessary that we now act in concert to stop ALL drugs from entering into our county and into the lives of our young people. Everyone must be involved in this task.

To accomplish this, the State's Attorney's Office and our law enforcement officials need YOUR help. For this reason, the State's Attorney's Office has established a new telephone number which will be available to all who have information which might be helpful to the fight against illegal drugs. The phone number is: 334-8280. The State's Attorney's Investigator as well as the State's Attorney are always available at this number. Any parent, teenager, student, or citizen who has information about illegal drug use or sales, can phone this number at any time during regular working hours, and there will be no demand for the name of the caller or the source of his or her information.

Because this program is being coordinated with the Sheriff's Office and the Maryland State Police, people wishing to help this fight against drugs with information, may call these agencies and give such information.

The average citizen may not feel the information he possesses to be of sufficient importance to warrant phoning in. But, remember, that most information will not lead to immediate arrests, but will help in building and structuring the total picture of drug trafficking in Garrett County, which hopefully and ultimately will lead to the arrests of the large dealers of drugs. In this light, any information received will be helpful.

Some people may not feel it is honorable to inform or "rat" on a drug user or seller, but I ask you to reflect on what honor is involved in selling Marijuana, Cocaine, or LSD to a school child. Help your county police officers arrest the seller and user. If you have information, no matter how small, give it to the police by phoning 334-8280.

Thank You.

Ralph M. Burnett

Co. Commissioners Still On Budget

A discussion of the Bloomington Dam project and continued budget discussions occupied the County Commissioners at their weekly meeting on Monday.

Representatives of the Army Corps of Engineers met with the commissioners about the dam project. The commissioners are meeting today with the Engineer personnel to look over the roads which were built during the construction of the project.

The commissioners directed the Sanitary commission to improve the quality of the water in Shallmar. The commissioners said they had this authority since the commissioners also serve the county as the local health board.

They continued budget work sessions this week with James McHenry reviewing the Extension Service budget. They will hold a budget work session with the Board of Education next Wednesday morning, April 16, at 10 o'clock.

Thomas D. Jones was appointed as local contact person to the Maryland State Clearinghouse and named Don Glotfelty to serve on the Tri-County Council for Western Maryland on the Planning and Economic Development committee, and Robert Stuck to fill the term of Russell Smith on the Sanitary Commission.

Commissioners voted unanimously to extend the Interim Zoning Ordinance for the Deep Creek Lake area for one month which will expire May 31.

Commissioners also are holding budget work sessions with the Garrett County Promotion Council, the Sheriff's Office and the State's Attorney's Office.

Ponder Awhile

by Thomas E. Doyle

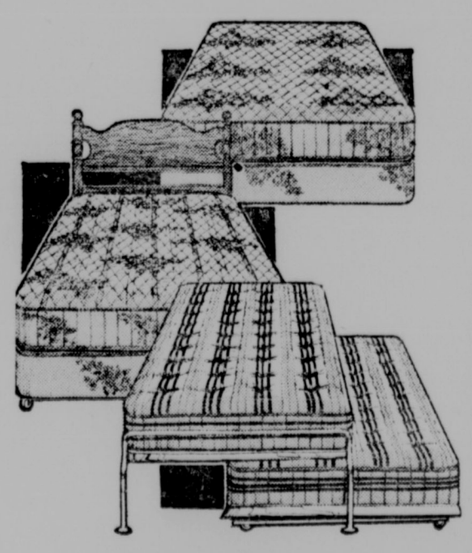
DID AMERICA LET THEM DOWN?

Who? The Vietnamese people. A good question which raises several questions which may bring the answer. Due to limited space we will consider only briefly; what was our purpose in Vietnam. To help the South Vietnamese to stay free from communism? If we answer yes to that, then why did we support, aid and otherwise assist the Communist who were supplying the north Vietnamese? Half of our American people wanted men in Congress who would assist the north Vietnamese and Communists; Congress is merely carrying out the will of the majority of the voters (although the majority of voters is less than the majority of the American people). In other words the American people want Communism? This brings up another question; are the Communists our enemies? If so, isn't someone guilty of treason (giving aid or comfort to the enemy). The average minister today, whom I know, is very favorable to building hospitals, sending blood and otherwise aiding the north Vietnamese — Bobby Kennedy was too! Ok, for the moment let's say they are our friends (I'm not saying this — the Communists are our enemies in my opinion, but I share the minority view here). Now, if the Communists are our friends why did we supply South Vietnam with men, aid and money.

Now, after you have finished pondering that, answer this question; why are the south Vietnamese people fleeing Communists and while we pull out, you also note that we are trading heavily with alleged "friends". So, then why the cry for the south now? Are they (the south) our enemy and we're realizing it a bit late? Of course not! Have you ever thought that maybe, just maybe, the leaders of our great nation are double crossing us? Are our leaders "voted in by Americans" fooling us? Have they fooled us for years? Have you seriously, pondered the American way, and how it has changed over the past 40 years? Is it to your liking? You have asked for it, unless you are among the minority who has voted against the Communist for the past 40 years. Congress is carrying out the voters will. Or, maybe Congress is just a bit stupid about "who the enemy is?" Quite possible, but?

Finally, another question: Why do we no longer pledge allegiance to the American flag in our schools in every room on a daily basis? To whom do we pledge allegiance? Well about ⅓ of America pledges to the flag; — thinks America first, fights to win; and about ⅓ bleeds for the enemy (north Vietnam — the communists) that same ⅓ votes in the Congress who helps both the north and south at the same time and wonders what happened and; the other ⅓ of America merely sits by watching the scene wondering what's going on and never knowing. Now, when I ask Did America let South Vietnam down, you can say which ⅓? You can believe that the ⅓ who fights to win (including me) did not let them down. We would have gone over there fought and won, defeated the communists, saved many lives, maintained the hopes of a nation and left with our heads high. That America did not let them down. The other ⅔ of America has accomplished its objectives; partly through ignorance, partly through apathy and partly through absolute knowledge of what it was doing.

The answer to the question is found in your own heart — where do you stand? 23,000,000 of us stood with Barry Goldwater — a fact of which I'm particularly proud, and that America I'm still proud of and that America did not let them down.



PONDER AWHILE will be brought to you occasionly by Thomas E. Doyle, with the hope that you'll do just that — ponder .... then WAKE UP BEFORE IT'S TOO LATE!!!

Harvey Genealogy Is Now Complete

A 502 page genealogy of the Harvey Family of Garrett County, has been completed by Marshall G. Brown, Cottonwood drive, Severna Park, and is ready for distribution.

The book traces the story of the Harvey family from colonial times to the present. It includes the names of more than 4,000 descendants of the original progenitor William Harvey, Sr. The names of Lower, Junkins, Moon, Tasker, Sharpless, Ashby, Beckman, Bittinger, Friend, Hardesty, Hinebaugh, King, Kitzmiller, Lee, Paugh, Riley, Roy, Steyer, Sweitzer, Uphole, Walter, Welch, White and Wilson are all listed as descendants.

The price of the genealogy is $4 plus $1 for postage, which Mr. Brown said would barely cover the cost of printing when all copies are sold.

Mr. Brown was a teacher of social studies in Oakland high school, and served as principal of Grantsville Elementary and high schools. He retired from Anne Arundel County public school system as a supervisor in 1974. He was a veteran of World War II.

GC College Takes Opening Games

Garrett Community College relied on the pitching of Ernie Shotwell and Mark Deutsch to carry the Lakers to a double header sweep 4 to 3, and 11 to 0 over Eastern Mennonite college varsity Saturday at Harrisonburg, Virginia.

Shotwell, a sophomore pitcher, allowed only one earned run and didn't allow a walk in gaining the first victory in the first game of the spring season, in a seven inning contest.

In the nightcap freshman southpaw Deutsch struck out ten enroute to the two-hit shutout of the Virginians. The second game was called after five innings due to cold weather conditions.

A graduate of Charleroi High school Deutsch allowed only a second inning single and a fifth-inning double to mar what was otherwise a perfect outing.

While Shotwell and Deutsch were holding the Royal bats in check the Laker wood was resounding in the hands of sophomore Jim Bosley and freshman Bill Wrzenski. The latter banged out five hits in six trips to the plate, including two doubles and four runs batted in in the second game.

It was Jim Bosley in the opener who all but won the game single-handedly with a first inning two-run double and a run-scoring double in the fifth.

The wins were actually the eighth and ninth wins of the 1974-75 baseball season, Garrett having completed 7-1 record last fall. The college is counting both records for region XX which is permitted, due to adverse spring baseball weather in Maryland's Garrett county.

Playing for the Lakers were Cullen, Raszkalb, Slifko, J. Bosley, C. Bosley, Ingram, DiSimone, Shotwell, Wrzenski, Whitfield, Swauger, and Counsell.

Recent Accidents Injure Several

Several persons were injured in a number of accidents the early part of last week around the county. Some were taken to hospitals.

Elnora Dale Benson, RD 4, Deer Park, was treated and released from Garrett County Memorial Hospital where she was taken by the Southern Rescue squad. Marlene J. Taliaferro, of Star Route, Friendsville, was stopped in the lane of traffic waiting for an unidentified vehicle to make a left turn. Elnora Benson, following, failed to reduce speed and struck the Taliaferro car. Tfc. C. H. Hinnant charged Elnora Benson with failing to reduce speed to avoid a collision.

Two persons injured in a one-car wreck on U.S. 219 near Cove road were taken to the Meyersdale (Pa.) Hospital by the Northern Rescue squad.

Ivo Ferdinand Varmuza, operator of the car and his passenger, James B. Brophy, both of Hamilton, Ontario, Canada, were injured. They were traveling north on U.S. 219 when the car skidded on an ice patch. It went out of control, crossed the southbound lane, struck an embankment off the west shoulder and turned over. Tfc. D. E. Group Gardens Being Explored

The establishment of community gardens is being sponsored by the County Community Action Committee, Inc., for interested persons, it was announced.

The committee is having a community gardening conference today at Garrett Community College, McHenry, with James L. Paulk, president of Bonnie Plant Farm, Inc., and Martin Darity, public relations director, Union Springs, Ala., at 1:30.

Earlier in the day they held a session for elected officials, community leaders and CAA representatives across the state, followed by a press luncheon at Point View Inn.

It was pointed out the local CAC would help any interested community to locate, prepare and divide any centralized community garden plot. The committee would buy plants and seeds in bulk, with gardening hints and education available. The committee and cooperating county agencies also would be available at harves to help the gardeners with harvesting, canning and preparation of garden products. Additional information is available from Tom Crogan, program director at the local CAC office.

Mr. Paulk said "with a garden, families can help fight inflation and outflank and roll back increasing prices."

Crogan said one goal the CAC had was to encourage the more experienced area gardeners to select some of the younger generation to teach "How to Garden."

Insurance FACTS

The American people are in love with that noisy but necessary machine known as the automobile. They gladly pay for the car, the extras, the fuel, but often feel that the insurance can take a back seat to all other necessary expenses. Traffic figures are tabulated daily, weekly, monthly, and after every holiday. It is unfortunately a fact of life that more than 50,000 people are killed every year in traffic accidents. Insurance is necessary, and it is not a good place to cut corners, either. Accidents happen to just about everyone.

So be sure and keep your automobile insurance up-to-date — call us at GONDER INSURANCE AGENCY, 203-205 South 2nd St., 334-3343. We handle every type of insurance and we know how to get you the most for your dollar. Established since 1920, we pride ourselves on the completeness of our service. You won't spend more dealing with the professional insurance agency, you'll just spend more wisely.

CLEAN CARPETS LAST LONGER

It's a fact Unlike fine furniture and vintage wine, carpets don't improve with age. They just wear out and fade away. There's no way to stop the wear and tear but we have a guaranteed way to slow it down. Let us remove the old shampoo residue, dirt and sand that are constantly breaking down your carpet's fibers. We'll make the impacted areas come to life again by cleaning the pile and lifting it. It makes sense these days to increase your carpet's life expectancy. Clean carpets last longer.

Democrat Group Sets Open Meeting

The Garrett County Democratic Central Committee is holding an open meeting at the Garrett Community College auditorium Thursday, April 17, at 7:30 p.m.

The meeting will afford all citizens an opportunity to discuss with the committee any item of business which is of importance to local citizens.

Possible topics might include citizen opinion about recent legislation from Annapolis, elected state and local officials, including Central Committee members, or feelings toward the announced presidential candidates.

2 Educators Named State Committees

In official action of the Maryland State Board of Education on Wednesday, March 26, two local administrators were appointed to key state committees. Albert R. Ringer, Director of Curriculum and Instruction, was appointed to the Advisory Council under Public Law 33-380, Title IV, to advise the Maryland State Board of Education relative to project approvals being considered in the state. This committee and the Title III Elementary-Secondary Act Committee will eventually merge and will have the power to recommend to the State Board of Education projects which should appropriately be funded under federal legislation from these particular grants.

Wayne R. Johnson was appointed to serve on the State Advisory Committee on Accountability. This committee serves as the key advisory committee to the State Board of Education in implementing the accountability law under Article 77, Section 28A. Mr. Johnson is principal of the Center Street School and the Oak Street Kindergarten.

Dr. William Buser, County Superintendent of Schools, said Garrett County is fortunate in having representation on these committees. While the announcement was officially made on March 26, the appointments came as no great surprise to Mr. Ringer and Mr. Johnson as they had been recommended through the local Superintendent of Schools and William Goldsborough, Garrett County's member on the State Board of Education.

In Congressional Record

The newspaper account of The Republican beginning its 99th year of continuous publication, which appeared in the local paper on March 6th, appeared in the Congressional Record of Senate activities on March 26.

Preliminary remarks were presented by U.S. Senator Charles McC. Mathias, Jr. He asked for unanimous consent that it be printed in the Record, which occurred without objection.

CARD OF THANKS

I wish to express my appreciation to all my friends who remembered me with their prayers, get well wishes, and other acts of kindness during my recent illness.

Olen H. Yoder

—Adv. 6-1t.

Kesner-Ervin Nuptials Held

Grace United Methodist church, Keyser, W. Va., was the setting for the Saturday, March 15 wedding of Margie Schrock Ervin and Donald J. Kesner. Rev. Harry P. Light performed the double ring ceremony.

Music was provided by Prof. Richard Davis, vocalist, with Mrs. Sharon Davis at the organ. The altar and candelabra were decorated with pink and blue carnations scattered with red rose buds. Shawn Dean served as alcoyte.

The bride wore a floor-length dress of pink knit gathered at the bodice with waist length shawl collar, accented by ivory necklace and earrings. The veil made of pink silk illusion draped from a matching pink rose was designed by Mrs. Nelson Boyce. She carried a bridal bouquet of pink carnations centered with a red rose bud lift-out corsage.

Wanda Boyce was matron of honor and wore a blue floor-length gown and carried a single long stemmed red rose.

Clifford Friend, Springs, Pa., brother of the bride, served as best man. Tina Boyce, niece of the groom, was ring bearer and wore a floor-length pink and white gown with a red rosebud corsage.

Both mothers were dressed in blue and wore matching rosebud corsages. Fathers of the couple are John Kesner, Keyser, and Lloyd Friend, of Friendsville.

The reception was held in the banquet room of the Keyser VFW with Bea Shuck in charge, assisted by Mrs. Eva Lee Tucker. The pink wedding cake decorated with pink and blue roses with silver leaves was served by Mrs. Shuck with Beth Dean at the punch bowl. Mrs. Twila Walters, sister of the groom, served coffee. Diane Schrock, daughter of the bride, was in charge of the guest book and gift list.

Mrs. Kesner is a graduate of Bruceton High school and attended Kentucky Christian college, Grayson, Ky., and Weber State college, Ogden, Utah. She is also a graduate of McDowell Market Managing and Accounting School in Phoenix, Ariz.

Mr. Kesner is self-employed in the excavating business and owner-operator of Mill-Meadow Trailer Court, Limestone road, Keyser. The couple went to Disney World and Jacksonville, Fla., for their honeymoon and are now residing at the Mill-Meadow Trailer court.

It's a line from an old gospel hymn, "Sing and Smile and Pray."

Our little lady with the checkered raincoat and umbrella has a most engaging smile. We're not sure whether she's happiest about her "storm gear" or her puppy dog or perhaps where she's going on this rainy day.

But this is certain—it takes *preparedness* to smile the clouds away.

Every Sunday in our churches millions of youngsters are learning with Christian conviction to sing and smile and pray. Their religious trainin is preparing them for all-weather living.

The darker the sky, the brighter the gleam in the eyes of faith.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons.

BY LAWRENCE W. ALTHOUSE

WHAT IS MAN?

Lesson for April 13, 1975

Background Scripture: Genesis 1:26-31; Psalms 8.
Devotional Reading: Psalms 19.

There are really two ways of asking that question.

One of them is philosophic, inquiring about mankind in general: "What is man?".

The other is personal, inquiring about one man in particular: "Who am I?"

Rev. Althouse

Basically, however, it is the same question viewed from different perspectives.

Man the creature

It was the question with which the Psalmist and the writer of Genesis were wrestling. From that soul-searching there came several answers.

First, they saw man as a creature of God.

In the eighth psalm there is no question but that man sees himself in the light of God's greatness. The awe of the creature for the Creator is evident: "When I look at the heavens, the work of thy fingers, the moon and the stars which thou hast established, what is man that thou art mindful of him...?" (8:3,4).

A familiar hymn says much the same thing:

"O Lord, my God,
When I in awesome wonder,
Consider all the worlds
Thy hands have made....
.....
How great Thou art!
How great Thou art!"

If man is to know who he is as a creature, he must first acknowledge the greatness of the Creator.

Man the steward

The Psalmist also sees man—and himself—as the creature who is the highest of God's creations. Despite his seeming insignificance, man, as the Psalmist puts it, is created to be a "little less than God, and thou dost crown him with honor and glory" (8:5).

This belief has far-reaching implications for both mankind in general and me in particular. For mankind it means being ranked at the top of the evolutionary scale. For me in particular it means that regardless of how I am esteemed by either myself or others, I am a unique, valuable creature.

Finally, the Psalmist sees man as a steward: "Thou hast given him dominion over the works of thy hands, thou hast put all things under his feet" (8:6). The Creation story in Genesis also speaks of man's dominion "over the fish of the sea and over the birds of the air and over every living thing that moves upon the earth" (Gen. 1:26).

Man, as God's highest creation, is given dominion over all creation, but for a purpose: to manage it for God as a good steward, thus giving man both a high privilege and a great responsibility.

"SPRING HAS SPRUNG"
BE CAREFUL!

Yes, those April showers that bring spring flowers can also bring a great deal of misery to those many people who may suffer from certain allergies. It can be especially difficult for those who do not know what it is that causes their problems.

If you ever experience such problems, don't suffer meaninglessly. There are many tests that can be done to find out to what you may be allergic. An appointment with a physician with specialized training (allergist) would be a first step for you to take.

How to select the right nursing home.

We Americans are not just living longer, we're living more useful, productive lives.

But an increasing number of the chronically ill, the old, the convalescent, need some place other than the hospital and their home where they can receive personal health care, round-the-clock attention and the opportunity to continue to live their lives with meaning.

As your community extended health care facility we want to help you make the right decision. Here are some guidelines: see your family physician to determine the kind of care needed; feel free to visit our facility; ask us for our costs in writing and financial advice about Medicare and Medicaid; examine all of our facilities; check our food quality; verify our safety features; and finally, observe how our residents spend their time.

There's a lot more to selecting the right nursing home. We want to help. If you have any questions, please call or visit us.

HANDY HINTS
BY
A and A Construction Co., Inc.
Route 219 Oakland, Md. (301) 334-9777

Don't try to take off too much wood when you plane. Several shallow cuts are better than one thick one.

Unless there's an emergency situation, don't use a tall extension ladder on a windy day.

Tacking thin wood with ordinary nails may cause it to split. Instead, cut off end of nail with wire cutters to create a chisel point, and hammer it in at right angles to the grain.

For some handy hints that can save you money on building your new home (vacation or permanent). Phone one of us:

READER'S CORNER

I am much concerned about the future of Garrett County. Senate Bill No. 857 passed by the Senate on Friday before Easter should be considered in depth. This Bill is presented with the main theme as controlling strip mining and preserving the natural beauties of various waterways in Maryland. The one that is named to immediately affect Garrett County is the Youghiogheny River from the R.R. bridge at Oakland (recent proposed amendments may include area from Miller's Run) to the Western edge of Friendsville. Every citizen should study this bill carefully. Please notice the looseness and tie-in with state legislation.

1—At least five (amendments may name seven) people are appointed as an advisory board whose duties it is to submit regular recommendations and reports to the general assembly.

2—Quote: (E) "By July 1, 1978, the department shall inventory and study every other river and related shorelines or portions of them eligible for inclusion into the system as either a wild or scenic river. Upon completion of any part of the inventory and study, the department shall submit it with any recommendations for additions to the wild and scenic rivers system to the governing body of every county where an affected river is located and to the next regular session of the general assembly." (lines 193-200) End of Quote.

3—Quote: (E) "In addition to the other regulatory authorities provided by this subtitle and due to the unique character of the Youghiogheny River, the department shall adopt Rules and Regulations, by December 1, 1975, to regulate use and development in that segment of the Youghiogheny River designated in Section B-408 (A) and adjacent land areas where development would affect the primitive qualities and characteristics of the Youghiogheny River." (lines 688-695) End Quote.

4—Notice the local advisory board is given no authority. This board's duties are to review, observe, and submit and at most make recommendations (with recent proposed amendments to local government County, land use, planning and zoning and the general assembly approval).

Please Fellow Citizens, Land Owners, and Tax Payers, notice the broadness and extended possible reaches empowered to this advisory board, and the general assembly. The power of these are such that they can condemn and take by force and pay their price for any enacted decision on your land or its use.

May I suggest you see a map of this vast Youghiogheny area. Anyone who favors government domination of land will favor this bill.

Let's leave something for the kids besides a communistic big daddy government.

Yours truly,
HOMER MELLOTT

Ceres

The largest asteroid is named Ceres after the patron goddess of Sicily, the place from which an Italian astronomer, Piazzi, discovered it. This object is only 770 kilometers (480 miles) in diameter.

There are thousands of similar but smaller objects that are orbiting the sun with Ceres. They revolve about the sun at a distance of 2½ times the distance from the earth to the sun. This places them between the orbits of Mars and Jupiter. All of these objects collected together have a mass less than one-thousandth of the mass of the earth.

Some asteroids collide with earth. Many are large enough to survive the fall through the atmosphere to become one of the greatest sources of meteorites.

SPORTS Go-Round

by Larrie Weaver

The term gymnastic was created by the Greeks, and orginally meant all forms of athletics. In Greek Gymnastics, each youth would try to perform whatever feat he could, but soon the games were reduced to formal contests, including such events as running, and javelin and discus throwing. Greek youths spent a large part of the day in the gymnasium, where space was set aside for the philosophers to teach. It was all part of the "sound mind in a sound body" theory, which receives so much lip service today.

PUBLIC SERVICE COMMISSION

IN THE MATTER OF THE INVESTIGATION BY THE COMMISSION ON ITS OWN MOTION OF ELECTRIC UTILITY RATE STRUCTURES AND THE CHANGES, IF ANY, THAT SHOULD BE MADE IN PRESENTLY CONSTITUTED RATE STRUCTURES TO ENCOURAGE CONSERVATION OF ELECTRICITY IN THE STATE OF MARYLAND.

BEFORE THE PUBLIC SERVICE COMMISSION OF MARYLAND.

CASE NO. 6808.

NOTICE

OF PREHEARING CONFERENCE ON ELECTRIC UTILITY RATE STRUCTURES AND FILING OF PETITIONS TO INTERVENE.

This is to give notice that a prehearing conference will be held in the above-entitled matter on Friday, May 2, 1975, at 10:00 o'clock, a.m., in Room 100, State Highway Administration, 300 West Preston Street, Baltimore, Maryland.

Any party wishing to intervene in this matter shall file with the Commission its petition for intervention, which must be received at the Commission's offices, 904 State Office Building, 301 West Preston Street, Baltimore, Maryland 21201, no later than the close of business April 30, 1975, and will be considered at the prehearing conference.

In this proceeding the Commission's investigation includes, but is not limited to, consideration of the following proposed alternatives:

1. Discount prices for consumers who achieve a decrease in their consumption of electricity compared to a like period in the preceding year.

2. Placing all future rate increases on the tail blocks of the existing decreasing block-pricing structure so that in time an increasing block-pricing structure will be achieved.

3. Inverting the rate structure to achieve immediately an increasing block-pricing structure.

4. Requiring new metering which would enable higher prices for consumption of electricity at the demand peaks each day.

5. Seasonal peak pricing, which would not require new metering, but which would price electricity used during the seasonal peaks higher than that used at other times.

6. Marginal cost pricing; that is, pricing all electricity at the cost of producing the last unit of electricity at the most recent plant rather than average cost pricing which is currently used.

Wilson B. Stringer
Examiner in Case No. 6808
—Adv. 6-1t.

Resolution

WHEREAS, the Garrett County Board of County Commissioners is enforcing Article 43 of the Annotated Code of Maryland, and

WHEREAS, Sections 45, 48, and 396 of the aforesaid prohibits any person, firm or corporation from erecting, constructing, enlarging, altering, repairing, improving, moving or demolishing any building or structure without first obtaining a separate building permit for each building or structure from the Garrett County Health Department, and

WHEREAS, the Garrett County Health Department must examine all plans and specifications for the proposed construction when application is made to him for a building permit.

NOW, THEREFORE, BE IT RESOLVED by the Garrett County Board of County Commissioners of Garrett County, Maryland, as follows:

1. That the Garrett County Health Department shall review all building permit applications for new construction or substantial improvements to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is in a location that has a flood hazard, any proposed new construction or substantial improvement (including pre-fabricated and mobile homes) must (I) be designed (or modified) and anchored to prevent flotation, collapse, or lateral movement of the structure, (II) use construction materials and utility equipment that are resistant to flood damage, and (III) use construction methods and practices that will minimize flood damage; and

2. That the Garrett County Health Department shall review subdivision proposals and other proposed new developments to assure that (I) all such proposals are consistent with the need to minimize flood damage, (II) all public utilities and facilities, such as sewer, gas, electrical, and water systems are located, elevated, and constructed to minimize or eliminate flood damage, and (III) adequate drainage is proveded so as to reduce exposure to flood hazards; and

3. That the Garrett County Health Department shall require new or replacement water supply systems and/or sanitary sewage systems to be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and require on-site waste disposal systems to be located so as to avoid impairment of them or contamination from them during flooding.

Stand Up And Be Counted

The vast majority of Americans go out of their way to avoid controversy. The very word "controversial" has a bad connotation in our society.

The average citizen stands at the sidelines with a clean uniform, not knowing who to root for. He gets hit by traffic going left and right, and still prefers not to get involved. To many of us, what is WRONG or RIGHT isn't nearly as important as getting invited to some social climber's cocktail party. While trying to fit in with the crowd, we have avoided the most important (and controversial) issues of our times. We are letting professional journalists and lobbyists THINK FOR US, and the result is a devastating TRUTH SHORTAGE which is at the root of every major problem our nation faces!

Listen Americans, WE CAN WIN THE FIGHT FOR FREEDOM for ourselves, and the entire world! We can stop the crime wave by PUNISHING CRIMINALS instead of tying our policeman's hands and banning citizen firearms. We can TRIM taxes by ELIMINATING unessential bureaus and departments in D.C., by CUTTING our bloated budget, and by PAYING off the national debt. We can STOP INFLATION by stopping the Federal Reserve from creating unbacked funny money.

But HOW can we do it? From the bottom up, NOT from the top down. If our own country is saved WE will do it in spite of Kissinger and Ford and Rockefeller, NOT because of them. Our leaders will continue to destroy America (as they have been doing for decades) UNTIL WE STOP THEM.

HOW? EDUCATION is our strategy, and TRUTH IS OUR ONLY WEAPON. We must get the truth to the people.

Has it occurred to you that the U.S. LOST THE VIETNAM WAR? The mass media told us that Gerald Ford was so "touched" by the "plight of Vietnamese orphans" that he went out to meet them when they arrived on our shores. But what about their PARENTS, Mr. Ford?

What about the thousands of Vietnamese people presently being butchered and tortured by the Communists? They're being "touched" a bit more severely than Gerry is.

The unvarnished truth is that the U.S. pulled the rug out from under our South Vietnamese allies and RETREATED to leave our Vietnamese brothers at the mercy of the most bloodthirsty savages on earth. No wonder the S.V.N. army trampled women and children to board retreating U.S.A.F. C-141's. It takes a lot of courage to bravely face Communist butchers (who have been known to cut off the hands and feet of their victims, and leave them to die of gangrene in mass graves.)

The worst of it is this — OUR TAX DOLLARS are used to provide food, arms, and trucks to the butchers. Rockefeller and Ford have bloody hands, and so do the American people who WON'T GET INVOLVED.

Where is the UNITED NATIONS? Why does it NEVER speak out against Communist aggression? And our cute little 'radical' students still scream for "Peace" at any price because they've been brainwashed by the 'surrender' press and the liberal profs. You got your "Peace" — Ford and his friends surrendered our Vietnamese brothers to the Communists. Are you happy now?

Am I advocating "dragging out" the V.N. war? NO. We don't have to go to war. If we STOP AIDING the communist governments, the enslaved would gladly replace them with a just government that punishes murderers instead of Christians.

If you are a real American, STAND UP AND BE COUNTED.

AMERICAN OPINION magazine is available at most of your local business establishments for a dollar a copy. It presents the unvarnished truth on the most controversial issues.

Resolution

WHEREAS, certain areas of Garrett County, Maryland are subject to periodic flooding (and/or mudslides) from Streams and Rivers, causing serious damages to properties within these areas; and

WHEREAS, relief if available in the form of Federally subsidized flood insurance as authorized by the National Flood Insurance Act of 1968; and

WHEREAS, it is the intent of this Garrett County Board of County Commissioners to require the recognition and evaluation of flood and/or mudslide hazards in all official actions relating to land use in the flood plain (and/or mudslide) areas having special flood (and/or mudslide) hazards; and

WHEREAS, this body has the legal authority to adopt land use and control measurers to reduce future flood losses pursuant to Article 66B and Article 43, Sections 45, 48, and 396 of the Maryland Annotated Code;

NOW, THEREFORE, BE IT RESOLVED, that this Garrett County Board of County Commissioners hereby:

1. Assures the Federal Insurance Administration that it will enact as necessary, and maintain in force for those areas having flood or mudslide hazards, adequate land use and control measurers with effective enforcement provisions consistent with the Criteria set forth in Section 1910 of the National Flood Insurance Program Regulations; and

2. Vests Garrett County Health Department with the responsibility, authority, and means to:

a) Delineate or assist the Administrator, at his request, in delineating the limits of the areas having special flood (and/or mudslide) hazards on available local maps to sufficient scale to identify the location of building sites.

b) Provide such information as the Administrator may request concerning present uses and occupancy of the flood plain (and/or mudslide area).

c) Cooperate with Federal, State, and local agencies and private firms which undertake to study, survey, map, and identify flood plain or mudslide areas, and cooperate with neighboring communities with respect to management of adjoining flood plain and/or mudslide areas in order to prevent aggravation of existing hazards.

d) Submit on the anniversary date of the community's initial eligibility an annual report to the administrator on the progress made during the past year within the community in the development and implementation of flood plain (and/or mudslide area) management measurers.

3. Appoints Garrett County Zoning Administrator to maintain for public inspection and to furnish upon request a record of elevations (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures located in the special flood hazard areas. If the lowest floor is below grade on one or more sides, the elevation of the floor immediately above must also be recorded.

4. Agrees to take such other official action as may be reasonably necessary to carry out the objectives of the program.

Slanted News . . .

News columnist Ralph DeToledano has pointed to another example of what he termed "news slanting" on the part of CBS-TV.

Recently he told of 34 of America's most eminent scientists, including 11 Nobel Laureates, who appeared at a press conference in Washington, D. C. to stress the urgent need for the United States to develop and expend nuclear power to meet our energy requirements. DeToledano was there where he witnessed CBS cameramen filming the news conference.

But what did CBS News network report? the columnist asked. "Not a word about the Scientists' statement."

"Instead," reported DeToledano, "CBS reported that Ralph Nader had issued a warning against the use of nuclear power. This was followed by a CBS report which challenged the reliability, cost and safety of nuclear power; casting doubt by leaving the pertinent questions up in the air."

In other words CBS ignored competent scientific opinion on the safety and cheapness of nuclear power and chose instead to feature the scare propaganda by what the columnist termed "a half-baked eco-freak."

He concluded, "If this country goes bankrupt paying for foreign oil or sees industry paralyzed by a lack of energy, it can place much of the blame on the TV networks."

He thought it might be high time for a Congressional investigation to determine just why CBS news appears to be consistently slanted against the United States?

Special Session Of Legislature Held Unlikely

Sen. Edward J. Mason, (R-Garrett, Allegany), minority leader in the Maryland Senate, took part in the meeting Tuesday between Gov. Marvin Mandel and General Assembly leaders and urged that the governor veto both tax bills currently under study and not call a special session of the legislature.

Prospects for a special general assembly remained remote, however, according to Gov. Mandel after the meeting. Mandel would call a special session only if house and senate leaders can agree in advance on an agenda and how they would handle the tax legislation.

One of the bills would boost the state's per pack cigarette tax from six cents to eight cents, with the revenues going to local governments to aid police forces.

The other measure, to be financed by a hike from two percent to three percent in the tax on insurance premiums, would initiate the so-called circuit breaker property tax relief program with benefits going to homeowners 60 years and older.

Sen. Mason is opposed to both measures, saying that this is not the right time for tax increases of any kind in light of unemployment problems. He also said that he feels the best way to come up with a tax program which reflects the individuals' earning ability to pay is to stop going into new government programs and to cut spending.

Vascar Now Used By Police To Help Eliminate Speeding

Leadfooted motorists are learning to their dismay that police on patrol no longer need to aim radar or pace cars to determine speed.

A 100 percent accurate, computerized method of detecting average speed, called Visual Average Speed Computer And Recorder (VASCAR) has been installed in one of the local state police vehicles and two troopers, Tfc's Gary Berkebile and Charles Hinnant, take turns keeping watch against speeders.

Working on the principle that distance divided by time equals speed, the computer has a visual readout which resembles a

Retires From Westvaco

John E. Wilt, Swanton, was one of 11 retirees leaving Luke mill of Westvaco this month.

Mr. Wilt began his 17 years and seven months of service in August, 1957, in the labor pool. At retirement, he was warehouseman at the finished product warehouse.

He is a native of the Savage River area.

DRIVERS, TAKE NOTE — Drivers who like to keep their speedometer needles above 50 m.p.h. should take note that VASCAR (Visual Average Speed Computer and Recorder) is a small, floor-mounted speed detector which is now in use by the Maryland State Police in this county. The computer, with digital numerals showing the exact speed of clocked cars, is virtually 100 percent accurate and its use is recognized in courts in all parts of the state. Two troopers stationed in Garrett County are certified to use the VASCAR speed detection unit, and they are now issuing traffic summonses to those who think it is all right to speed because no radar units are in sight.

Local Man Kills Two In Wheaton Sun.

Michael Pearch, Friendsville, Killed After Half-Hour Shooting Spree

A young man who had been living on a farm in Friendsville for the past year was shot and killed near Wheaton Plaza Sunday evening after he killed two black and wounded four others.

Michael Edward Pearch, 29, was visiting his mother in nearby Silver Spring and left the house about 7:30 p.m. for the Wheaton Plaza for a half-hour shooting spree before being shot and killed by Montgomery county policemen.

Pearch used a .45 calibre automatic pistol to kill John L. Sligh, 43, Rockville, and Mr. Connie L. Stanley, 52, of Washington. Wounded were Sligh's wife, Laureen, Harold S. Navy, 17, Wheaton; Rosalyn Y. Stanley, 26, Annapolis, and Bryant L. Williams, 20, Rockville.

Pearch had been residing on the Friendsville property of Mr. and Mrs. Robert Combs, Prince Georges County, since February 1974. Reports indicate he had been staggered by the death of a German girl he had hoped to marry and a preliminary autopsy report indicated he had a small brain tumor near his pituitary gland which may have been causing pain and worry.

Pearch was a 1963 graduate of High Point High school in Prince Georges county, and had enlisted in the Army in 1966 where he studied to be a counter-intelligence operative. He had spent nearly two years in Bremerhaven, Germany and had won honorable discharge along with three medals, as a sharpshooter, the National Defense Medal and a Good Conduct medal.

Pearch first approached the Sligh car as it was stopped for a traffic light and fired at point blank range at Mr. Sligh. He then shot two more times into the car, wounding Mrs. Sligh in both legs. Dr. Ralph Gomes, 35, Rockville, witnessed the shooting as he passed the shopping center and huddled across the front seat of his car which then crashed into another. Dr. Gomes was treated for fractures of the toes as a result of the accident.

As Pearch approached the intersection of George Avenue and University Boulevard, he shot Navy, who was crossing the street. Navy is in stable condition with a bullet wound of the abdomen.

As Navy lay wounded, Pearch stood on the median island and then shot Mr. Stanley as he drove into the left turn lane. Pearch then walked along the median island and fired into the Rosalyn Stanley car.

Ignoring the calls of two Montgomery county policemen to halt, Pearch ran up to another car and fired a shot at Bryant L. Williams, wounding him in the abdomen.

When he began to run from their second order, police opened fire with a shotgun and service revolver.

Dennett Road School Renovation Design Approved

The County Board of Education approved the third rendering for a major renovation of the Dennett Road elementary school under the Interagency School Construction committee program, at a regular meeting of the board last week, it was announced.

Jack Burrey, architect, pointed out the flexibility of the building to provide the various size groups in the instructional process. He noted how special areas such as art, music and physical education were housed within the building.

Board president, Herbert Harman, Accident, said he felt this design would adequately house improved instructional programs while maintaining and promoting many of the conventional ideas.

Dr. Jerome Ryscavage, director of administration services, in his building program report, indicated progress relative to the Northern Middle School and completion of the Accident Relocatable for special education students at Camp Hickory.

When questioned by Robert Diehl, board member, relative to progress on the site for the elementary school at Grantsville that is in the planning process, Dr. Ryscavage noted the board had not heard from the County Commissioners on this project since a meeting with them on March 17. The local Board of Education and the State Interagency committee had approved this project last year and a site had been requested by the local board of Education, with no action taken to date by the Commissioners, it was stated.

The Board auhorized the superintendent, Dr. William Buser, to submit the special education five-year plan developed under the leadership of Mrs. Sarah Wilson, coordinator of special education.

William Platter, president of Blue Pine Springs, Inc., group home for boys, with assistance of Lloyd Robertson, supervisor of pupil services, gave the board a summary of the purposes and activities of that home.

In information items the board discussed the new certificate of appreciation developed to be presented to all supporting services employes at the time of their retirement. The board was also brought up to date on the legislative program as it relates to county schools.

$916,109 Spent On Snow Removal By County, State

A staggering total of $916,109 was spent in the county during the past winter for snow removal and ice control, according to figures furnished by the Garrett County Roads department and the State Highway Administration.

The county roads department spent $463,000 up to March 28, while the state roads department has had to shell out $453,109 for labor, machine hire and equipment maintenance. The county will have final figures in approximately one month, as expenses are continuing.

In winter 1973-74, the county spent $294,000 for local road clearance, while in the three western counties, the SHA spent $781,000. For this past winter, the SHA paid out $1,230,220 for the western area.

The county used about 15,000 tons of cinders this year, nearly the same as last year. On state highways, 15,463 tons of sand and 10,246 tons of chemicals were used, at a cost of $249,997.

According to the state highways snowfall measurement, Garrett accumulated 168½ inches of snow in 41 snowstorms at the Mt. Nebo picnic area since November 13 when the first storm of the season arrived. Logan Weber, county weather observer, totaled 90.8 inches of snow, but noted that he takes his measurements in the evening and that the snow may have had some chance of settling. Last year Garrett had 82 inches according to SHA figures.

Many of this past season's snowstorms arrived on weekends, which added to the cost of maintenance since road crews were on overtime schedules.

The season's worst storm began November 30 and caused numerous problems which were worsened by the electrical outage which hampered repair work on vehicles. The county is presently buying and stocking surplus equipment such as generators in various garages so that power for essentials can be maintained in case of a similar outage. The SHA spent $74,622 for snow removal operations during that particular storm clean-up.

Numerous periods of freezing and thawing has caused excessive road surface breakup this spring, and crews are repairing potholes. Once the potholes are filled, regular spring maintenance will begin, according to Paul DeWitt, county roads administrative engineer.

No Valley Park Contemplated For Yough Corridor

In response to a question of whether or not the designation of the Youghiogheny river as a wild and scenic river would not lead to the creation of a river valley park, the answer from James B. Coulter, secretary of the Department of Natural Resources to State Senator Edward J. Mason was "No."

Coulter explained that the purpose of the act was to protect the Youghiogheny in its present scenic and wild condition, and that purpose could best be accomplished by leaving the land in private ownership under the type of restrictions on development as envisioned in the act. The bill involved was Senate Bill 837. Coulter added that to create a state park that would attract thousands of visitors and require facilities and development would be in direct contradiction to a major intent of the Act.

The letter from Mr. Coulter to Senator Mason had this to say:

"To safeguard the constitutionality of SB 837, a provision is included for purchase of land in the rare event when a restriction on development might be ruled to be a seizure of property. So that there could be no abuse of that provision, every purchase of that nature would require the approval of a specific budget item by the General Assembly. Thus, the General Assembly could prevent me or any other Secretary from acquiring land for a park through piecemeal purchases in a scenic or wild river.

"Again, let me assure you that I am opposed to the creation of a park in the scenic or wild river stretches of the Youghiogheny River. Already established parks at Swallow Falls, Deep Creek, New Germany, and Big Run along with the facilities in the nearby State forests provide sufficient park and recreation attractions. The Scenic and Wild River System of which the Youghiogheny would be a part, would serve an altogether different purpose."

Lakers Defeat Allegany 8 to 0

Garrett Community College took advantage of six Allegany Community college errors to administer an 8 to 0 defeat and snap the Trojan winning streak of eight games yesterday afternoon at McHenry.

The Lakers wasted little time jumping in front with a singleton in the first inning and a pair in the second. Ernie Shotwell silenced the Trojan bats over the nine inning route.

The Lakers scored in the first on a walk to Bob Ingram and a triple to rightfield by Dan Slifko. Garrett added a pair in the second on singles by Randy DiSimone, Mark Deutsch, a walk to Wrszinski, a ground out and an error.

Shotwell meantime was tossing four hit shutout ball. Robert Whitfield, with eight assists from his shortstop position, led the Garrett defense. Ingram, DiSimone and Deutsch each had a pair of safeties. The victory was the fourteenth against two defeats for the Lakers.

Vascar Used

(Continued From Page One)

digital clock, showing the speed of the car being clocked. The computer can be used while the police car is in motion as well as stationary, and can get accurate readings from within 10½ inches to 6½ miles, distance-wise. Weather does not affect the computer, and it can be used day or night.

The trooper can clock a specified distance and then time cars as they go through the distance, or can time a car through a certain distance and then the computer will calculate the speed when the trooper travels the same distance.

The computer gives the violator a break by recording only the average speed in a certain distance so that if a car enters the zone doing 100 m.p.h. but slows to 70 before passing out of the zone, his speed is shown as 85.

The computer can clock cars going in the same direction as the police car, in the opposite direction, following the police car, or crossing an intersection.

The possibility of operator error has been eliminated, since flipping an incorrect switch, or failure within the computer itself, will cause the machine to lock up.

The computer system has been recognized throughout Maryland in court and has been in use in the more metropolitan areas for the past three years. Judge Lewis R. Jones and State's Attorney Ralph Burnett were given a demonstration of Vascar recently.

The machine in use here, a Federal Vascar II, is a modern outgrowth of a computer invented in 1958 by Arthur N. Marshall, Richmond, Va. Indiana and Ohio have used Vascar systems for many years.

Troopers Hinnant and Berkebile are the only two certified Varscar operators in this county. Both had classroom and on-the-road training in the system last September, and were certified late this winter. They are two of the 15 state police stationed here, including 11 roadmen, two criminal investigators and two supervisors.

Each day before use, the machine is calibrated and checked on a course in mid-county to make sure it is operating properly. Additional calibrating lines will be painted along routes 135 and 40 this summer.

Although the computer was installed last fall, warnings only were issued until mid-March of this year to give drivers a chance to learn of the new detection system. Now, they consider the driving public fairly warned.

HYBRID CORN
is Beautiful

Is there anything out on the farm that brings more pride and pleasure than a good crop of corn? When compared to other grain crops, corn DOES hold real excitement. There is something magical about rows of newly emerged corn plants, to see a fully grown corn field come into tassel, and to see yellow corn pour from a combine during harvest. Wouldn't you agree with us that "Corn is Beautiful"?

The Garrett County Commissioners will conduct a public hearing on Saturday, April 26, 1975, at 10:00 am. at Garrett Community College to hear testimony concerning a proposed Zoning Ordinance for Deep Creek Lake. All interested citizens are invited to attend.

The proposed Deep Creek Watershed Zoning Ordinance, summarized below, would replace the Interim Zoning Ordinance, adopted in 1971 as a temporary moratorium on commercial development. The new Ordinance would establish areas around Deep Creek Lake to accommodate commercial, higher-density residential, and lower-density "second home" development in an orderly pattern as recommended in the Development Plan for Garrett County, adopted by the Commissioners in May, 1974. The intent of the proposed Zoning Ordinance is to meet the growing needs for a wide variety of recreational and year-round businesses and homes in the lake area while preserving the unique attraction of Deep Creek Lake which makes it such a strong part of the county economy.

The map below outlines the various zoning districts proposed in the Deep Creek Lake area. The area covered in the Zoning Ordinance would be the Deep Creek Lake Watershed, including land area around Deep Creek Lake where water drains into the lake itself.

PROPOSED DEEP CREEK DRAINAGE BASIN ZONING MAP

TC - Town Center Zoning District

The town center zoning districts are proposed for the McHenry area, including old route 219 south to the Point View, and for the Thayerville area and Route 219 north to Johnny's Bait House. The present development pattern of these areas is commercial and residential and the new Ordinance proposes the Town Center Areas as most suitable for future commercial and higher-density (up to six dwelling units per acre) development.

TR - Town Residential Zoning District

Town Residential zoning districts adjoin both of the Town Center area (McHenry and Thayerville) and would act as a buffer between the more highly developed and the "second home" areas. In addition, the Town Residential areas would be suitable for residential development of moderate density (up to 4 dwelling units per acre). The Town Center and Town Residential areas represent the area proposed in the County Plan for a sewerage system and such a system would be necessary for the proposed level of development.

C- Commercial Zoning District

The Commercial areas appear in three places — Sand Flat, Glendale Road near Beckman's Peninsula, and Route 135 and Turkey Neck Road. Existing development and traffic flow patterns suggest that these areas are ideal for "convenience" commercial services such as retail stores and gasoline stations.

RD - Rural Development Zoning District

Located in the upper Cherry Creek area, the rural development zone includes land that drains into Deep Creek Lake, but it is an area not associated with the Deep Creek Lake recreational areas. The Rural Development category would aid in protecting the Lake from poor quality water by maintaining standards for development but generally would allow for a wide variety of permitted uses.

LR - Lake Residential Zoning District

The remainder of the Deep Creek Watershed is in the Lake Residential District. The Lake Residential areas have developed as "second home" areas and this zoning category help in preserving these areas as desirable residential — recreational locations. The Lake Residential zoning district proposed to lower density to one dwelling unit per acre for residential development; it also could accommodate recreational development, and a limited amount of smaller commercial facilities.

Alluvial and high water table soils

Although not a zoning district or category, the alluvial (flood-prone) and high water table soils are identified as areas where natural soil conditions may inhibit development. These soil areas would be zoned as appropriate for the district in which they are located. However, the proposed ordinance would establish standards for developing these areas to insure that adverse environmental damage does not occur.

Agriculture

Agricultural use occurs in virtually every zone proposed in this ordinance. Agricultural use is beneficial to the economy and preserves the "open spaces" so desirable in Garrett County. Nothing in this zoning ordinance is intended to interfere with present or future agricultural endeavors in the Deep Creek Watershed.

The Garrett County Planning Commission has spent more than three years preparing land use plans for Deep Creek Lake. During this time, background studies, land-use studies, and more than 15 public meetings were conducted to determine the best ways for the Lake to grow. The Planning Commission and the County Commissioners recognize that conditions change and that many possibilities are unforeseen, and have included provisions in this proposed Zoning Ordinance to amend the Ordinance so it can meet the changing conditions of Deep Creek Lake.

COPIES OF THE PROPOSED ORDINANCE ARE AVAILABLE FOR REVIEW AT THE PLANNING COMMISSION OFFICE, THE COUNTY COMMISSIONER'S OFFICE, THE RUTH ENLOW LIBRARY, AND GARRETT COMMUNITY COLLEGE.

ATTEND CONFERENCE — Representatives of the Oakland FFA Chapter, Southern High School, attended the gardening conference sponsored by Community Action Committee at Garrett Community College lecture hall last Thursday. LETTER TO THE EDITOR

Dear Editor:

I join Mr. Riggleman in his concern about discontinuance of manufacturing hand gun ammunition. Since that publication I received a letter soliciting aid to preserve our rights to own fire arms, from the National Rifle Association of America, Washington, D. C.

This is a good solid patriotic organization. It has worked in cooperation with the U. S. government and citizens through war and peace. May I quote from their letter?

"My friend, they are not talking of 'CONTROL,' they want complete and total 'CONFISCATION.' This will mean the elimination and removal of all police revolvers, all sporting rifles and target pistols owned by law abiding citizens.

That's right—movements to take away police weapons are very real. In New York City, important city officials have publicly advocated that all firearms be taken from the city's patrolmen."

Now let us think, Fellow Americans—could there be any connection here when a point in the communist goal is to disarm the citizens?

Remember, Kruschev bragged they would take over the U. S. without firing a shot.

Remember, when guns are outlawed, only outlaws will have guns.

Ralph Gene Liller Injured In Mine Mishap Friday

Ralph Gene Liller, 34, of Smouse Road, is a patient in Garrett County Memorial Hospital, Oakland, following injuries to his left leg sustained in an accident about 5:30 a.m. last Friday at North Branch division of Island Creek Coal Company.

Mr. Liller, who is employed as a mechanic, said a rib of the mine rolled out and hit his left leg. He underwent three and one-half hours of surgery Tuesday afternoon and is now listed in satisfactory condition.

He has been employed continuously at North Branch for approximately 6½ years. He was transported to the hospital by members of the Southern Garrett County Rescue Squad.

Living Tombstone

Fortunate people can visit Arizona in the winter, but we were doubly fortunate in seeing the tough old town that has never died. For us, the greatest charm of this Old West resort was the people who showed such lively interest in its visitors. They displayed a charm and folksiness that was genuine and gay to the Easterner.

Ed Schiefflin, the pioneer miner, came back to Arizona to prospect for silver, even though he was warned that all he would find there would be his tombstone. Not so, for he discovered three veins and became wealthy, but moved away from people to Oregon. However, they granted him his great wish by bringing him back to Tombstone for a special funeral and special remembrance since that time.

Allen Street, the main area, is a national historical landmark, so we traversed it like tourists, hearing the piano in the saloon and seeing the restored O K Corral, where Wyatt Earp and his brothers had the shoot-out. It is just outside the window of the room of Big Nose Kate and the town photographer's studio. The writer also personally examined each gravesite in Boot Hill.

The sign in the restaurant window mentioned chicken and ribs, barbecued with smoke from mesquite wood, so we went into this place, there to meet the host-owner and mayor of Tombstone, Jack Hendrickson, an Illinoisan who came west and never went home. He displayed so much appreciation of local lore that we enjoyed our meal twice as much. His genial manner proved that without "Uncle Jack," as his little visitors called him, the town would surely not ever be the same.

Beautiful turquoise, local fun posters, the old movie house, a tremendous freight wagon, and the undertaker's establishment all gave flavor to the environment. There are two museums to suit different tastes, and a rock (polished stone) house that would delight any jeweler. But the nicest feature is that wide, wide street, which conjures up visions of the long walk to someone's doom.

A sudden snow squall surprised us, as the Dragoon Mountains, the stronghold of Cochise, formed the backdrop for a unique precipitation that was evaporated in the next half hour. Such is the joy of a dry climate.

The next morning we had breakfast in the Oriental Palace, complete with an upstairs bannister that once may have had men tumbling down over it. Along the wall were scenes along the wagon trails into and out of town. Beyond two arches was the barroom with a mahogany bar brought from Montana.

Then we ordered, so I asked my burning question about the menu. "Would you really serve a Bloody Mary for breakfast?"

"Certainly," smiled the waitress. "This is Tombstone."

DID YOU KNOW??

The New World Planners who gave us government sponsored Day Care Centers are hard at work in passing laws that gives Big Government the right to determine what is best for your child without your consent. Creating an atmosphere of fear and distrust between parent and child. Two such laws were passed by the Maryland Legislators, (Article 43 Section 135 and Section 135A of Article 43). Below is a part of those laws:

Fact Sheet: MARYLAND'S MINORS' CONSENT LAWS

Maryland has two laws which provide that a minor can consent to medical treatment as if he/she were an adult.

One of the laws (Section 135 of Article 43) allows the minor such treatment under ANY of the following circumstances:

(1) the minor is 18.
(2) the minor is married or parent of a child.
(3) the minor seeks treatment or advice concerning drug abuse, venereal disease, pregnancy or contraception.
(4) a physician thinks that delay of treatment would affect the life or health of the minor.

The other law (Section 135A of Article 43) provides that a minor who is 16 can consent to diagnosis and consultation for a mental or emotional disorder.

Both laws protect the physician treating minors from legal suits. They also give the physician or staff member of a clinic the discretion to decide if a parent or guardian should be informed.

PURPOSE OF THE LAWS

The present versions of these two laws were passed in 1971 in order to enable doctors, public health officials and social agencies to provide help to teenagers who are unable to go to their parents with their problems or who are estranged or emancipated from their parents. The increase in venereal disease, drug abuse and out-of-wedlock pregnancies among minors was a major concern of those who supported this legislation, coupled with a desire to prevent the risk of untreated illness and the dangers of reliance on nonprofessional "cures" and self-medication by this age group.

THIS ONE DIDN'T MAKE IT. This low slung car-carrier got hung up on the Oak street bridge over the B and O Railroad tracks last Saturday. Although the sign on the front says 'Nu-car Carriers', it was reported the cars being transported were 'used' cars headed for a dealer in Terra Alta, W. Va. Some difficulty was encountered in moving the rig. The carrier company is apparently from Bryn Mawr, Pa., but the driver's name is not known. Sgt. Hobert Shillingburg of the Oakland Police investigated.

Bicentennial State Map Is Available

The 1976 Bicentennial Official Maryland Map is now ready for general distribution.

Northam B. Friese, Acting State Highway Administrator, said that this map has been prepared in honor of the Nation's 200th birthday and that enough copies have been printed to meet the demands of citizens and visitors during 1975 and 1976.

Maryland has a unique historical place during the founding of this country and Mr. Friese said he wants to invite Marylanders and thousands of visitors who will come here in this eventful Bicentennial year to share our heritage.

This map is available free from the Map Section of the State Highway Administration, Brooklandville, at the State Office Buildings in Baltimore and Annapolis, the lobby of the State Highway Administration building and all SHA District Engineer offices, Maryland State Police barracks.

The reverse side of the map emphasizes Maryland's place in history with photographs of many of the historical sites.

It is an open invitation for you to question me on issues, let me assist you with your problems, request information or comment on whatever happens to be on your mind. While space is obviously limited for printing all replies, I shall make every effort to answer each person who contacts me.

Where can I obtain a 1975 Golden Eagle Passport?

The 1975 Golden Eagle Passport, for persons under 62 years of age, provides unlimited admission to selected National Parks for one calendar year. The Passports cost $10 and admit the purchaser and all persons traveling with him or her in a single, private, non-commerical vehicle. The Golden Eagle Passport may be obtained at National Park entrances or the National Park Service Headquarters, Washington, D. C.

Have social security benefit increases in recent years kept up with benefit increases of the past?

Social Security benefits were increased 20 percent in the 1950's, 20 percent in the 1960's and, counting to 11 percent boost, last year, already 56 percent in the 1970's.

In light of the high cost of food, several families in our area have decided to grow their own vegetables next year. I'm wondering, are there any government publications on this subject you could send us?

Yes. The Agriculture Department has several booklets which might be of interest to you including its bestseller, "Growing Vegetables in the Home Garden". If you don't have room for a full-fledged garden, you'll find instructions for growing vegetables in windowsills, on balconies or patios in a 12-page guide called "Minigardens for Vegetables". Copies of the Consumer Information Index which included ordering instructions for these two booklets, and dozens of other gardening publications, is available free from my office here in Washington.

What deficit costs are estimated for oil imports over the next ten years?

A study prepared by the Congressional Joint Committee on Atomic Energy cites projections of $14 billion in deficit costs for oil imports in 1975, $30 billion by 1980 and $54 billion by 1985. These figures, however, are quite conservative since the report was issued prior to last years Arab embargo and the subsequent price increases declared by the Middle East oil producing countries.

How did you vote on the Elementary & Secondary Education Act and also the busing amendment to that bill?

I supported passage of the Elementary & Secondary Education Act including an amendment to prohibit any appropriated funds from being used for busing to achieve school desegregation. The amendment passed the House 239-168 and the entire bill extending the Education Act through fiscal 1977 passed 380-26.

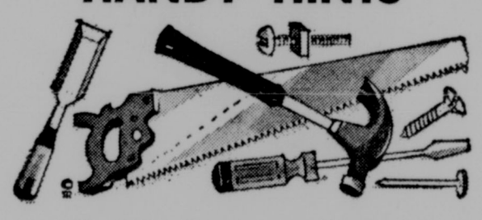
What is the status of legislation requiring all radios to automaticaly be equipped with FM as well as AM receivers?

Last September the House Interstate and Foreign Commerce Committee authorized such a bill, amending it to apply to car radios only. The Committee decided to restrict its bill to car radios because almost all home radios had FM bands, but only 13 percent of all cars on the road had FM radios.

How do you feel about the proposal for sending nuclear reactors to the Mid-East?

I do not supoprt the idea of nuclear sales to foreign nations because there are too many risks and uncertainties involved. Fears of weapons production and terrorist attacks, questions about the stability of recipient foreign governments, and the need to cut back on foreign aid are just a few reasons for my stand.



Does the government publish any publications on how to conserve on car fuel:

In light of the nation-wide effort to conserve energy, the General Services Administration has published a new energy conservation bulletin entitled, "Tips for Conserving Gasoline." The pamphlet includes tips on driving techniques, car maintenance and car use and includes a gas mileage checklist for your car. You may obtain a free copy of this helpful and informative booklet by writing Consumer Information, Pueblo, Colorado 81009.

I recently had to stop working because of severe chest pains and shortness of breath. I applied for Social Security disability benefits but was denied for no apparent reason. Can you do anything.

Upon receipt of your letter my office contacted the Social Security Administration on your behalf. As you know, based on the additional medical evidence you have provided, your benefits have now been approved. Citizens having similar difficulty in obtaining government benefits justly due them should feel free to contact my office in Washington for assistance.

Oxalic Acid will bleach out rust stains on a cement floor. It comes in crystal form, is mixed with very hot water.

Painting metal casement windows, keep an eye on the thermometer. If it's colder than 50° and the metal is cold too, the paint may not dry properly. Wait until it's warmer.

Sunday Liquor Sales Doesn't Apply In Garrett

No legislation was passed at the recent session of the Maryland legislature legalizing Sunday sale of liquor in Garrett county, DeCorsey E. Bolden, member of the House of delegates, emphasized this week, after hearing reports at various places in Oakland.

Bolden said the legislation concerning Sunday sales applied only to Allegany county and in no way affected Garrett county.

A bill was passed, posting the closing hour for the sale of liquor to two o'clock on Sunday morning instead of one o'clock, as previously, he pointed out.

Luke Mill Halts Use Of 3 Machines

Three of nine paper machines at Luke, Md., mill of Westvaco Corporation are being taken out of production because of current market conditions, it was announced today by David G. McMaster, mill manager.

The affected machines are the smallest and oldest units operated by the mill, accounting for only 80 of 1,000 tons of paper produced daily at Luke.

Mr. McMaster said the action is necessary because of the current lack of orders and an uncertain future demand, which indicates that "there just are not sufficient new orders to maintain production." The machines all produce uncoated papers.

Some 60 employes are affected by the shutdown. These employes will be able to exerecise placement rights by seniority into other jobs within the Luke mill. Any layoffs will be announced as soon as vacation replacements and other manpower needs of the mill have been determined.

The shutdown of Nos. 1 and 2 Paper Machines will be permanent. No. 3 Paper Machine will be shut down for an indefinite period pending evaluation of market conditions.

A Pennsylvania man was admitted to the Garrett County Memorial Hospital following a one-car wreck early Saturday. Two others in the same accident were treated and released. Another accident caused slight injury to one person.

Kenneth Anthony Ritchie, 18, Monongahela, Pa., operator of the car, was admitted and since discharged. John Gephart and John Opera, both 18, and from Elizabeth, Pa., were treated and released from the hospital. Two other passengers in the car apparently escaped injury.

Ritchie was northbound on U.S. 219 shortly past midnight near the Deep Creek bridge. Traveling an an apparent high rate of speed, he failed to negotiate a curve, struck the guard rail and a telephone pole. The car was called a total loss. Tfc. L. R. Rosage charged Ritchie with failing to keep to the right side of the road.

Carl A. Rhodes, Shippenville, Pa., was slightly injured in a two-vehicle mishap last Thursday just before noon. Rhodes and Joseph L. Matthews, Accident, in a pick-up, headed westbound on U.S. 40 in Grantsville. Rhodes was slowing, passing through the intersection of Md. 495 and Matthews' truck struck him in the rear. Matthews had skidded about 30 feet before the collision. Tfc. E. J. Upole charged Matthews with excess speed.

An unusual mishap occurred in Accident recently. An unknown vehicle apparently made a right turn from Deakins street onto Main street (U.S. 219) to go north. The turn was made too sharp and the vehicle struck the building of the Greater Maryland Tool and Die Corp. The vehicle then fled the scene. The accident occurred sometime between 5 p.m. April 4 and 8 a.m. April 6. Tfc. C. D. Skidmor investigated.

Mechanical failures were blamed for 2 recent accidents, Kenneth E. Schrock, RD 1, Oakland, was going south on First street near Oak street in Mt. Lake Park, and lost his brakes. The car proceeded to pick up speed as he entered Oak street and he lost control. The car ran off the left side and struck a tree. Tfc. R. S. Lewis investigated.

Wayne V. Jamison, RD 3, Oakland, was traveling north on U.S. 219 just north of the corporate limits of Oakland the afternoon of April 7. He started to make a left turn into the Big T parking lot when the tie rod broke. The vehicle went out of control, jumped the curb and landed in some shrubbery. Tpr. J. E. Foley made no charges.

James W. McGregor, Cumberland, was following a dump truck of the Fairfax Sand and Gravel Co. driven by David V. Sisler, Romney, W. Va., westbound on Md. 135 at the Gorman road. McGregor attempted to overtake the truck at the same time it attempted to turn left onto the Gorman road (Md. 560). Tfc. L. R. Rosage charged McGregor with passing at an intersection and Sisler with not giving a turn signal.

Richard E. Kibbey, Baltimore, and Charles W. Rogers, Keyser, W. Va., in a heavy truck were traveling south on U.S. 219 near Accident. Rogers activated his turn signal to make a left turn into an unnamed road. Kibbey was in the process of overtaking Rogers and the two collided. Tfc. C. D. Skidmore charged Kibbey with passing when unsafe.

Steve W. Shaffer, Horse Shoe Run, W. Va., was driving north on U.S. 219 near Mansfield Rd. the evening of March 28. Shaffer swerved to avoid a vehicle making a left turn into a private drive. His car then went out of control, struck an embankment and overturned. The car was called a total loss. Trooper Foley investigated.

Sixteen Are Killed On State Highways

Sixteen persons lost their lives on Maryland highways last week, according to the weekly news release compiled by 1st Sgt. James Harvey of the Maryland State Police. Of those killed nine were drivers, four were passengers and three were pedestrians. At least three of the deaths could have possibly been prevented had seat belts been in use.

Persons killed through April 14 totaled 181 compared to 141 for the same period last year.

During the month of March, a total of 64 persons died on Maryland highways. Of these, 49 persons were examined for blood alcohol by the office of the Maryland state toxicologist, Dr. Yale H. Caplan, Ph.d. Of these, 33 persons were drivers.

Upon examination of the 33 drivers it was revealed that 23 of them were driving under the influence of alcohol; 10 were not. This means that the drinking drivers outnumbered the non-drinking drivers by more than 2-1.

Asparagus

Asparagus leads the parade of the spring vegetables. This delightful green vegetable is available from now through May. The hot house varieties are on the market now. The field varieties will be coming to market - the latter part of April and the beginning of May.

Asparagus is of two general types, based on the color of the spears: green and light-green (or whitish) spears. The light-colored varieties should not be confused with the white (blanched) asparagus grown for canning. The green type is an early spring crop and is usually cut just as soon as the tips of the stalks come above ground, about eight inches. The white asparagus is the same variety, but it is clipped while most of the stalk is still below ground. When selecting your green asparagus at the retail market, look for stalks that are straight and fresh appearing. You will find these crisp and tender with compact, pointed tips and only an inch or so of tough, woody base to trim off at the bottom. On the other hand, asparagus with wilted stalks or loose tips is generally an uneconomical buy as it is practically certain to be tough and stringy.

At shipping point, asparagus is quickly cooked through a hydrocooling method. If the sweet flavor of the asparagus spear is to be maintained, it must be kept at a temperature below 41 degrees F. and the butt should be kept damp. When it warms up to room temperature, flavor deteriorates rapidly. Store asparagus in the coldest part of your refrigerator, wrapped at the base with a damp towel, keeping it moist during refrigeration.

Boil asparagus until tender - no longer. Appropriate sauces are drawn butter and Hollandaise type (hot) or mayonnaise (cold). It is also delicious when sprinkled lightly with Parmesan cheese and grilled. Pieces of cut, fresh asparagus make a welcome addition to salads.

Crime in the U.S. increased 17 percent in 1974.

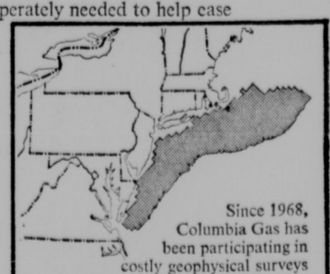
"SERVICE IS OUR MOST IMPORTANT PRODUCT"

Keep America beautiful, but keep America alive!



Some of America's most beautiful resort areas lie along the Atlantic Coast. And no one wants to mar their beauty. It's much too valuable a natural resource.

But, there's another tremendously valuable natural resource over the horizon along the Atlantic Coast. Energy. Energy that is desperately needed to help ease our nation's worsening energy crisis.

We must not sacrifice one resource for the other.

And we needn't. Modern techniques for under-water drilling and delivery of fuel have eliminated the danger of permanent environmental damage. An offshore drilling rig won't even be seen from the shore. And offshore production will reduce the need for increased tanker traffic.

All domestic sources of energy must be developed to meet our growing national fuel needs. The potential of the Atlantic outer continental shelf is great and can be realized in an environmentally safe manner. The Atlantic coast areas depend on a prosperous America. And a prosperous America depends on energy.

Since 1968, Columbia Gas has been participating in costly geophysical surveys off the Atlantic Coast. The tests range from North Carolina to Nova Scotia. We've also joined a 25 million dollar drilling exploration program off Canada's east coast, a promising source of clean, natural gas to help ease the energy crisis.

COLUMBIA GAS
Gas is precious, pure energy . . . use it wisely.

Concert Association Drive Ends April 19

The 17th annual membership drive of the Tri-State Community Concert Association comes to a close Saturday, April 19. Many residents of Oakland and elsewhere in Garrett County subscribe to membership in the association each year. They are then able to attend all concerts scheduled in the coming season at the Fort Hill High School auditorium in Cumberland.

Mrs. Robert Stanton of Oakland is captain of Team 14 in the campaign. Assisting her are Clinton Englander and Mrs. Robert Sincell.

Three outstanding attractions already have been booked by the association for the 1975-76 season. First of these will be the Chinese Acrobats of Taiwan, a company of 65 with live Chinese musicians on Monday, October 13.

The second assured attraction will be the Music from Marlboro ensemble, which will be here on Sunday afternoon, October 26. Then on February 17, the New Christy Minstrels will make an appearance here. Since its beginning in 1961, the New Christy Minstrels' producers have encouraged young artists to enter new fields as opportunities availed themselves.

If enough memberships are sold to fill the 1600 seats in the Fort Hil auditorium the association will be able to offer one or two additional concerts in the coming season.

To Observe 30th Anniversary

The children of Mr. and Mrs. Lawrence J. Sines will honor their parents' 30th wedding anniversary with an open house on Sunday, April 27, from 2 to 4 p.m. at their residence on Swallow Falls Road, Oakland.

Shirley Marie Engstrom Sines is the daughter of the late Carl and Helen Layport Engstrom, Tippecanoe. Lawrence J. Sines, is the son of Rev. Jonas and Minnie Beeghly Sines of Center Street, Oakland, Md.

They were married April 12, 1945 at the home of Rev. Jonas Sines by Rev. Alonzo Fike of the Church of the Brethren in an afternoon service.

Mr. and Mrs. Sines are the parents of seven children, Beverly Ann (Murphy) of Salisbury, Pa.; David D., Friendsville; Cecil R., Baltimore; Joseph L. and T. Mark, of Oakland; Jeffrey C. and Nevin T., still at home.

There are also six grandchildren, Marvin Glen, David, Rebecca, Lynn, Jennifer and James.

The family requests that gifts be omitted.

Docket Shows One Fishing Violation This Week

Lakers Take Two From Montgomery

Mike Brady allowed only four hits in the opener and Jim Kosyak fired a two hitter in the nightcap as Garrett Community college swept a twin bill from Montgomery Community college 10-2 and 12-2 Saturday at Takoma Park.

Brady, a freshman from Southern High, struck out 13 and walked four in going the route in his first start of the season for the Lakers. Kosyak had a no-hitter going until the fourth and fanned 12 enroute to his first win in two decisions.

The twin win concluded the biggest week in the history of the school's baseball season as the Lakers won six of seven games to up their overall record for the fall and spring to 13-2.

Dave Cullen carried the big bat in both games, slamming a homer, triple and two singles in the nightcap after going two for three in the opening game.

February Bond Sales Are High Nationally

The sale of E and H U.S. Savings bonds continued to remain high nationally and statewide for the month of February.

Nationally sales totaled $592 million, greatest for any February since H. bonds were issued, and brought the total for the first two months of 1975 to $1.3 billion, a 23-year E and H record for the first two months' sales.

State-wide the total for February was $16,137,221, with a cumulative figure $26,730,766, an increase over 1974 figures.

Garrett County, with a quota of $677,987, had a figure of $62,608 for February, with a cumulative total of $85,029, or 12.7 percent of its quota. The county stood 21st among the 23 counties and Baltimore city.

Garrett County has a larger quota than ten counties in the state. Calvert, Kent, Somerset, Queen Annes counties have quotas of less than $250,000, with Worcester, Talbot, St. Mary's, Charles, Dorchester and Caroline counties have a higher figure but all less than Garrett.

Asks Caution In Antenna Repairs

Potomac Edison is asking its customers with damaged TV antennas to use extreme caution in repairing them to avoid contact with electric lines.

The company points out that there are thousands of antennas throughout its service area that were toppled by the high winds. Some of them are dangerously close to power lines. If there is any question about possible contact with PE lines, the company is urging customers to call their local PE office before beginning repairs.

Customers are also urged to report any potentially dangerous situation involving power lines that are sagging, loose or threatened by leaning trees.

Gary W. Richey, Manassas, Va., was operating west on U.S. 40 about a half mile west of the Zehner road the afternoon of April 5 in a large bus. He was traveling at a slow rate of speed when the bus began to slide and go out of control. The vehicle went to the left then back to the right, sliding down over a slight hill, coming to rest against several fence posts. Tfc. D. K. Williams investigated.

Ellen E. Hare, RD, Accident, was driving north on Md. 495 near Shade Hollow road the afternoon of April 3. The operator said she struck a patch of ice and the car went out of control. It struck the southbound embankment, turned over on its top and came to rest facing east. Tfc. Williams made no charges.

Kathleen D. Boardman, Ellicott City, stopped in the eastbound lane of U.S. 40 near the Church Run road the afternoon of April 3, due to blinding snow. An unknown tractor-trailer, westbound, crossed the roadway and struck the Boardman car on the left side. The rig proceeded on without stopping. Tfc. Williams investigated.

Work On Budgets Is Continued By Commissioners

Budget work sessions were continued by the County Commissioners at their regular meeting Monday, reviewing budget requests from the State's Attorney's office, Sheriff's department and the Deep Creek Lake-Garrett County Promotion Council.

Tentative approval was given to the State's Attorney's budget for fiscal 1976 in the amount of $26,000, up $3,900 over the current fiscal year. Preliminary increase was attributed to increased expenses of the Deputy State's Attorney, commissioners pointed out.

Commissioners also gave tentative approval to the sheriff's department and jail operating expenses. Total for the former was $122,549.50, up $7,170.50 over the current year. Total for the jail is $18,295, down $6,220. Major increase in the sheriff's department is the salaries, the commissioners said.

The Promotion Council received a tentative figure from the county of $22,000 up $6,000 from last year. State matching funds will also be a part of the Promotion Council budget, using a portion of the local share as match.

The Commissioners received copies of the Garrett County Plan which was adopted last May. Copies are available to the public from the commissioners' office in the Courthouse or at the Planning Commission office at 202 E. Alder street, Oakland.

The commissioners presented a statement to the Public Service Commission Tuesday night in opposition to the proposed rate increase requested by Columbia Gas. Pointing out that Columbia Gas was serving the major municipalities in the county and at least two major industries, the proposed increase would cause an undue burden on the 1700 customers currently being served by the gas company. The commissioners' statement pointed out that during their current budget they were primarily concerned with keeping an additional burden on the taxpayers.

U.S. Chamber of Commerce head is critical of too many subsidies.

SPORTS Go-Round

by Larrie Weaver

Yo-Yos today are thought of as children's toys, and while one may practice their skills at eight or eighteen, it is hard to take the yo-yo too seriously! But the yo-yo originates from Filipino jungle fighting weapons. They were recorded as early as the 16th century. It seems unbelievable, but early yo-yos weighed as much as four pounds, and cords were as long as twenty feet. The word itself means "come-come". The craze for the yo-yo came when it was domesticated in 1929 by Louis Marx.

CLEAN CARPETS LAST LONGER

It's a fact. Unlike fine furniture and vintage wine, carpets don't improve with age. They just wear out and fade away. There's no way to stop the wear and tear but we have a guaranteed way to slow it down. Let us remove the old shampoo residue, dirt and sand that are constantly breaking down your carpet's fibers. We'll make the impacted areas come to life again by cleaning the pile and lifting it. It makes sense these days to increase your carpet's life expectancy. Clean carpets last longer.

American Christian Freedom and Responsibility

By

Rev. W. H. Leake, Deer Park, Md.

DEAR FRIENDS OF TRUTH AND FREEDOM. Are you aware that the State of Maryland has two so called MINOR CONSENT LAWS, passed by both Houses of the State Legislature in 1971 and signed by Gov. Mandel. They became law in July 1971. According to these laws, Doctors, Public health officials, social agencies and school officials working together can give to your daughter or granddaughter REGARDLESS OF AGE drug advice, treatment for Venereal disease (girl or boy), contraceptives, yes and abortions WITHOUT YOUR (THE PARENTS) CONSENT OR KNOWLEDGE. They are Section 135 of Article 43 and Section 135A of Article 43. You read it right friend, they can give your child any of the above and there is NO, repeat NO lower age limit and these laws protect them from any legal suits. According to a local health official, teenage girls have been sent from Garrett County to other areas for abortions. In some cases it was with parental consent and knowledge and in others THE PARENTS WERE NEVER NOTIFIED. Friends, this is going too far if we are to retain any of the freedoms for which our founding fathers and our young men in all wars have fought and died for. We must by the Grace of God Stand up and be counted. The Bible is out and now "sex education" is going to be put into all grade levels of our schools. Boys and Girls viewing the whole human anatomy together in mixed classes, colored film that leaves nothing to the imagination. No wonder they need laws to protect them as they hand out contraceptives to any age girl and in case they don't work, etc. venereal disease treatment and abortions. FRIENDS, OUR NATION IS SICK ... SICK ... SICK. What have you done, What will you do. More next week on what you can do.

Registration For Selective Service Stopped April 1

Col. Jack D. Kaufman, Maryland State Director of Selective Service, announced that continuous registration for Selective Service has been suspended as of April 1, by Presidential proclamation.

"Young men born in 1957 or prior years will not be registered in 1975" Col. Kaufman stated. "Instead, planning is centered around a once-a-year registration period of a few days in which those young men would be required to present themselves for registration. I anticipate an announcement of new registration procedures would be made toward the end of this year."

The present system of continuous registration has been highly successful, reported Col. Kaufman. He said, "During the year 1974, more young men registered with Selective Service in Maryland than in any other year the draft law was in effect." Col. Kaufman stressed that the change in registration procedures is a part of the ongoing studies to reduce the cost of maintaining a Selective Service System in support of the All-Volunteer Armed Forces.

Forestry Camp Escapee Is Found Delinquent Friday

A forestry camp escapee was found to be a delinquent minor by Chief Judge Stuart F. Hamill Jr. sitting as juvenile judge last Friday.

The 15-year-old male was found to be a delinquent minor by reason of unauthorized use of a motor vehicle and escape from the Backbone Mountain Forestry camp.

The youth was apprehended near Hagerstown by Maryland State Police. The car in which he was found was allegedly stolen from a Swanton man.

It was reported the arrest and recovery of the car occurred at 11:49 p.m. last Wednesday. The youth was then returned here for the hearing Friday.

The youth was committed by Judge Hamill to the Secretary of Health and Mental Hygiene and will be assigned by that department to a juvenile institution until released by due process of the law.

and then...

A caterpillar crawls along a branch. So unsightly and useless is he that at best he is scorned, at worst, exterminated.

A grain of sand, one of an infinite number, lodges within an oyster's shell. It is coarse and hard, worthless and unwanted.

And then, there are people. They are restless, a bit lonely sometimes, and apprehensive about the future. They enter churches and speak to God.

From the cocoon, a gaily-colored butterfly emerges. People paint pictures of it; children try to claim it as their own.

From the oyster, a pale, creamy pearl is taken. It is admired, sold for a small fortune, prized.

So, God changes the lowly caterpillar and richly clothes the grain of sand. How much more can He change the lives of those who ask it of Him!

God awaits you. Come meet Him in church this Sunday.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY LAWRENCE W. ALTHOUSE

THE CHICKEN AND THE EGG

Lesson for April 20, 1975

Background Scripture: Exodus 19 through 20; 32; 34.
Devotional Reading: Psalms 119: 33-45.

The ancient question concerning the chicken and the egg, of course, is "Which came first?"

In many areas of life it is difficult to determine just what is the cause, on one hand, and the effect, on the other.

Rev. Althouse

When it comes to God, however, and his grace for men, there is an answer on the question of "Which came first?"

"You have seen..."

We all know that in the midst of their exodus from Egypt, God gave the people of Israel the Ten Commandments through Moses. There is hardly anyone in our culture who does not know the "Thou shalt not's" of Exodus 20. Most of us are aware that these commandments are the basis of the covenant between God and Israel. This is what God demanded of his people.

Yet, when we read the story from Exodus, we discover that something preceded the Ten Commandments. God did not begin his relationship (which is what the "covenant" was) with the people of Israel by making moral and ethical demands upon them.

Actually, he began the relationship with some action to save and help the people under Moses. Without any commitment from them, without any kind of agreement or promise, God saved the Israelites with a series of mighty acts. Thus, when Moses goes up onto the mountain to receive the commandments, God reminds him of what he has already done for the people: "You have seen what I did to the Egyptians, and how I bore you on eagles' wings and brought you to myself" (Exodus 19:3). And, in what might be called the "preamble to the Ten Commandments, God says: "I am the Lord your God who brought you out of the land of Egypt, out of the house of bondage" (20:2).

All of this God has done before he has asked anything of the people of Israel. There is no doubt about which came first.

"Now therefore..."

It is because of what he has already done without obligation for the Israelites that he now calls them to live in obedience to him: "Now therefore, if you will obey my voice and keep my covenant, you shall be my own possession among all peoples" (19:5). The "therefore" means: because of what I have done, this is what I want you to do...

What God said to Israel through Moses he still says to us today: because of what I have done for you, this is what I require of you...This means that God's grace always precedes his demands upon us. He speaks of what he has done for us, before he specifies what he wants from us.

Even then it is an offer more than a command, it is a relationship he offers us much more than it is a set of rules. It is a relationship of love which he has already demonstrated for us in his mighty acts on our behalf. Where the grace of God is concerned, there is really no question as to "Which comes first?"

Fun With Bowling And Funds For Cancer Crusade

BOWLING LANES OPERATORS — Mrs. Betty Mattingly, left, and Mrs. Pearl Parsons, right, complete the arrangements for the Scotch Doubles matches Sunday, April 6 for some 146 bowlers in the day's entertainment to benefit the cancer fund.

CANCER CRUSADE CHAIRMAN IS Mrs. Ruth Durst, wife of John O. Durst, Oakland, who announced that the cancer fund realized $240.90 from the day's bowling.

CURVE A LITTLE MORE — Mrs. Martha Welch, wife of Dr. Porter Welch, appears to be straining for just a bit more curve for her ball as she competes in the Sunday matches.

Oakland Was Accepted In Flood Ins. Program

Effective April 18, Oakland has been accepted into the National Flood Insurance program, according to an announcement by the U.S. Department of Housing and Urban Development.

This means that individual property owners are now eligible to buy flood insurance protection at affordable federally subsidized rates, accordiny to J. Robert Hunter, acting federal insurance administrator.

The law requires that it must be purchased by owners of property in areas identified as flood prone by HUD.

Policies can be purchased from any licensed local property insurance agent or broker.

Local Marksmen, Army To Compete May 10 At Wisp

Three U.S. Army sharpshooters will put their 15 years of experience to the test when they take on eight of the best marksmen in the area on May 10 at Wisp Ski resort, McHenry.

This marksmanship meet, sponsored by the Deep Creek Fire Company and the Deer Park Sportsmen's Club, will begin at 10 a.m. with the rifle competition.

Standing at a distance of 200 yards, each competitor will fire 22 rounds, the first two for an unscored accuracy sighting. The Army, represented by members of a Fort Campbell, Ky., shooting club, will be firing .30 calibre rifles with open sights. The civilian challengers, who will be determined by a match at Wisp on April 19, will fire rifles of equivalent size.

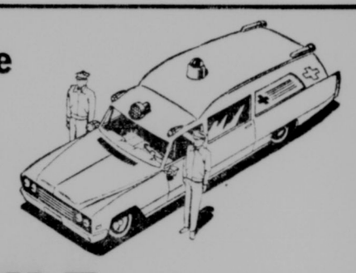
For pistol competition, the range will be 50 yards for slow fire and 25 yards for the timed rapid fire event. All three Army men will use .45 calibre service pistols for this event. The civilians may choose among a .38, a .357 magnum or a .44 magnum.

Between events, the military will give an automatic weapons demonstration. On May 9, they will also accompany the National Rifle Association when they give a weapons safety course at Northern and Southern High Schools.

After the meet, the Army marksmen will be available to answer questions about their unit, the 101st Airborne Air Assault; shooting clubs at Fort Campbell, and the Army in general.

Trophies for the best team and best individual shot will be awarded following the shoot.

That night, a dance honoring the 101st will be held in the Keyser National Guard Armory at 8 p.m. Te dance will be open to the public.



Arrangements to bring in the Army representatives were made by Keyser Army recruiter Staff Sergeant Jimmy Hagler and 101st canvasser Lt. Bill McCloskey, the Deep Creek fire company and Deer Park Sportsmen's club.

Autumn sunshine reaching the U.S. surface is said to be decreasing.

THE TOWN MAY LEVY AND COLLECT TAXES IN THE FORM OF SPECIAL ASSESSMENTS UPON PROPERTY IN A LIMITED AND DETERMINABLE AREA FOR SPECIAL BENEFITS CONFERRED UPON THE PROPERTY BY THE INSTALLATION OR CONSTRUCTION, OF WATER MAINS, SANITARY SEWER MAINS, STORM WATER SEWERS, CURBS, AND GUTTERS AND BY THE CONSTRUCTION, AND PAVING OF PUBLIC WAYS AND SIDEWALKS OR PARTS THEREOF, AND IT MAY PROVIDE FOR THE PAYMENT OF ALL OR ANY PART OF THE ABOVE PROJECTS OUT OF THE PROCEEDS OF THE SPECIAL ASSESSMENT. THE COST OF ANY PROJECT TO BE PAID IN WHOLE OR IN PART BY SPECIAL ASSESSMENTS MAY INCLUDE THE DIRECT COST THEREOF, THE COST OF ANY LAND ACQUIRED FOR THE PROJECT, THE INTEREST ON BONDS, NOTES, OR OTHER EVIDENCES OF INDEBTEDNESS ISSUED IN ANTICIPATION OF THE COLLECTION OF SPECIAL ASSESSMENTS, A REASONABLE CHARGE FOR THE SERVICES OF THE ADMINISTRATIVE STAFF OF THE TOWN, AND ANY OTHER ITEM OF COST WHICH MAY REASONABLY BE ATTRIBUTED TO THE PROJECT.

26 - 87 PROCEDURE

THE PROCEDURE FOR SPECIAL ASSESSMENTS, WHEREVER AUTHORIZED IN THIS CHARTER, IS AS PROVIDED IN THIS SECTION.

THE COST OF THE PROJECT BEING CHARGED FOR SHALL BE ASSESSED ACCORDING TO THE FRONT RULE OF APPORTIONMENT OR SOME OTHER EQUITABLE BASIS DETERMINED BY THE COUNCIL.

THE AMOUNT ASSESSED AGAINST ANY PROPERTY FOR ANY PROJECT OR IMPROVEMENT SHALL NOT EXCEED THE VALUE OF THE BENEFITS ACCRUING TO THE PROPERTY THEREFROM, NOR SHALL ANY SPECIAL ASSESSMENT BE LEVIED WHICH CAUSES THE TOTAL AMOUNT OF SPECIAL ASSESSMENTS LEVIED BY THE TOWN AND OUTSTANDING AGAINST ANY PROPERTY AT ANY TIME, EXCLUSIVE OF DELINQUENT INSTALLMENTS, TO EXCEED TWENTY-FIVE PER CENTUM (25%) OF THE ASSESSED VALUE OF THE PROPERTY AFTER GIVING EFFECT TO THE BENEFIT ACCRUING THERETO FROM THE PROJECT OR IMPROVEMENT FOR WHICH ASSESSED.

WHEN DESIRABLE, THE AFFECTED PROPERTY MAY BE DIVIDED INTO DIFFERENT CLASSES TO BE CHARGED DIFFERENT RATES, BUT, EXCEPT FOR THIS, ANY RATE SHALL BE UNIFORM.

ALL SPECIAL ASSESSMENT CHARGES SHALL BE LEVIED BY THE COUNCIL BY ORDINANCE. BEFORE LEVYING ANY SPECIAL ASSESSMENT CHARGES, THE COUNCIL SHALL HOLD A PUBLIC HEARING. THE CLERK-TREASURER SHALL CAUSE NOTICE TO BE GIVEN STATING THE NATURE AND EXTENT OF THE PROPOSED PROJECT, THE KIND OF MATERIALS TO BE USED, THE ESTIMATED COST OF THE PROJECT, THE PORTION OF THE COST TO BE ASSESSED, THE NUMBER OF INSTALLMENTS IN WHICH THE ASSESSMENT MAY BE PAID, THE METHOD TO BE USED IN APPORTIONING THE COST, AND THE LIMITS OF THE PROPOSED AREA OF ASSESSMENT. SUCH NOTICE SHALL BE GIVEN BY SENDING A COPY THEREOF BY MAIL OR TO THE OWNER OF RECORD OF EACH PARCEL OF PROPERTY PROPOSED TO BE ASSESSED AND TO THE PERSON IN WHOSE NAME THE PROPERTY IS ASSESSED FOR TAXATION AND BY PUBLICATION OF A COPY OF THE NOTICE AT LEAST ONCE IN A NEWSPAPER OF GENERAL CIRCULATION IN THE TOWN. THE CLERK-TREASURER SHALL PRESENT AT THE HEARING A CERTIFICATE OF PUBLICATION AND MAILING OF COPIES OF THE NOTICE, WHICH CERTIFICATE SHALL BE DEEMED PROOF OF NOTICE, BUT FAILURE OF ANY OWNER TO RECEIVE THE MAILED COPY SHALL NOT INVALIDATE THE PROCEEDINGS. THE DATE OF HEARING SHALL BE SET AT LEAST TEN AND NOT MORE THAN THIRTY DAYS AFTER THE CLERK-TREASURER SHALL HAVE COMPLETED PUBLICATION AND SERVICE OF NOTICE AS PROVIDED IN THIS SECTION. FOLLOWING THE HEARING THE COUNCIL, IN ITS DISCRETION, MAY VOTE TO PROCEED WITH THE PROJECT AND MAY LEVY THE SPECIAL ASSESSMENT.

ANY INTERESTED PERSON FEELING AGGRIEVED BY THE LEVYING OF ANY SPECIAL ASSESSMENT UNDER THE PROVISIONS OF THIS SECTION SHALL HAVE THE RIGHT TO APPEAL TO THE CIRCUIT COURT FOR THE COUNTY WITHIN TEN DAYS AFTER THE LEVYING OF ANY ASSESSMENT BY THE COUNCIL.

SPECIAL ASSESSMENTS MAY BE MADE PAYABLE IN ANNUAL OR MORE FREQUENT INSTALLMENTS OVER SUCH PERIOD OF TIME, NOT TO EXCEED TEN YEARS, AND IN SUCH MANNER AS THE COUNCIL MAY DETERMINE. THE COUNCIL SHALL DETERMINE ON WHAT DATE INSTALLMENTS SHALL BE DUE AND PAYABLE. INTEREST MAY BE CHARGED ON INSTALLMENTS AT THE RATE TO BE DETERMINED BY THE COUNCIL.

ALL SPECIAL ASSESSMENT INSTALLMENTS ARE OVERDUE SIX MONTHS AFTER THE DATE ON WHICH THEY BECAME DUE AND PAYABLE. ALL SPECIAL ASSESSMENTS SHALL BE LIENS ON THE PROPERTY AND ALL OVERDUE SPECIAL ASSESSMENTS SHALL BE COLLECTED IN THE SAME MANNER AS TOWN TAXES OR BY SUIT AT LAW.

ALL SPECIAL ASSESSMENTS SHALL BE BILLED AND COLLECTED BY THE CLERK-TREASURER.

Solid Citizen . . .

After seeing President Gerald Ford at ease Monday night before the TV cameras, talking in a relaxed manner with three prominent newsmen, it is very easy to come to the conclusion that the President is a very solid citizen.

In his replies to all the questions put forth by the newsmen, President Ford was forthright, frank, earnest, honest and sincere. It was indicated that any troubles he might have were certainly not rooted in his character.

He displayed openness, flexibility, a readiness to consider alternatives, showing a personal growth since becoming president.

The man has had a conservative ideology, is congenial, and is able to laugh at himself. He is a compassionate man.

These are just a few of the traits that have been exhibited not only Monday night but since his confirmation. As we said at the beginning, we believe he is a solid citizen, and a person of whom we can be proud.

Photographs And Magazines Earn $5000 For Southern

An explanation of unappropriated income to Southern High School was made this week by Luther Parrack, principal.

While tax dollars, funneled through the Board of Education, account for normal operating expenses, additional monies find their way into the general fund and two specific funds through "commissions."

Mr. Parrack estimated the current year's net at slightly in excess of $5,000.

These dollars are derived from three sources: the magazine subscription campaign, and the commissions from two photographic firms which take pictures of the seniors and underclassmen and then kickback ten percent of the gross to the school.

A breakdown of sources shows that Ruhl Studio of Cumberland, the seniors' photographer, returned nearly $1,000 which was earmarked for the Acorn, the school's newspaper.

Suit Is Filed Over Mt. Club Development

John R. McDowell, acting interstate land sales administrator for the U.S. Department of Housing and Urban Development, has started administrative action against the developer of Youghiogheny Mountain Lake near Swallow Falls.

Mr. McDowell alleges that the developer, Piney Mountain Corporation, Oakland, omitted vital information in the Statement of Record filed with his office of Interstate Land Sales Registration (OILSR).

Among data omitted, he said, were the completion date for a proposed lake, the existence of some lots marketed by the developer and the fact that several lots were deemed unsuitable for the installation of septic tanks.

Also, the developer's property report and contract forms failed to reflect changes in the Interstae Land Sales Full Disclosure Act. Developers are now barred from asking or requiring a prospective customer to waive his right to cancel a transaction within three business days.

A notice of proceedings was sent to Edward G. Frazee, president of the corporation, advising that sales will be suspended if he fails to request a hearing within 15 days after receipt of the notice.

The suspension would remain in effect until all the necessary changes are made in the statement of Record and Property report.

Gov. Mandel Signs Local Measures

Among bills signed into law by Governor Marvin Mandel Tuesday were three measures sponsored by Garrett legislators.

House Bill 348 by Del. DeCorsey E. Bolden increases expenses for the state's attorney's office.

House Bill 812 by Bolden will increase salary of the deputy treasurer. Presently the position is limited to an annual salary of $4,200, but the bill changes that to make the salary not less than that figure.

Senate Bill 1029 by Sen. Edward J. Mason prohibits strip mining on slopes which are 20 degrees or more in elevation.

Two Injured At Thayerville In A Tuesday Mishap

The drivers of each vehicle of a two-vehicle accident were slightly injured in a 12:30 p.m. mishap Tuesday in the Thayerville area.

The two injured were Louis R. Schoolman, Braddock Hghts., and Billy R. Sisler, Star Route 1, Oakland.

Sisler wanted to make a left turn into Glendale road from southbound on U.S. 219 and had stopped to yield to northbound traffic. Schoolman following, did not notice the Sisler pick-up stopped and ran into the rear of it. Trooper George charged Schoolman with failing to reduce speed to avoid a collision.

Memorial To Six Veterans Set May 31st

Friendsville Area Men To Be Memorialized By Legion

Mountain District, American Legion, announced plans for the dedication of a marble memorial to six young Friendsville area men who lost their lives in the Vietnam war and for a permanent Veterans' Memorial to be located at the site of the new Friendsville school when construction is completed.

This plan was originally conceived about two years ago. The dedication of the marble memorial will be held Saurday, May 31, at 2 p.m., on the grounds of the present Friendsville elementary school. Also to be dedicated that day is a bronze plaque which denotes Mountain District as the sponsor. Permission for use of the school grounds was given by the County Board of Education.

When the Vterans' memorial is dedicated the marble memorial containing the names of the six Vietnam heroes will be included in its construction and the bronze plaque also moved to the new school memorial site.

The six to be memorialized are Ross Fike, Thomas Fike, Roger Garlick, Wayne Hook, Danny Nicklow and Norman Thomas. All had attended Northern High School at Accident.

Donald G. Crowe, Midland, Post 169, chairman of the district committee, said "We of the American Legion are proud of these men and know that the citizens of the Friendsville area are equally proud, and we can all show our pride by remembering them at this dedication."

Committee members also included Dayton Alexander and Paul Hoye of Proctor Kildow Post 71, Oakland; Charles Bender, Post 214, Grantsville; and Earl Wolfe, Garrett County commander and member of Post 71.

Cost of the two projects will be in the neighborhood of $4,000. The money has been raised through solicitation of Mountain District posts, service and business organizations and individuals. Mr. Bender is treasurer.

A tentative program for the May 31 dedication has been drawn up and invitations issued to top ranked officials of the Marine Corps, Army and Air Force and local officials. Families of the six young men also are being asked to attend. Each will be presented with a framed Post Everlasting Certificate and the Mountain District Ladies' Auxiliary, will present corsages. Other organizations also are being asked to participate, Mr. Crowe said.

A meeting of all post commanders, adjutants and department executive committeemen has been called for Sunday afternoon at 1 at the Midland Post home to discuss plans for the dedication.

Preliminary Gun Match Rescheduled

Inclement weather last Saturday forced the postponement of the preliminary match to choose eight of the best county marksmen to compete against the U.S. Army's 101st Airborne Assault marksmen on May 10.

The preliminary match has been rescheduled for this Saturday, April 26, at noon at the Wisp, McHenry.

Those found to be the best shots will compete against three Army sharpshooters at the Wisp on May 10 beginning at 10 a.m. with rifle competition.

The military will give an automatic weapons demonstration between the rifle and pistol competitions. After the meet, the Army marksmen will be available to answer questions about their unit, the 101st Airborne Assault, and the Army in general.

A dance at the Oakland National Guard Armory will be held that evening in honor of the men from the 101st Airborne. The dance will be open to the public.

The competition is being sponsored by the Deep Creek Volunteer Fire company, the Deer Park Sportsmen's Club, Keyser Army recruiter SSgt. Jimmy Hagler and 101st canvasser Lt. Bill McCloskey.

Energy use declined 2.2 percent in 1974.

Amtrak Stop At Oakland Is Eyed

Rep. Harley O. Staggers, West Virginia congressman, has notified the county commissioners that he has asked Amtrak officials to look into the possibility of adding Oakland to the stops for the Amtrak Washington to Denver run.

The commissioners recently wrote to the Congressman and other government officials asking about that possibility.

The commissioners took action after a number of inquiries from constituents were made about having Amtrak service in Oakland.

Rep. Staggers, as chairman of the House Interstate Commerce Commission, overseees much of the railroad industry. He has been successful in helping to have a number of area stops included in the system.

New Connections To Sewer Line Halted For Time

An order has been issued through the Environmental Health Administration, prohibiting the Mayor and City Council of Oakland from adding any new connections to the Oakland Sewerage system until the force main to the Mountain Lake Lagoon has been completed.

The order was signed by Donald H. Noren, director, and became effective as of April 7.

The order was issued pursuant to the powers, duties and responsibilities vested in the Secretary of Health and Mental Hygiene by provisions of Article 43, Section 388, annotated code of Maryland, 1971 replacement volume.

The construction of a sewage treatment plant to serve the communities of Oakland, Mt. Lake Park and Loch Lynn Heights, was authorized in February, 1966.

It was determined, prior to the order that the force main connecting the Oakland Sewerage System to the Mt. Lake lagoon had not been constructed, and that the Oakland sewerage system was still discharging raw sewage into the waters of the Little Youghiogheny river.

The agency officially ordered the Mayor and City council of Oakland "shall not permit any new connection to the Oakland Sewerage system until the force main to the Mt. Lake lagoon has been completed."

$10 Million More For Bloomington

U.S. Senator Charles McC. Mathias, Jr., announced that the Senate Appropriations committee had approved an additional $10 million for construction of the Bloomington Dam.

Mathias, member of the Appropriations committee, said the funding was approved as an amendment to the Energy Employment Act, because the work on the dam will mean more jobs for economically depressed Western Maryland.

For several years administration budgets have provided less money than the Army Corps of Engineers has requested for the dam. Mathias indicated and as a result the construction of the dam is behind schedule.

To Observe Local Hospital's 25th Year on May 18

The Garrett County Memorial Hospital will observe its twenty-fifth anniversary on May 18 to conclude the observance of National Hospital Week, according to Merritt H. Feather, Hospital Administrator.

Plans are materializing for a special program ot be presented on Sunday, May 18, in the Southern High School cafetorium that will pay special recognition to those individuals responsible for bringing a hospital to Oakland and Garrett County.

The hospital opened its doors on May 15, 1950, with 34 beds. In 1957 the bed capacity was increased to 54 and in 1971 with the completion of a new wing the bed capacity was increased to 72, this renovation program modernized other areas of the hospital.

A social hour will be observed at the conclusion of the program.

WILMER "VINEGAR BEND" MIZELL, left, kept them laughing at the third annual Republican Lincoln Day dinner held last Saturday evening in Southern High School's cafetorium. Other special guests included Miss Louise Gore, Republican National Committeewoman; Sen. J. Glenn Beall, Mrs. Tom Butscher, member of the State Central Committee, outgoing president of the Southern Garrett County Republican Women's organization and chairman of dinner arrangements; Dave Forward, chairman of the State Central Committee; Delegate DeCorsey Bolden, and Senator Edward Mason. Over 150 persons attended the fund-raising banquet.

Many Attend Official Opening, Broadford Dam

The Broadford Dam recreation area opened officially on Saturday morning with several hundred persons on hand to try their fishing skill. From 60 to 70 had appeared at the City Hall previously to obtain passes to the area, but many more bypassed this procedure and entered the area through the entrance on the old Deer Park road.

It was announced this week that the Broadford dam entrance on the Deer Park road would be used instead of the Pittsburgh avenue entrance in Mt. Lake Park. It was also announced that on week days the park would open at 7 a.m., instead of 6, but that the 6 o'clock opening would be observed Saturday and Sunday.

Wilmer Mizell Addresses 150 At Lincoln Day Dinner April 19

Former Congressman Introduced By U.S. Senator J. Glenn Beall

Wilmer "Vinegar Bend" Mizell, former major league baseball pitcher, former delegate to Congress and present Assistant Secretary of the Department of Commerce division of Economic Development, drew much laughter and applause with his address at the annual Lincoln Day dinner Saturday evening, at the Southern High cafetorium.

Mr. Mizell addressed the 150 or more who attended the 3rd annual dinner, sponsored by the Northern and Southern Republican Women's clubs and the Republican State Central Committee.

Other special guests included U.S. Sen. J. Glenn Beall, State Sen. Edward Mason, Delegate DeCorsey Bolden and their wives; Miss Louise Gore, member of the Republican National Committee; and Dave Forward, chairman of the State Central Committee.

Other guests introduced included Spencer Graham, "Mr. Republican" of Garrett county, who is a former state senator; Iretta Callis, who was credited with selling the most tickets to the dinner; Mrs. Brenda Butscher and Mrs. Cora Bowser, retiring presidents of the Southern and Northern Republican Women's clubs.

Dr. Lawrence Sherwood, D.D., gave the invocation and benediction. Tom Butscher was master of ceremonies.

Sen. Beall introduced Mr. Mizell, who is a friend and colleague from their years in Congress. Mr. Mizell began his talk by recounting some of the memories of his early days in professional baseball, then grew serious as he asked citizens not to think of all that is wrong with the country in these times of turmoil, but to think about what is right with the country. He stated that the U.S. has accomplished more in 200 years than any nation in history, and that we should be proud of all our accomplishments, holding ourselves in high esteem. "If we don't, who will?" he queried.

To him, the Statue of Liberty says to all, "Come to me and be all you can be." There are more good things in this country than anywhere else, and he feels we are the richest nation, not necessarily in material goods, but in our accomplishments.

He believes the country is full of giving and caring people and that we have worked as a nation to better life for working men and women. "America is great because America is good," he stated, and hopes that we never cease to be great because we are no longer good.

He also feels that he can afford to be an optimist about America, especially after attending such dinners and seeing that the Republican party is not dead. In closing, he asked that Republicans work to re-elect their senators and the president, so that America will remain the land of the free and the home of the brave, rather than become the "land of the freebie from the cradle to the grave."

He was presented with a jug of local maple syrup as a parting gift.

Photographs

(Continued From Page One)

Davis Photographers of Weston, W. Va., which take pictures of the other five grades, returned approximately $1700 which was earmarked for the school's yearbook, the Highlander.

The magazine subscription campaign returned slightly better than 10% and brought in about $2,500 to the general fund.

Responding to a probe of procedures in choosing photographers, Mr. Parrack, who inherited the chore two years ago, said the quality of the product, price and return to the school are the main considerations. Junior class officers select the photographer for their senior pictures.

He pointed out that students have the option of having their picutre taken anywhere they choose but that by selecting a photographer for the whole class they are usually able to get a good picture at a lower price than at a private sitting, and also return a percentage of the money to the school.

He said that he was quite willing to play one photographer against the other to derive the most for the student and for the school State law forbids long-term contracts from which a cash return is derived and, consequently, he must go through the task of dealing each year. No commission is earned from the sale of school rings or other student purchases, he said.

Unapportioned funds vary from year to year, and, while most parents are aware that the magazine campaign is a fund-raiser for the school, few may realize that pictures are also a part of direct income. Principal Parrack related that the practice has gone on as long as he remembers.

He said also that there is no public accounting for the funds nor are they reported as such to the Board of Education. The incomes are spent at the discretion of the administration; a new duplicating machine here, copier there, or should a project come up short, the general fund may be tapped to help out.

Skies Are Mostly Cloudy with Some Moderation Noted

Most of the past week has been cloudy or mostly so. Thunderstorms were reported one day and a trace of snow the following day. Moderating temperatures have been about normal. Rainfall has increased slightly.

Last Thursday's clear skies gave way to clouds at night with rain Friday morning. Skies remained mostly cloudy all day. Saturday morning produced some varied weather. Heavy rain and wind storms, with some thunder activity, were noted in the morning. High winds of 20 to 30 miles per hour with partly cloudy skies continued throughout the day. Temperatures dropped from the mid-60s to the mid-40s during the morning storms. There was a trace of snow Sunday morning and rain and some sleet in the evening. Monday was mostly cloudy in the morning becoming partly cloudy in the afternoon with moderate breezes diminishing during the same time. More rain and snow flakes were flying again Tuesday morning. In the afternoon some clearing was noted. Partly cloudy skies of yesterday morning became overcast in the afternoon. Precipitation for the week amounted to 1.24 but the month's total is still about an inch below the normal.

Highs averaged 60.4 degrees for the week which is just the seasonal normal high. Yesterday's 70 degrees counteracted the 50s of the three previous days. Lows averaged just about the normal of 34 degrees. The mercury dropped below freezing three days with the lowest being 25, Tuesday.

Rain began falling late last evening and was continuing into this morning. The mercury remained near the 50 mark through the night.

National Meeting On Rural America Held Last Week

Randy Bennett, Community Action director, program development; and Tom Crogan, programming director, have returned to Oakland after attending the first annual National Conference on Rural America, held in Washington, April 14-16.

Some 1200 delegates from every state attended in an effort to create an organization to insure rural American citizens of their share of benefits of private and government programs.

National figures including Senators and Congressmen participated. Crogan said the conference was dedicated to destroying the belief in "Metropollyana", that sooner or later all people would move to the big city and live happily ever after. Delegates gathered to learn how to improve the quality of life in non-metropolitan areas.

Agenda subjects included health, energy, transportation, development, land use, job training, unemployment, education and poverty.

Findings of the conference are to be mailed to delegates and will become the agenda for Rural America, Inc., a new non-profit corporation formed to act as the Washington Resource for local rural America groups and organizations. Crogan said speakers stressed the need for more concern, organization, planning, enforcement and fairer rules and guidelines.

Among proposals put forth were uniform statewide codes for farm labor, uniform housing standards, specific counties set aside for industrial development, national health insurance, national food policy, national growth policy, and a national manpower policy for better employment distribution. He said there also appeared to be strong support for more active organizing on the local level community and county wide to more effectively petition the federal government.

Three Teenagers Rescued After Boat Overturns

Two members of the Maryland Fisheries Administration performed a good deed for three teenagers Monday afternoon as they were cruising around Deep Creek Lake.

The state employes, Ken Pevol and Jim VanTassel, were in the Paradise Point area of the lake about 1 p.m. when they discovered three teenagers in the water, two clinging to an overturned boat and the third attempting to swim the 100 or more yards to shore.

The teenagers were William David Patton, 17, Pittsburgh, Jeffrey McCandless, 17, and Gregory Hunter 16, both of Upper St. Clair, Pa.

They were taken first to the McCandless cottage on Paradise Point, and then transferred by members of the Southern Garrett County Rescue Squad to Garrett County Memorial Hospital. Two of the youths were treated and released, while the third did not require treatment.

Lovely Lake Louise near Grantsville has an odor of dead fish about it these days, with its entire population of stocked trout dead.

The lake, located about two miles east of Keyser Ridge, is the property of George K. Brennan, Scottdale, Pa., who purchased trout for stocking. Fishing in the lake was by invitation only.

This spring, when the ice thawed, the water was found to be a deep green color and dead fish were floating everywhere. Downstream, in Puzzly Run, which is stocked by the State Department of Natural Resources Fisheries Administration each spring, all the fish stocked this year also died.

Personnel from the state and also from Trout Unlimited were in the area some time ago to attempt to determine the cause of the fish deaths, but so far no definite cause has been pinpointed.

Speculation is that work on the new freeway opened an old strip mine or deep mine, with a resultant mineral runoff causing the lake to change color and the fish to die.

Mr. and Mrs. Alvin Bowser are tenants on the farm.

Gunman's Ashes Placed In River

The family of Michael Edward Pearch, who killed two persons and wounded five others at the Wheaton Plaza on Sunday, April 13, came to Garrett county last Thursday to spread Pearch's ashes in the Youghiogheny river.

The 29 year old Pearch had resided on a farm in Friendsville for the past 14 months. He was shot and killed by a Montgomery county policeman after the shooting spree at the plaza.

The Washington Post reported last Thursday that Pearch's father, who lives in Pittsburgh, had visited his son on the Friendsville farm early this month.

When the son showed him the cabin the elder Mr. Pearch was quoted as saying, "I was a bit taken back. It was an arsenal with guns and ammunition on the walls, hunting knives, shooting bench outside and animal pelts."

"He always had guns with him," Pearch's mother, was quoted as saying. "He acted as though someone might break in the house (in Prince Georges county) so he put locks on the doors. He always locked his bedroom when he was here and he wanted me to do the same, although I never did."

An autopsy report showed that Pearch had been suffering from a tumor in his brain and it is believed that the tumor could have been a contributing factor to the shooting incident.

Pearch, who was said to have a great love for the outdoors, and for books and history as well as guns, moved to the Friendsville farm when the owners, Mr. and Mrs. Robert Combs, Jr., of Prince Georges county, offered to let him live there rent-free.

The Post said that during his year on the Combs place, about three miles from Friendsville, he became more withdrawn and quiet, according to friends who observed him during infrequent visits to the Washington area.

Robert Combs, Sr., 84, Friendsville, father of the farm owner, said he visited Pearch in the fall and noted a marked change in his attitude.

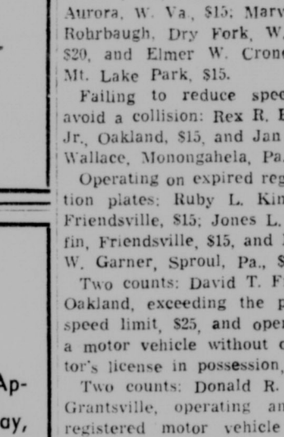
This is to confirm the correction regarding the League of Women Voters' news item last week which indicated Margaret Doyle as being a Board member.



This is to advise all concerned persons that my stand is similar to Senator Barry Goldwater's which is that the league is a "selfish interest group".

I am not, and have never been affiliated with this group which does not share my general concepts of traditional America.

Bachtel Youth Injured In One-Car Crash

Ricky Linn Bachtel, 19, Route 2, Oakland, was listed in satisfactory condition Sunday at Sacred Heart Hospital, Cumberland, where he underwent surgery for injuries sustained in a one-car accident early the same morning at Gortner.

Bachtel was taken to the Garrett County Memorial Hospital by the Southern Rescue Squad and then transferred to the Cumberland hospital, by the Hinkle Ambulance Service, of Oakland. He sustained an arm injury, contusion and abrasions.

A passenger, Adam J. Lucas, Jr., 22, also of RD 2, Oakland, apparently sustained a broken nose. He was treated and released from the hospital.

Bachtel was driving north on U.S. 219 at an apparent high rate of speed when the car went out of control, ran off the road, struck an embankment and turned over several times.

Bachtel and Lucas were both thrown from the 1972 Pontiac GTO which was a total loss.

Bachtel was operating the car belonging to his brother, Carroll Van Bachtel.

Charges are pending according to Trooper J. E. Foley who investigated.

Homes Sought for Fresh Air Children

People in Garrett County are being asked to open their homes for two weeks this summer to children aged five through 12 from inner New York City who would be overjoyed to spend two weeks in the country.

These children, chosen through one of the more than 50 service and social agencies in New York, are given a vacation annually through the Fresh Air Fund. Patrons may choose a child most suited to their own families, and of either sex. Host families provide food and care, while all other expenses, including medical services, are provided by the fund.

Persons interested in welcoming a child into their home between July 8 and July 29 may contact Mr. and Mrs. Ivan J. Miller, Grantsville, for additional information.

Northern Rescue Squad Activities

Activities of the Northern Garrett County Rescue Squad were numerous during recent days.

Mary Friend, Terry Spear and Geraldine Humberson participated in Community Helpers' Week at Friendsville kindergarten. They demonstrated various items of equipment and showed the students through the ambulance.

Mary Friend and Terry Spear demonstrated first aid at a meeting of the Friendsville 4-H club, at the home of Mrs. Julia Sines. Thirteen members and leader, Mrs. Carol Wakefield, observed and participated in the demonstration which centered around a simulated car accident.

The squad hosted a meeting of the Somerset County Ambulance association on Wednesday, April 16, at squad headquarters. Motion pictures of the training activities of the squad were shown by Floyd Baker and narrated by him and Carl Skidmore. Ken Hamilton, Criss Browning, Jim Wilburn, Floyd Baker and Dotty Folk represented the squad. As a member of the Somerset association the rescue squad has a reciprocal aid agreement with the other member rescue squads.

Crew chiefs discussed methods of improving and upgrading the service offered by the squad at a meeting April 17. More efficient organization, an emphasis on cooperation and continued training of crew members were discussion topics. Crew chiefs present included Pauline Fawcett, Mary Friend, Ralph Lapp, Linda Leasure, Don Ringer, Loretta Rush and Raymond Yoder. Al Cutler, captain, presided, assisted by Dotty Folk, first lieutenant.

Seven squad members took the state board of medical examiners' examination as part of their cardiac rescue technician training at Memorial hospital, Cumberland on April 16. They were Shirley Baker, Marvin Beachy, Barry Beal, Doris Beal, Ron Bowser, Paul Frank and Linda Leasure.

Pleiades

This group of stars which forms a hazy little dipper marks the shoulder of Taurus, the bull. The nine brightest stars have the names of the members of the family of Atlas. Photographs of this star cluster show the stars surrounded by a vast cloud from which the stars may have evolved. Traveling away from the solar system at a rate of about six miles per second, the group of stars is about 400 light years away.

We see Venus and Mercury near this star cluster during the coming week.

The moon will be in its Full Moon phase at 3:55 p.m. tomorrow. It passes close to Uranus early Friday morning and to Neptune early Monday morning. Moonrise will be near sunset on Friday. Tonight the moon rises at 5:05 p.m. It will not rise until seventeen minutes after midnight on Wednesday morning.

Venus, Mercury, Saturn, Mars and Jupiter will be visible by the end of the week. Venus is the brightest object in the west after sunset. Mercury will be to the lower right of the Pleiades low in the west about 30 minutes after sunset. Mars is visible among the stars of Aquarius two hours before sunrise. Jupiter may be found low in the east just before sunrise.

Daylight will continue to increase this week so that Wednesday will have fourteen minutes more daylight than there was today. The sun rose at 6:29 a.m. and set at 8:04 p.m. today. Wednesday sunrise will be eight minutes earlier than today. Sunset will be six minutes later than it was today.

March of Dimes Walk Postponed 'til Sat., May 10

Because roadsides are still muddy and unsuitable for walking, the second annual Walkathon sponsored by the March of Dimes has been postponed from April 26 until May 10.

A total of $125 in cash prizes will be offered to winners in each of several classes. Prizes of $25 each will be given to the person turning in the most money by May 30; the first person to complete the walk; the oldest person to complete the walk; the youngest, and the first family to complete the walk.

A round trip of 20 miles is planned, beginning after registration at 8 a.m. at Bausch and Lomb and circling around to Crellin and back via Fingerboard Road.

Money collected is to be turned in by May 30 to I. Lynn Beckman, treasurer of the Garrett County chapter, March of Dimes, at the First National Bank.

Registration forms are available from D. Lester White, chairman, at the Garrett County Clerk's office in the courthouse; from Northern or Southern High Schools, or from the Garrett National Bank or the First National Bank.

Insurance FACTS
High risk car insurance? It is available at some companies. In some instances coverage may be restricted. For example, under an assigned risk plan, liability coverage is generally limited to the minimum specified by the state's financial responsibility law. Other kinds of coverage, such as comprehensive collision and medical payments, often are not available. A number of states require advance payment of the full year's premium. So do not let reckless driving place you in the position of requiring high-risk insurance.
Call us at GONDER INSURANCE AGENCY, 203-205, South 2nd St., 334-3343, to discuss your insurance needs. We give protection plus service from friendly experienced agents. We carry every type of insurance — homeowners, life, health, accident, auto, boat, mobile homes, motorcycles, and all types of commercial insurance.
Handy Hints: Put a paper plate at the bottom of your waste basket to keep the basket clean and rust free.

Sex Education – So What

Citizens for Integrity and Decency (CID) are urging parents to become more involved in the Family Life and Human Development Program which is now being developed for use in our county schools in September. So we ask as many parents and concerned citizens to come to the meeting that is to be held on May 20 at 7:00 P.M. at the Garrett County Board of Education. The public is invited but participation is forbidden. We ask parents to come early and look over materials on hand. If material is objectionable please write or contact Dr. William Buser, Garrett County Board of Education, Oakland, Maryland 21550, or James A. Sensenbaugh, State Superintendent of Schools, Maryland State Department of Education, P.O. Box 8717, Baltimore-Washington International Airport, Baltimore, Maryland 21240 and your local, state and national elected government officials. Once this program is implemented nothing can be done to have this program removed. We of the Citizens for Integrity and Decency feel that the overall program will be detrimental to the mental and physical health of children. We offer a four point plan of which any one would be accepted for adoption by the State Department of Education for this county.

1. Moratorium of the Family Life and Human Development for at least two (2) years.
2. Legislation to exempt Garrett County Schools.
3. New guidelines for K-12
4. Allowing the citizens having the final say as to what can be taught in the Family Life and Development Program.

CITIZENS for INTEGRITY and DECENCY will be on WMSG, Public Affairs Program, Monday, May 19 at 3:00 P.M. To become more involved in the Citizens for Integrity and Decency (CID) organization please write:

Several Mishaps Occur Last Week

A number of relatively minor accidents occurred around the county last week. In these, onl yone person was slightly injured. Three involved deer.

Last Saturday night Deputy Donald W. Tucker, Mt. Lake Park, driving a Sheriff's De- only one person was slightly injured.

Deputy Tucker was driving South on Md. 495 near Green Glade road when a vehicle northbound made a left turn into Green Glade road and into the path of his car. Tucker swerved to avoid the vehicle, lost control of the car, struck an embankment and overturned. The northbound vehicle was driven by Mrs. Bonnie Lambert. Tfc. Ronald Lewis investigated.

Another mishap occurred shortly before the above in Grantsville, also involving a left turn.

Russell L. Welch, RD 1, Oakland, traveling west on U.S. 40 in Grantsvile, made a left turn into Klotz alley and stopped in the alley, apparently attempting to turn around. Michael E. Lawson, RD 1, Friendsville, also traveling west, started to make a left turn into the same alley as Welch started to back out and the 2 collided. Tfc. G. D. Broadwater charged Welch on two counts, operating without a license and failing to give required information.

Another accident occurred in Grantsville on Springs road last Wednesday afternoon.

Orlando W. Hetrick, Accident, in a heavy truck, was followed by a car driven by Marion Thompson, Pittsburgh. Both stopped on Springs road. Hetrick said his truck drifted backward and in doing so ,struck the front of the Thompson car. Tfc. Dale K. Williams made no charges.

Two wrecks happened along Crellin road early last week.

One truck almost went into the Youghiogheny River at Crellin. Paul F. Shahan, Terra Alta, W. Va., was driving east on the Crellin road and met a car driven by James E. Matthews, Crellin, stopped facing west. Shahan thinking Matthews was making a left turn into Crellin, at the bridge, and would pull into his path, hit his brakes, skidded and collided with some guard rails and pole. Cpl. S. M. Russell made no charges. This one occurred the morning of April 14.

Charles H. Guthrie, RD 1, in Oakland, was traveling east on the Hutton-Crellin road near the old Crellin road the afternoon of April 13 when a large deer crossing the road from north to south ran into the left side of the pickup. Dogs were chasing the deer at the time and the deer was killed. Tfc. Lewis made no charges.

A deer was involved in a mishap late last Friday on the Kitzmiller road near the Vindex road. Ross D. Sowers, Star Route, Kitzmiller, was traveling south when the deer ran into his path. The animal was not killed and ran into the woods. Trooper Lewis investigated this one also.

Local Persons Form Large Part Issued Licenses

A large portion of those issued a license to wed during the week ending April 21 were local, including four couples of the five not published. Seven of the 20 issued were to county residents.

Information is from records in the office of Richard L. Davis, clerk of the Circuit Court. Where a person is under 18 years old, parent's consent was given.

Thomas William Nester, 22, and Alfreda Lynn Raible, 18, both McKeesport, Pa.

Wayne Michael Butler, 18, and Sharon Kay Green, 16, both of Grantsville.

Two more deer were the apparent cause of a one-car mishap on U.S. 219 near the Aiken-Miller road just past midnight last Friday. Danny Richard Uphold, RD 2, Accident, was driving north on Route 219 when two deer came from an open field and crossed the road in front of him. He swerved to avoid hitting the animals, but struck a mail box, then went into a ditch. Tfc. C. D. Skidmore investigated.

Thomas E. Bossie, of Charles Town, W. Va., traveling through Accident the night of April 12, was unable to negotiate a left curve. The vehicle skidded sideways off the right shoulder and struck a grape arbor on the property of Sherman G. Frazee. Trooper R. C. Georg charged Bossie with traveling at excess speed.

An accident occurred on U.S. 40 just east of the Maryland-Pennsylvania state line just before noon the same day. John E. Gulick and Jan Alan Wallace, both of Monongahela, Pa., were driving east on U.S. 40 when a vehicle directly in front of Gulick pulled to the right shoulder due to a flat tire. Gulick stopped suddenly and was struck in the rear by the Wallace car. Tfc. D. K. Williams charged Wallace with failing to reduce speed.

Sex Education Is Coming . . .

. . . to Garrett County schools

NEXT YEAR unless YOU GET INVOLVED.

A State law has come down through the Dept. of Education, requiring some form of sex education in Garrett County schools. Most of the proposed program has already presented, over a period of well over a year, to a Committee of 25 people which is supposed to represent YOU.

This group, termed the "Garrett County Health Committee" was appointed by SOMEBODY (nobody knows who) and approved by "our" appointed school board.

On April 15, while you were filling out Federal and State tax forms, the hand of GOVERNMENT hung heavy over Northern High School, where 10 of the 25 appointees of the Committee were gathered to view the Jr. High segment of the government program. (the rest must have been filling out tax forms). Nonetheless, 13 concerned citizens and parents (visitors) braved the IRS, the weather, and the NEWS BLACKOUT to see what kind of sex education the government wants to sell their children. These meetings, it was announced, are "CLOSED." Although they cannot bar the door to visitors, the public is NOT INVITED to these meetings. Hence, there has been no notice given to the public by radio or in print.

Before the presentation, it was made clear by the conductor of the meetings that NO COMMENTS FROM VISITORS would be heard until after the Committeemen had filled in their evaluation sheets, approving or disapproving of this segment of the program. When orderly protests were voiced from the Committee and from the gallery, we were informed that parents were welcome to view the government films (upon request) at the Board of Education office, and that parents who disapproved of the program could make arrangements for their children to be excused from certain classes.

Alert parents later raised 2 main objections to this:

1. What happens in a classroom full of teenagers when some students leave because mommy and daddy won't let me watch? To put it mildly, they are ostracized.
2. Because aspects of the program are to be presented in health, P.E., Biology, etc., won't the discriminating students miss a lot of class? What will they do in the meantime? We were assured that arrangements could be made.

The Jr. High segment, presented by the Family Health Director of Allegany County, consisted mostly of films which are shown to mixed groups of young men and women. Except for one expository film on reproductive anatomy, most of the films gave NO concrete answers to the very SENSITIVE questions posed. Most of them portrayed teenagers in various situations and then asked questions such as, "Who am I?", "What would you have done?", "What is right and wrong?" Only the subjective views of assorted teenagers were offered as answers. Because God has been expelled from Government schools, none of them presented the authoritative moral laws that the Creator of Sex has given us. We were told that the teacher is supposed to "stress" that. What about homosexual teachers? Morally "liberal" teachers?

Unknown to most of its apologists in the field of "Family Life and Human Development," this type of group "sensitivity training" was developed and used by the Communists as an extremely effective way of using group norms to conform individual behavior. When combined with their goal of GETTING YOUTH PREMATURELY PREOCCUPIED WITH SEX, it is the most effective weapon they have ever devised to undermine the moral fiber of a target nation. It was originally used at Uppsala, Sweden, where it reduced thousands of people to the moral stature of lower animals. It resulted in the most destructive venereal disease epidemic in modern times.

Garrett County is one of the few places in the nation where a program concerning sex education for ALL grade levels has not been PERMANENTLY INSTITUTED into the GOVERNMENT SCHOOLS. Whether or not a "GOOD" program COULD or WOULD be conducted in the schools IS NOT THE QUESTION at issue here! The real question is, whether sex education is a GOVERNMENT concern or a FAMILY and CHURCH concern.

Sex education, like sex, should happen at the proper place, at the proper time, with the proper person. I feel sorry for the millions of young people who miss out on the intense pleasure and joy of a Godly marriage BECAUSE their parents and churches don't tell them God's truth on the subject.

The proper place is NOT in Government schools, where the physical aspect is isolated and taken out of its spiritual context. The proper time is NOT in kindergarten or the first grade, and the proper person is NOT just any old Federally Anointed teacher.

Those who are wise in the ways of Big Government know that once a program gets started, it is very difficult to stop or control. Congressman Goodloe Byron warned local parents that once this "Family Health" program gets in, you will probably never get rid of it.

It is my opinion that if the parents of Garrett County could see this program, and the high-handed way it is being quietly shoved into the County, they would be shocked and highly indignant. Stay tuned for the date of the next Committee meeting.

Zoning Ordinance Hearing Scheduled

The Garrett County Commissioners will conduct a public hearing Saturday at Garrett Community college in McHenry to hear testimony concerning a proposed zoning ordinance for Deep Creek Lake.

The proposed Deep Creek Watershed Zoning ordinance would replace the interim ordinance adopted in 1971 as a temporary moratorium on commercial development.

The new ordinance will establish areas around the lake to accommodate commercial high density residential and lower density second home development in an orderly pattern as recommended in the Development Plan for Garrett County adopted by the commissioners in May, 1974.

The commissioners explained that the intent of the lake zoning ordinance was to meet the growing needs for a wide variety of recreational and year round businesses and homes while preserving the unique attraction of Deep Creek Lake.

The varous zoning districts as proposed include:

Town Center zoning district, proposed for the McHenry area, including old route 219 to Point View and Thayerville area and route 219 north to Johnny's Bait House;

Town Residential zoning districts, adjoining both the McHenry and Thayerville areas which would act as a buffer;

Commercial zoning districts, for three places, Sand Flat, Glendale road near Beckman peninsula, and route 135 and Turkey Neck road;

Rural development district, for upper Cherry Creek area;

Lake residential zoning district, for remainder of the lake watershed.

Also in the overall plan are flood prone and high water table soils. These soil sections would be zoned as appropriate for the district in which they are located.

The board noted that agricultural use occurs in virtually every zone proposed. This is beneficial to the economy and preserves the open spaces they said. The board also said that nothing in the ordinance was intended to interfere with present or future agricultural endeavors in the Deep Creek Watershed.

The planning commission has spent over three years preparing land use plans for the lake.

Maryland tobacco prices are said to be rising.

A painting by Rembrandt was stolen in Boston recently.

Twenty-one Lose Lives On Highway

Twenty-one lost their lives on Maryland highways last week, according to the weekly news release compiled by 1st Sgt. James E. Harvey of the Maryland State Police. Of those killed seven were drivers, ten were passengers and four were pedestrians. At least eight of the deaths could have possibly been prevented had seat belts been in use.

Of last week's "fatal experience", speed appears to be the culprit. As vehicle speed increases so does the accident possibility.

Persons killed through April 20 totaled 202 compared to 153 for the same period last year.

Get Involved In The Bicentennial

In less than a year and a half, America will celebrate its 200th birthday as an independent country. Whether that milestone will be characterized by bickering and a preoccupation with present problems, or by a renewed determination to make our Nation even greater, is up to us.

Two centuries ago 56 brave men risked their homes, families, livelihoods and very lives to sign the document declaring our freedom. The personal commitment being asked of us to commemorate their commitment is of far different order. But are we willing to put aside differences and personal difficulties to make that commitment?

In 1876 the 100th birthday of the country was celebrated by a world's fair in Philadelphia. "In 1976, there will be no single city in which we celebrate our 200th anniversary and no single exhibition of our progress," explained the head of the American Revolution Bicentennial Administration in a recent speech. John W. Warner added that, "for a nation of nearly 220 million, no one city would be big enough."

The Bicentennial commission of each state receives $25,000 annually in operating expenses. Up to another $240,000 is also available to states through matching federal grants for worthy Bicentennial projects. According to the ARBA, nearly 2,000 such projects have already received the agency's stamp of approval.

For information on how you and your community can get involved in the Bicentennial, write: American Revolution Bicentennial, 736 Jackson Place N.W. Washington, D.C., 20276.

As John Warner says, the Bicentennial will be a once-in-a-lifetime opportunity for all Americans to "celebrate together the accomplishments which have transformed a handful of weak, but determined colonies into the strongest and freest nation in history," and to "unite in a common effort to honor our country on her 200th Anniversary and to improve the quality of life for those who come after us."—U.S. Press Association.

Junior Women Tour Keyser Glass Plant

A tour of the Chattanoga Glass plant in Keyser, W. Va., was a feature of the April 17 meeting of the Junior Woman's Civic club of Oakland. Plant manager John R. Panner indicated that the plant produced two million bottles a week.

Club members have been collecting and crushing glass at the Browning Foodland the first Friday of each month, which is then trucked to the Keyser plant by the National Guard.

Karen Wilson was program chairman for April and Carolyn Germain was arrangements chairman. Mrs. Beryl Stanton, contact chairman for the Civic club, also toured the plant with the members.

Wrong Name In List

In a list of officers named last week for the League of Women Voters the name of one of the board members should have been Margaret Boyle and not Margaret Doyle. Mrs. Doyle is not a member of the group.

OPEN LINE

By
Congressman Goodloe Byron
Maryland—Sixth District

This regular column serves as another vehicle to keep in touch with all segments of my constituency. It is an open invitation for you to question me on issues, let me assist you with your problems, request information or comment on whatever happens to be on your mind. Letters should be sent to me, c/o U.S. House of Representatives, Washington, D.C. 20515. While space is obviously limited for printing all replies, I shall make every effort to answer each person who contacts me.

The following questions were typical of the kind asked of me in recent weeks.

Have unemployment benefits been extended to cover a longer period of time?

Under the recently passed tax cut bill, there has been an extension of the maximum period of benefits - - from 52 to 65 weeks - - for weeks of unemployment ending before July 1, 1975.

Where can I obtain a Medicare payment form?

A "request for Medicare Payment" form, also called Form 1490, is available at most doctors' offices or your local social security office. This form must be filled out and submitted in order for Medicare to pay for services of doctors and suppliers which are covered by your medical insurance.

When will the tax rebate checks be mailed to citizens?

Rebate checks, ranging from $100 to $200, will be mailed to taxpayers in May and June.

In January, the Federal government announced that a voluntary program would be developed to reduce energy use of new home appliances by 20 percent by 1980. What has happened to this proposal?

The Commerce Department is currently developing intermediate objectives for attainment of this energy efficiency goal.

What was your vote on last month's legislation requiring lower interest rates?

On March 24, I supported the resolution expressing the sense of Congress that the Federal Reserve should act to lower interest rates in the first half of '75 and pursue long-term monetary policy that encourages an expansion of the monetary and credit supply so as to promote the nation's economic recovery.

It has come to my attention tha airlines' liability for baggage loss has been increased. Would you mind verifying this for me?

Last month the Civil Aeronautics Board (CAB) proposed new rules that would increase airlines' liability for loss, damage or delay of passenger baggage from $500 to $750.

Please explain the limitations of the tax credit on new home purchases?

The tax credit, which was written into the tax cut bill, allows the buyer of a qualified home to subtract 5 percent of purchase price from his federal income taxes. However, there are several qualifying restrictions: 1) The maximum tax saving is $2,000; 2) Construction must have begun before March 26, the day Congress cleared the tax cut bill; 3) The purchaser must agree to buy the house by signing a binding contract before Jan. 1, 1976; 4) The buyer and seller must settle their transaction and the new owner occupy the house after March 12 of this year and before January 1, 1977; and 5) No second homes or vacation retreats are eligible.

Consumer prices increased .6 of one percent in February.

LETTERS TO THE EDITOR

Dear Sir:

Something beautiful has been happening in Garrett County this spring. It began in January and was culminated last Monday when the first Special Olympics was held at the college. For the Special Education students of Green Street School and Camp Hickory who participated in the Olympics, it was more than just an opening of loors to newer capabilities than they had heretofore realized, it was a sharing of warmth and friendship with the college students who had prepared them for this activity.

For the past four months fifteen students from Garrett Community College have visited the schools twice weekly to train the handicapped students for their participation in the various events of the Olympics. They were not paid in money or in academic credits for their time and effort, but they were more than compensated in the sharing of genuine friendship and understanding, and in the happy faces that greeted them. To them the smiling face chosen as the emblem of the Olympics has a very special significance.

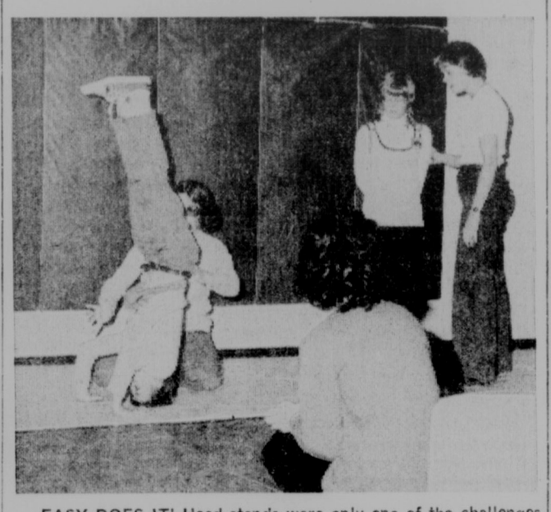
It has been my privilege to have been associated with these young men and women who deserve so much credit and thanks from all of us. They have truly brought the sunshine of spring into the hearts of many.

Joan B. Crawford,
Garrett Community College

—o—

Dear Editor:

I've been reading with interest the advertisements by Mr. Doyle. I certainly agree with much of what he says but I feel there is one part of the equation he hasn't considered.



My contention is that there are millions of very good Americans who have been against all wars since World War II. I feel that we should fight wars only when it is truly a national commitment, and only after war has been declared by the Congress. Then I think we should fight the war to win—not by body count or buffer zones, etc., as we have done in the last two conflicts.

If we don't get this commitment then let's keep our boys at home where the greatest danger to our very survival seems to be anyhow. I for one am tired of saving the world for democracy, pulling the chestnuts out of the fire for the so called United Nations or trying to replace the void left when the other so called leading nations of the world, mismanaged Colonial Empires, collapsed.

Sincerely,
Emory W. Adams, Jr.

CONCENTRATION and persistence paid off with first place ribbons in the rope jumping division of the Special Olympics sponsored by the Student Affairs Committee at Garrett Community College Monday. Seven other physical fitness competitions were also scheduled.

EASY DOES IT! Head stands were only one of the challenges to children from Green Street School and Camp Hickory Monday from 10:30 a.m. until 2:00 p.m. at Garrett Community College's first Special Olympics. Winners in each division were awarded ribbons, and each child was given a trophy at the conclusion of the afternoon.

Byron Cites New Jobless Measures

Rep. Goodlo Byron has indicated that Congress now has under consideration several important pieces of legislation that could directly affect the employment situation in Western Maryland.

Byron cited Senate hearings on Emergency Employment Appropriations for public works projects and said he is seeking to have $10 million added to the appropriation earmarked for the Bloomington Dam.

Byron noted that the Public Service Employment program is also under review by the House Education and Labor Committee with the goal of providing more jobs over a longer period of time.

The 6th District Congressman also cited current House hearings on extending and increasing the ARC authorization for highway programs.

"The Public Works Capital Act of 1975 is yet another piece of legislation that could ease our jobless picture," Byron said.

Under the proposed measure the Federal government would temporarily fully fund job-type public works projects such as local sewerage construction.

Lecture Series Will Begin April 26 At Frostburg College

Dale B. Fuller, Faculty Research Assistant at the Appalachian Environmental Laboratory of the University of Maryland Center in LaVale, will be the first speaker of the Council of the Alleghenies spring Distinguished Lecturer Series. His program on "Exploring the Cumberland Bone Cave" will be presented free to the public at 8:15 p.m. Saturday evening, April 26, in Pullen School Auditorium, Frostburg State College.

In an article recently published in the "Journal of the Alleghenies," Mr. Fuller and his brother, Kent, co-authors, describe the Cumberland Bone Cave as "a record of the Pleistocene Epoch". They write, "A rocky cut along the Western Maryland Railroad track two miles north of Cumberland city limits was the site sixty years ago of an important scientific discovery. Fossilized bones recovered from an obscure cave near Corriganville helped scholars to piece together the record of animal life and climate of the region as it existed 20,000 years ago."

A native of Cumberland, Mr. Fuller graduated from the School of Journalism of the University of Missouri. He is president of the Allegany Chapter of the Maryland Ornithological Society.

He frequently lectures on astronomical and nature themes to school classes, youth organizations, and adult groups.

Mr. Fuller co-authored last year "A Leader's Handbook to the Cranesville Swamp." His interest in caves developed during a time when he explored a number of caves in both Garrett and Allegany counties.

The Council of the Alleghenies has a number of members from this county. Dr. Raymond McCullough, Friendsville, is vice president, and Dr. Alta Schrock, Grantsville, is executive secretary and editor of the Journal.

The Council was organized in 1960 in an effort to preserve, develop and share the traditions, folklore, history and human resources of the Allegheny Highlands.

IN MEMORIAM

In loving memory of our dear daughter, sister, wife and mother, Shirley Ann Tasker, who left us three years ago, April 21, 1972.

Memory is a precious gift
That lives with us through the years.
At times it's sad to remember,
As our eyes grow dim with tears.
Then we think of the happy times we shared,
As the years went by so fast.
Happiness is something that doesn't always last.
Now as we go on without you
There's one thing you can do,
Walk slowly down that lonely path
Where the family will someday join you.

Still Sadly Missed By
Her Father, Sisters,
Brothers, Husband
And Children

HANDY HINTS

Route 219 Oakland, Md. (301) 334-9777

For a sharp finish line when you paint, use masking tape. (An absolute MUST when you make "super-graphics" on your walls.)

Clean badly-tarnished brass in a solution of one cup vinegar and a quarter cup of salt for each quart of water (in a plastic container). Leave objects in solution overnight.

A hollow rubber ball, cut in half, makes a handy holder for steel wool. Pressure keeps it in place.

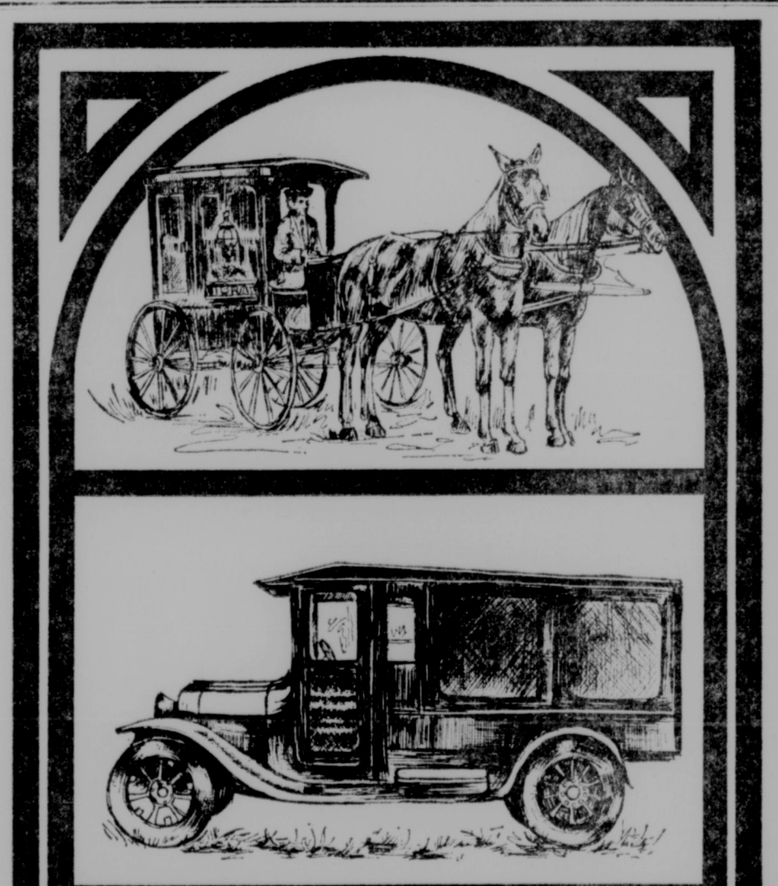
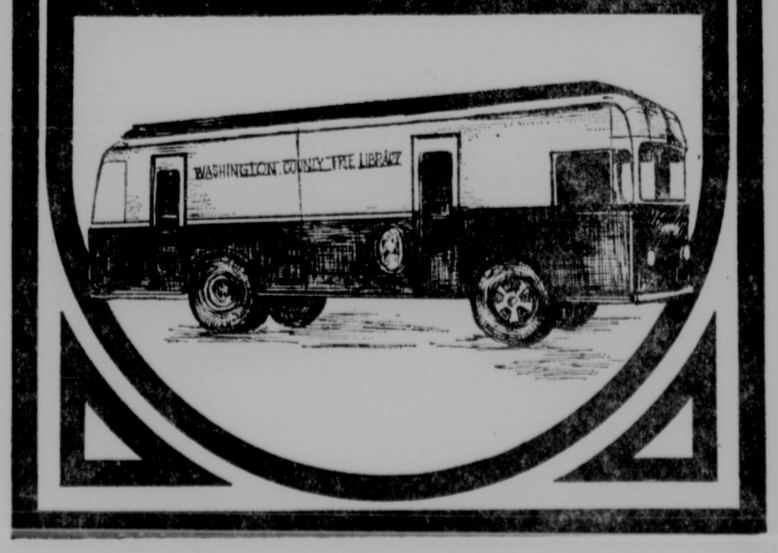
American Christian Freedom and Responsibility



By Rev. W. H. Leake, Deer Park, Md.



I wrote last week concerning the Maryland Minor Consent Law and the proposed Sex Education classes for our schools here in Garrett County. Since that time I have gotten several articles concerning the public schools and how they are being turned into jungles. Many are asking why? When the public school system not more than a few years ago was considered almost sacred as the church. Several are attempting on the National scene to explain the causes for this violence. But so far no one has given what I feel are the major reasons. I feel cause Number One is the outlawing of PRAYER AND BIBLE READING in the public schools. The Bible says, "The wicked shall be turned into Hell and all Nations (schools) that forget God." Then across America schools began teaching "so called sex education", (In my way of thinking, it is sex degradation) giving out contraceptives, etc. And now we learn that the United Federation of Teachers has had to issue a booklet to its women members suggesting how they may defend themselves against the student bent on rape. One suggestion, "Seize a Bic pen and gouge out his eyes". Is this what we want in Garrett County schools? So far we have not had this raw type Sex taught in our schools, but it is coming. We are out of step with the rest of the state and must conform. WHAT CAN YOU DO?

Let the school officials know you are concerned and that you will not sit back and wait for someone else to speak for you. Contact Delegate Bolden and Senator Mason and tell them we want an elected school board in 1976 not 1980 or 82. Watch this column for more information and dates of important meetings. WE NOT ONLY CAN, but with God's Help, WE MUST WIN this battle for our schools—OUR CHILDREN ARE AT STAKE. Please remember, many of the school teachers, as well as some of the school officials feel as we do and will welcome the help of concerned parents.

Several Drug Case Hearings Held In District Court

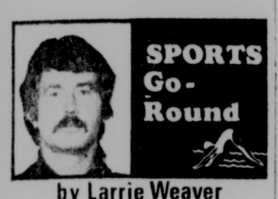
Several hearings on drug cases took place in District Court along with cases involving incidents at Oakland Country Club. Other miscellaneous cases were heard by Judge Lewis R. Jones, during the past week ending Tuesday.

Three persons have been released on payment of bond on charges of possession of marijuana.

William Scott Beverly, Berlin, Pa., has been charged with possession on U.S. 40 at lower New Germany road last Friday. He has been released on $300 bond to appear in court on June 16. Patricia Armstrong and Floyd Oliver Jones, Jr., both of RD 2, Oakland, have been charged with possession of marijuana in Pleasant Valley on April 10. Both have been released on payment of $200 bond to appear for trial June 2.

The case of Gregg Jones, of Bradley Manor, Oakland, is being transferred to Circuit Court. Jones is still being held in default of bond of $2,500 cash. Charges against Jones are: breaking and entering and larceny at the Oakland Country Club March 2. H is also charged with several drug counts.

Two others have been charged with receiving stolen goods taken from the Oakland Country Club March 2, valued at over $900. They are Linda Sue Windell and Mona Louise Friend, both of Bradley Manor, Oakland. Both have been released on their own recognizance pending trial in Circuit Court.



Roy M. Livengood, Grantsville, pleaded not guilty of nonsupport of his wife and 2 minor children at a trial Monday. He was placed on probation before verdict. He is to pay $15 per month, per child, through Social Services.

Stephen L. Stewart, RD 1, in Oakland, pleaded guilty of passing two worthless checks at the Hutton Exxon Station last September. A 30-day jail sentence was suspended and he was placed on probation for one year and to make restitution of $25.35. He also paid $10 court costs.

Gary Duff, Mt. Lake Park, pleaded not guilty of trespassing on the property of Justina Gilley on Mayhew Inn road on April 4, being notified not to. At a trial Monday he was found guilty and fined $25 and costs of $10.

Mary Louise Bittinger, RD 2, Swanton, pleaded not guilty of assault on William Gaither at Swanton April 8 at a trial Monday. The plea was sustained.

Michael Stowell, Pennington street, Oakland, pleaded not guilty of damaging and tampering with a motor vehicle by breaking the windshield wiper of the car of Evelyn Glotfelty on Memorial Drive, Oakland. At the trial Monday, the plea was sustained.

Did you ever hear of "one old cat"? It is a type of baseball, except that there is only one batter and one base besides the home plate. The batter must run to the base and then back to home plate, or he is out. When a player catches a fly ball, then he gets to bat. The great thing about the game (just ask your kids) is that it can be played with as few as three or four. Should there be as many as seven who want to play, no problem. Just play "two old cat" instead.

Your tire needs will receive our special attention at DEL BORING TIRE SERVICE INC., 258 N. 3rd St., 334-8178. We are the exclusive Goodyear tire dealer in Oakland and carry their steel belted radial tire. This is the only tire of its type accepted by all 4 major auto manufacturers. Open: Mon.-Thurs. 8 am-5 pm, Fri. 8 am-9 pm, Sat. 8 am-noon.

YFC Quiz Teams Continue Activity

Activity continues among the YFC quiz teams, according to Mike Friend, administrator of the YFC program.

This coming weekend the annual Campus Life retreat and quiz camp will be held at Camp Galilee, near Terra Alta. The all-star quiz teams will be selected.

On April 12 a quizarama was held in Kingwood on II Corinthians and winner of the trophy was Preston County Charity. Top quizzer was Vicki Tichenell of Terra Alta. April 19, three local teams traveled to Washington, Pa., for the Eastern Regional quiz tournament. The Preston County team placed third in the championship quiz, the best performance ever for a team from Mt. Top YFC. The team from Loch Lynn U.B. church placed seventh. Top quizzer from the Mt. Top was Carolyn O'Dell, of Gormania.

The Southern and Union Campus Life clubs combined last week for a swimming party at the Wisp. Club continues to meet Thursday evening.

Plans are being finalized for the 1975 walkathon to be held on May 31. Jim Friend is walkathon chairman. The annual Ocen City convention will be held June 22 to 28 this year. Any area teen is eligible to attend. Registration deadline is May 15.

The Multi-Purpose Egg

Go back to nature — take an egg instead of a vitamin supplement. Eggs naturally contain high-quality protein, vitamins A and D, the B complex vitamins and the minerals iron and phosphorous. Eggs are low in calories, too. One large egg contains only 80 calories.

Beaten egg whites give puffy omelets — and souffles, angel food and chiffon cakes, too — their light, airy texture. Many recipes call for these egg whites beaten until stiff but not dry. This is to insure that the egg whites blend smoothly with other ingredients. When overbeaten chunks of egg white will appear in the finished product. It's easy to be sure they've reached the proper stage. Just tip the bowl — if the eggs don't slide you'll know they're the right consistency. When combining the egg whites with other ingredients, fold gently to retain the air incorporated during beating.

Omelets are one tasty way to serve protein-packed eggs to your family. With a change in filling, omelets suit any meal of the day, any season of the year. They're a hearty breakfast treat, tasty luncheon or super entree or impressive dinner dessert. Omelets are easy to prepare, too.

The Plain or French omelet is as simple as making scrambled eggs — with less stirring. As the egg mixture cooks, gentle movement of the cooked portions allows the uncooked portions to flow to the bottom of the pan. Tilting and sliding the pan also helps to distribute the egg for even cooking. The finished omelet will be moist and creamy on top and delicately browned on the bottom.

The Puffy omelet variation, the egg yolks and whites are beaten separately to incorporate more air into the egg mixture. The yolks should be beaten until thick and lemon-colored, the whites until stiff but not dry; then the yolks and whites are gently combined. A quick 5 minutes on the range browns the bottom and 10-12 minutes in the oven produces an omelet impressively high and deliciously good.

Serve an omelet — Plain or Puffy soon. Both of these quick and easy methods make mealtime fun — even for the chef!

Lakers Take Two From Dundalk CC

Mark Deutsch fired a three hitter in the opener and Garrett Community college Lakers rallied for two runs in the final inning to pull out the nightcap as the Lakers swept a twinbill from Dundalk CC 11 to 2 and 5 to 3 last Saturday at Dundalk.

The twin win stretched the Lakers' current winning streak to seven games and makes Garrett 9-1 for the spring season and 12-2 overall.

Deutsch, freshman lefthander from Charleroi, Pa., struck out five and walked five in posting his third win of the spring and fifth in sixth divisions overall. The game was shortened to five innings because of mutual agreement by the coaches.

Craig Bosley, freshman from Southern High carried the big bat in the opener, driving in three runs with a double and a single. Bob Ingram tripled and singled, while Dave Cullen and Randy DiSimone had two singles each.

Jim Kostyak, hard throwing righthander from the Pittsburgh area, allowed only one hit and struck out seven before giving way to Ernie Shotwell and Garrett trailing two to one in the fifth inning.

The one hit off Kostyak was a two-run triple by Bud Taylor in the third. The Lakers went ahead 3 to 2 with a pair of runs in the sixth and Dundalk tied the score again with a single tally in the bottom of the sixth.

Garrett scored its two runs in the seventh on a single by Glen Wrezenski, Cullen's sacrifices by Ingram and Bob Whitfield, and a triple by Dan Slifko. It was the fourth win in five starts for Shotwell.

ACCIDENT, MD. 826-8121

DEPUTY D. W. TUCKER found a way to make the red "bubble" on a police car less conspicuous, but he did it the hard way. Deputy Tucker was southbound on Route 495 Saturday and swerved to miss a car coming in the opposite direction which was making a left turn. When he swerved, the car struck an embankment and overturned, causing extensive damage to the car as well as to his pride, since other members of the sheriff's office have been razzing him about the mishap all week.

"I never want to move again!" I told a friend. Even before the moving van arrived, there were days of sorting, discarding and carefully packing the things we treasure. There were farewells and last minute errands.

Then early one morning, the huge truck came lumbering up the street, and the movers began loading beds, tables, chairs, dishes and books. After several hours, the last box was in the van, and our belongings were on their way to a new home.

A new home, new friends, new community—so many things with which to become acquainted.

The church is a fine place to get a new start—to make new friends and strike up a vital relationship with the Maker of us all.

STRANGE LOVE

Lesson for April 27, 1975

Background Scripture: Psalms 136; Isaiah 55
Devotional Reading: Psalms 117; 118: 1-6.

A week ago I stood at Jacob's Well just outside the city of Nablus in Israel's occupied West Bank. The well, believed to be dug thousands of years ago by the Patriarch Jacob, is also thought to be the well of Sychar where Jesus encountered the Samaritan woman.

Rev. Althouse

"Can we drink the water?" our group wanted to know. "Of course," said Elias, our guide," but remember what the Lord Jesus said: 'Everyone who drinks of this water will thirst again, but whoever drinks of the water that I shall give him will never thirst..." (John 4:13).

He was right: the water was refreshing, but it wasn't long until we were thirsty again.

"Why do you spend your money...?"

This is one of life's lessons: material goods do not bring us either long-lasting relief or satisfaction. The lure of the material is that it seems to promise us something which it cannot deliver.

Have you ever looked forward to going to a expensive, well-known restaurant? If you have, you have probably realized that, no matter how good the food is, the satisfaction it gives is but momentary. Someone told me recently of a friend who will sometimes when he is at a fine restaurant will spend a hundred dollars or more for a bottle of wine. "Frankly," my friend told me, "it didn't taste any different than a three-dollar wine."

I'm sure that a wine connoisseur would take exception with that last observation, but it is at least indicative that what we pay for a material good does not necessarily insure that its benefit will be longer-lasting. This is what Isaiah meant when he cried:

Why do you spend your money for that which is not bread, and your labor for that which does not satisfy? (Isaiah 55:2)

God offers us something that nothing can dissipate: his love.

"While he is near..."

While this love of God cannot be purchased, neither is it delivered with the morning milk! If we want this gift from God, we must be receptive: "Seek the Lord while he may be found, call upon him while he is near." (55:6). It is our human nature to put off accepting God's gracious gifts.

Furthermore, something else is required of us:

"...let the wicked forsake his way, and the unrighteous man his thoughts: let him return to the Lord, that he may have mercy on him, and to our God, for he will abundantly pardon" (55:7)

From man's point of view, the love of God is a mystery. It satisfies our deepest thirsts and hungers and yet it is freely offered to us for the taking.

It is a strange love. But, then, as God tells us: "my thoughts are not your thoughts, neither are your ways my ways. It is not necessary to understand this strange love, just enough to receive it.

A DRUG FOR ALL SEASONS

Where would we be without aspirin? Surely it is the all time number one miracle drug. It is still used for so many medical problems both big and small. And yet, because it is so commonly used we tend to forget one simple fact. It can also be a killer.

There are more fatal accidents involving aspirin than any other drug. And, most sadly, it usually involves small children. You can help change this! Please don't take aspirin for granted. Treat it even more carefully than you would any other potentially dangerous substance.

Water Pollution Abatement Program Under Way at Luke

Shakedown operations have started at Westvaco's Luke mill for a major water pollution abatement project to impound and reuse condensate, according to an announcement by David McMaster, mill manager.

The $700,000 project will have a marked beneficial effect on the Potomac River by eliminating the last outfall containing BOD (biochemical oxygen demand).

Heart of the project is the installation of a 400,000 gallon impounding tank to collect and redistribute condensate for reuse in mill operating areas. Two smaller surge tanks of 25,000 gallons each are also part of the project.

The large 41 x 40-foot impounding tank will prevent surface condenser condensate from going to the waste treatment plant or river. The surface condensers were a $1.3 million water pollution abatement facility installed last year to replace the mill's barometric condensers as a first phase of the project to remove BOD from the effluent.

The job is part of the Luke mill's water pollution abatement compliance plan approved by the State of Maryland.

Westvaco officials point out there will still be several outfalls containing clean water going to the river. These have been used for cooling purposes and are permitted under existing regulations.

USDA Announces Initial State ACP Funding For 1975

The U.S. Department of Agriculture (USDA) announced operational procedures and initial state funding for the 1975 Agricultural Conservation Program (ACP).

Authority to develop practices needed to solve conservation problems is being delegated to each of USDA's Farmer-Elected County Agricultural Stabilization and Conservation (ASC) Committees in Consultation with the County Program Development Group. All approved practices in effect under the 1970 National Agricultural Conservation Program are eligible. Practices developed by county ASCS committees will be subject to approval by State ASC committees in consultation with State Program Development Group.

Specialized assistance for ACP will be provided by other USDA agencies with the Soil Conservation Service furnishing planning and technical assistance on servicing of practices and long-term agreements and technical services concerning forestry practices provided by the forest service.

As announced earlier, $190 million will be made available for program operations, and will share with farmers between 50 to 75 percent of the cost of carrying out needed practices.

Maryland's share of the $190 million will include $849,000 for the 1975 ACP plus $227,606 to cover the remaining obligations on long-term agreement contracts signed under the 1974 RECP.

Housing Programs Are Reviewed By Co. Commissioners

Housing programs available to the county through Federal sources were reviewed at the regular meeting of the County Commisisonrs on Monday with representatives of the Department of Economic and Community Development.

This department is encouraging state support of local housing programs by visiting the three Western Maryland county officials to explain the program, the commissioners said.

The commissioners received notice from the Maryland Department of General Services that the Federal Defense Supply Agency had surplus armored personnel carriers for sale to local law enforcement and fire-fighting agencies.

They noted that the county had received $3,207.50 for the third quarter of fiscal year 1975 from the Maryland Comptroller for tax on distiled spirits. To date the county has received $12,722 of this taxing source this fiscal year.

Southern Band Day Planned May 9

Mrs. Ramona Wotring, president of the Southern High Band Boosters, announced today the plans for the annual Band Day to be held this year on Friday, May 9, from 3 to 9 p.m. and Saturday, May 10, from 9 to 3 p.m.

Featured both days at the Oakland Fire Hall will be a garage sale, bake sale, "Corn Bread and Navy Beans" dinner, and other refreshments.

Band members will be on the streets in the business district both days selling Band Booster tags. The Junior Band and the Southern Highlander Marching Band, under the direction of Richard D. Clever, will parade in the business district Saturday morning at 10:30.

PRESENTS CHECK — Wayne Hamilton, chairman of the Garrett County Commissioners, presented a check for $10,000 to Brian Schofield, executive director of the Deep Creek Lake-Garrett County Promotion Council, at a dinner gathering Tuesday evening at the Villege Inn, McHenry. The funds are from the county to match a grant from the Department of Economic Development, and are to be used to help promote tourism in the county. A tentative budget of $22,000 has been drawn up for this year by the Council. The check presentation was made following a dinner honoring some 25 tour guides from the American Automobile Association (Triple A) who were invited to Maryland to view the tourist highlights in hopes of further promotion of tourism in the state, and in this county in particular. Bill Thoman, owner of Village Inn, gave a slide presentation following the check ceremonies. Commissioners George Edwards and Don Bender were unable to attend Tuesday's presentation as they were attending other meetings.

Older Marylander Month Scheduled

Older American month and Older Marylanders' month will be observed during May this year, and Governor Marvin Mandel is preparing to issue a proclamation to the effect on Wednesday, April 30, at Annapolis.

Robert Ford, Oakland, president of the Garrett County Commission on Aging, will attend that ceremony and witness the presentation at 10 a.m. that day in the reception room of the state house.

Mr. Ford said that Governor Mandel had signed the Older Marylanders Act, HB 485, and also legislation which is of interest to Maryland's elderly. They include SB 297, providing for the creation of a state debt to be used for loans to do military care facilities; SB 601, providing for the periodic inspections of hospitals and related institutions; HJR 24 which requested banks to sell food stamps during the regular banking hours.

During May Mr. Ford said he would request that churches of all faiths set aside one Sunday in the month to conduct services in honor and recogniion of the elderly citizens.

He pointed out that today, one of every ten Americans is an older American with those sixty-five and over being one of the fastest growing segments of the population.

During May the county's commission on aging will officially recognize that group that is increasing in size and importance. Mr. Ford said that America was discovering that its resources are limited and that older Americans were being recognized as a growing national resource which is under utilized.

Special Studies Planned

WVU's Terra Alta Biological Station is located near a small but richly populated lake and is only a few miles from the Cranesville swamp.

Both graduate and undergraduate tuition is $62 for a three-hour course. Room and board is $175 per session and an activity fee of $25 per session is charged.

HEADED FOR THE RIVER — This Jeep, half-ton truck, driven by Paul F. Shahan, Terra Alta, W. Va., was headed east on Md. 39 at Crellin road. In attempting to avoid hitting a car driven by James E. Matthews, Crellin, who Mr. Shahan thought was making a turn westbound from Md. 39, applied his brakes, skidded and struck the guard rail and pole. The guard rail and pole possibly kept him from going into the Youghiogheny River. Cpl. S. M. Russell investigated the mishap which occurred Monday morning, April 14. There were no injuries.

Frank Proudfoot Retires From Union Trust Company

Frank H. Proudfoot, Washington area banking figure, has announced his retirement from the position of Regional Senior Vice President, Union Trust Company of Maryland, a post he has held since October 1970.

Mr. Proudfoot began his banking career in 1935 as assistant cashier with the Peoples National Bank of Rowlesburg, W. Va., his hometown. In 1946, following active duty in the U.S. Army during World War II, he joined the office of the Comptroller, Fifth Federal Reserve District, as an examiner. He served as assistant cashier and trust officer for the First National Bank of Fairmont from 1951 to 1957.

In the latter year, he was named vice president of the Bank of Silver Spring (now American National Bank). He resigned that post in 1962 to organize the Metropolitan National Bank of Washington which he served as president and Chief Executive Officer. The new bank was operating profitably and paid a cash dividend in its first year of operation. During 1963-1969, MNB opened five branch offices in the Maryland suburbs.

In 1970, MNB merged with Union Trust Company of Maryland, when Mr. Proudfoot was named to the position of Regional Senior Vice President with responsibility for operations in Montgomery, Prince George's and Howard counties as well as western and southern Maryland jurisdictions.

Mr. Proudfoot is married to the former Dorena J. McGee, and they have two grown children. They reside in Silver Spring. He is the son of the late Ira Proudfoot, Rowlesburg, and Oakland, and Mrs. Eva Heath Proudfoot, who currently resides with his brother, Robert E. Proudfoot, Oakland.

Shades of Horatio!...

The editor and publisher of the weekly newspaper, "Edmond Booster", of Oklahoma, has come up with the Horatio Alger story of the year. In case the younger readers don't know about Alger, he was once the most widely read author of boys' stories in America. In every tale, Alger had a moral that with luck, pluck, absolute honesty, integrity and hard work, any scrawny kid could make good. Most of them did too. This editor read dozens of them prior to 1920. Sophisticated publishers today have decided that such positive messages are too "corny" for modern youth.

However, it seems that back around 1960 a young student from Iran found himself at Central State University, unable to speak English very well and in need of automotive transportation. He contacted a number of dealers, telling them he wanted to buy a car and pay honest money. He learned some were over pricing their cars. But one dealer in Edmond gave him a good deal which he checked out and found out the man really did.

This year Robert Azarmi of Iran returned to Edmond, not as a student, but as the sole purchasing agent for the Iranian Contractors association. In his pocket he had an order for 750 dump trucks and 350 pickups, amounting to a great many millions of dollars. Guess where he took his order?

The editor reported there was no doubt about the deal. Said Robert Azarmi, "I'm pleased and grateful to God that I made the decision to go to these people." And the dealer said: "It's unbelievable. He was just an ordinary student and we sold him an automobile. When you cast your bread upon the waters, you never know how it will come back to you."

And from the U.S. Press association, where this story was publicized, "We can't think of a better tag line than that."

Two Are Injured In Tractor Wreck

Ivan J. Miller, 19, route 2, Oakland, and Andrew R. Miller, 17, route 1, Oakland, were injured in a farm tractor accident along Mason School road last Thursday afternoon. They were reported in "fair" condition at West Virginia University medical center in Morgantown later where they were taken by the Hinkle Ambulance Service and Southern Garrett County Rescue Squad after being treated initially at Garrett County Memorial hospital. Both sustained head injuries.

State police who investigated, said the accident occurred at 4 p.m., about four miles south of Oakland. The tractor was traveling north when the driver, Ivan Miller, failed to negotiate a curve and the vehicle ran off the right side of the roadway and overturned. The tractor was a total loss, according to police. Tfc. Lawrence R. Rosage investigated.

LaVale Couple Seeking Damages After Mishap

A declaration for damages was filed Tuesday, April 29, in Allegany County Circuit Court by Stanley and Edith Barmoy, LaVale, against Leslie K. Pancake, New Creek, W. Va. seeking damages from an August 19, 1973 accident in Garrett County.

In the declaration, the Barmoys contend that they were driving on Maryland Route 495 when the Pancake vehicle collided with their car after it had gone through an intersection.

Assembly To Get Call To Return

Governor Marvin Mandel and legislative leaders agreed Tuesday to a special session of the General Assembly in May amid threats of another filibuster aimed at stopping new tax legislation.

The decision for another session was made after the governor told leaders that he would veto two tax bills enacted three weeks ago on the final day of the regular session.

Leaders agreed to limit the session to consider aid to local police departments, property tax credits for the elderly and the taxes necessary to fund those two programs.

Sen. Edward J. Mason was the lone dissenting vote against a special session. Opponents of the tax program are unhappy with the proposed legislation upping the cigarette tax by two cents and hiking the state tax on insurance premiums from two to three percent.

Mason said economic conditions did not warrant any tax increases whatsoever.

Mountain Club Clears Items Of Differences

Will Present New Property Report To HUD

Piney Mountain Corporation, developer of Youghiogheny Mountain Lake, near Swallow Falls, clarified statements this week concerning the lake and other data of the development. A new property report is being typed and will be ready to be filed with HUD by Friday, May 2, it was stated by Donald F. Frazee, vice president of the corporation.

Mr. Frazee pointed out it should be noted that the only statement made in the current property report about the lake is "the first two engineering stages of our large private lake have been awarded and will be completed in June, 1973." This engineering was completed and Piney Mt. Corporation paid nearly $50,000 just in engineering costs alone.

He said a completion date was never given because the Water Resources administration has not yet issued a permit. A hearing was held on July 20, 1974, for the lake permit and no other word was received from the WRA until December 20, 1974, a delay of five months.

Mr. Frazee said it "seems that this delay and the present delays from this agency in issuing a permit are due mainly to the opposition of a few people at the hearing, these people apparently wielding a lot of political influence."

He pointed out that since December meetings had been held between the WRA, Piney Mt. Corporation, and the engineers to work out some of the details that were in opposition. The latest word from the WRA is that they intend to hold another hearing on the lake permit in May or June of this year.

It was further pointed out by Mr. Frazee that all lots are recorded at the Courthouse in Oakland before being sold and all lots are guaranteed to be acceptable to the Health Department. If any lot does not meet the local health standards, that lot can be traded for a similar lot which does meet these regulations, she said.

He added that the local development had spurred a great deal of interest and economic activity in the county. A total of 105 vacation and year-round homes have been built within the development, increasing the revenue being spent here as well as increase the tax dollars collected, he concluded.

Blaine Friend Killed In Tractor Mishap

Blaine Harmick Friend, 60, owner of Friend's Stockyard, Accident, was killed Wednesday afternoon when a tractor overturned on him in a wooded area on Route 2, Accident, about one-fourth mile from Route 219, on the former Dave Sellers farm.

His body was found by John Spear, Markleysburg, and Joe Friend, Accident, who called the sheriff's department about 5 p.m. Assisting with the investigation were members of the Maryland State Police.

The Farmall tractor had overturned while traveling along a bank, according to the sheriff's office report, and had pinned Mr. Friend underneath.

The body was taken to the Newman Funeral Home where Dr. James Feaster, deputy state medical examiner, pronounced the cause of death as asphyxiation.

Funeral arrangements are incomplete.

One Killed In Gas Tank Explosion

OAKLAND FIREMEN BATTLE BLAZE — Members of the Oakland fire department reached the scene of last Thursday's explosion and subsequent gasoline fire that caused one victim to be burned to death and another to be critically burned, in minutes following the alarm. Firemen Don Sincell and Don Dever apply water and survey the cab which is almost entirely hidden by smoke and flames where Samuel E. Thomas, of Friendsville was pinned in. A companion, Lowell E. Sines endeavored to get free of the truck, but was caught by the explosion and the spreading of the gasoline. He was treated initially by the Southern Garrett County Rescue squad members, then taken to Garrett County Memorial hospital and later transferred to the burn center in West Penn hospital in Pittsburgh where his condition was listed as critical.

One Man Critically Burned During Last Thursday Accident On Liberty Street, Oakland

A large fuel storage tank being hauled on a flatbed truck caught fire and exploded early last Thursday afternoon on Liberty street in Oakland, killing the driver and critically burning a passenger in the cab. The explosion shook buildings within a three block area.

Samuel Eugene Thomas, 50, of Friendsville, was pronounced dead at the scene by Dr. James H. Feaster, Jr., deputy state medical examiner.

Lowell Edward Sines, 28, also Friendsville, was found in a vacant lot some 98 feet from the explosion-fire scene, and was reported in "critical" condition in the Burn unit of West Penn hospital in Pittsburgh.

Sines, who was severely burned, was taken to Garrett County Memorial hospital for treatment, then was taken to the Pittsburgh hospital in an ambulance of the Southern Garrett County Rescue squad.

Leaking Gas Caused Blaze

Robert H. Shimer, fire investigator for Garrett and Allegany counties for the State Fire Marshal's office, said his investigation revealed the gasoline had been ignited by the muffler after leaking from the tank's fill-pipe.

Th storage tank had been loaded onto the truck at a storage area less than a mile from where the explosion occurred. It was a used tank of 4,000 gallon capacity, and had been taken out of the ground and drained last fall by Gulf Oil Corporation Products. The fill cap had been placed back on the tank before it was loaded onto the truck. The fill pipe was removed and on the truck bed at the time of the explosion. Mr. Shimer reported that some gas remains in a tank after it is drained.

The explosion occurred about 1 p.m., and Oakland volunteer firemen were on the scene in minutes.

Following the explosion and fire the truck continued eastward on Liberty street for about 200 feet, then veered off the roadway and down an embankment into some soft mud on the property of Peter's Fuel company.

The truck was a potential threat to some tankers parked on the fuel company land. Firemen quenched the blaze in time to avert more serious consequences.

The front door of a house occupied by Ward Livengood near the explosion scene was blown off its hinges and several windows in the front and on one side of the house were smashed by the force of the blast. Percy Lawton, police chief, said a woman living three blocks away felt her house shake.

The home of Bailey Kitzmiller, adjacent to Mr. Livengood's was also damaged by the blast. Two parked cars owned by

Zoning Law Aired Saturday At McHenry

The new comprehensive zoning plan for Deep Creek Lake area was aired at a public hearing at Garrett Community college at McHenry last Saturday with some 200 persons attending. Apparently the vast majority found the plan acceptable which will probably be voted on when the County Commissioners meet Monday.

The interim zoning plan was a moratorium on commercial development of the lake and was designed to control development to prevent overuse of the area.

One area of the new zoning law which drew some questions was the restriction on single family development along the lake. The plan calls for limiting residences to one dwelling per acre.

Commissioner Don S. Bender said he was pleased with the response at the hearing. "We feel that Garrett County is a very beautiful county and we want to keep it that way," he said.

Most of the persons at the hearing were lake residents.

If the zoning ordinance is enacted it will represent the first permanent zoning the county has had. A number of municipalities in the county have enacted their own zoning laws.

GETTING PATIENT TO HOSPITAL — Members of the Southern Rescue Squad head for Garrett County Memorial hospital with Lowell Sines, who was critically burned last Thursday afternoon when a huge gasoline tank ignited and exploded when being transported on a flat truck east on Liberty Street in Oakland. Mr. Sines was given initial treatment by squad members some 100 feet from the scene of the explosion where he had fled. Identified in the group are Dan Gaither, EMT; Jerry Humberson, EMT, Rick Cropp, EMT, George Brady, EMT, John Savage and Jim Werdebaugh. The woman in the right background, apparently a nurse, was not identified.

3-Year Old Dies From Asphyxiation

Melissa D. O'Haver, three year old daughter of Raymond H. and Naomi L. McRobie O'Haver, route 1, Gormania, died of asphyxiation Tuesday afternoon when the parka she was wearing caught on a gym set in the yard of her home, about 1:30 p.m.

The girl was dead on arrival at Garrett County Memorial hospital in Oakland, where she was taken by the Southern Garrett County Rescue Squad ambulance.

It was reported the child was playing on the gym set when her parka became entagled in a piece of the equipment, Dr. James Feaster, deputy state medical examiner, attributed the death to asphyxiation.

Besides her parents, the child is survived by a sister, Mia Lynn O'Haver, at home; paternal grandparents, Mr. and Mrs. William B. Starkey, Gormania; and maternal grandmother, Mrs. Evelyn Steyer, Deer Park.

OPEN LINE

By
Congressman Goodloe Byron
Maryland—Sixth District

This regular column serves as another vehicle to keep in touch with all segments of my constituency. It is an open invitation for you to question me on issues, let me assist you with your problems, request information or comment on whatever happens to be on your mind. Letters should be sent to me, c/o U.S. House of Representatives, Washington, D. C. 20515. While space is obviously limited for printing all replies, I shall make every effort to answer each person who contacts me.

The following questions were typical of the kind asked of me in recent weeks —

I'm a widow with four children and we get social security. Under the tax cut law passed by Congress, do I receive a separate $50 bonus payment for myself and $50 for each child? Also, will the payment count as income to reduce my SSI and Medicaid?

In answer to your first question — yes. You will get a $50 check for yourself and another check which will include a $50 payment for each of the children. As regards your latter question, the Tax Reduction Act expressly provides that the payments will not be counted as income for calendar year 1975 for purposes of such assistance programs. Also, the payments will not count as taxable income.

What is the status of your "family farm" bill?

I'm happy to report there are now over 50 congressmen who have co-sponsored the bill to save family farms and preserve open spaces near metropolitan areas. The proposed legislation, which is currently pending before the Ways & Means Committee, would allow family heirs to have their land assessed for its actual use as farmland rather than at its highest market value as required under current Federal estate tax law.

Please send me an updated version of the latest EPA gas mileage figures for new cars?

The latest version of the "1975 Gas Mileage Guide for New Car Buyers" contains fuel economy results for all cars certified as of January 15, 1975. Single copies are available from Consumer Information, Pueblo, Colorado, 81009.

What communities will you be visiting this month?

During the week of May 26 I will be meeting citizens in Middletown, Williamsport, Funkstown, Emmitsburg, Rocky Ridge, Walkersville, Westminster, Patapsco, Gamber, Catonsville, Ellicott City, Lily Pons, Urbana, Laytonsville, Savage, Columbia, Lonaconing, Westernport, Swanton, Oakland, Accident, Finzel, Spring Gap, Oldtown and Little Orleans. Exact times and dates will be published in my next newsletter which you should be receiving in a week or two.

Who do I contact at the Federal Energy Administration in regards to a fuel problem?

You should write Miss Hazel Rollins, Director, Office of Consumer Affairs and Special Impact, Federal Energy Administration, 2000 M Street, N.W., Washington, D.C. 20461.

Woman Hurt In Bloomington Crash

A 58-year old Preston County, W. Va., woman was admitted to Potomac Valley hospital, in Keyser, Tuesday with injuries sustained in a two-vehicle accident on Maryland Route 135, at Bloomington.

Mrs. Leona J. Scarton, of Bretz, passenger in one of the vehicles, was reported in satisfactory condition at the hospital.

Benny Scarton, owner and operator of the car, apparently was unhurt when his car rammed the rear end of a car being operated by Olivia Carol Farris, 35, of Keyser. State Police said the Farris woman was treated and released from the hospital.

Police said she was traveling west on route 135 and had stopped to make a left when the Scarton car rammed the rear of her car about 11:50 a.m. Charges are pending, according to Cpl. Steve Russell, investigating officer.

Arctic Pockets

Rutherford Platt considers ice, water and fire as the three architects of wilderness. He also tells us something pertinent to the unusual swamps which exist in Garrett County at Finzel, Thayerville, and Cranesville. "The Ice Age did not bury North America under one vast unbroken sheet of ice." But somewhere the glaciers did leave pockets, and thereby hangs the tale of these areas, remnants of a cooler vegetation-humidity partnership, aboreal (of northern regions) bogs. Ecologists also define for us the climatic environment when they explain, "The tundra biome begins where the coniferous forest ends and runs to the barrier of permanent snows and ice in North America. It also occurs in modified form on high mountains."

A particular study from the early years of this century discloses that these mucky bogs were once forested, presumably by white pine and spruce, the black spruce being the water-loving tree. Previous to this, the region was of tundra terrain, a plain such as you visualize where caribou thrive in northern Canada, with mosses and lichens about them.

Ecologists, who study relationships of plants, soils, animals, and climate, tell us that a swamp is changed by microscopic plants which multiply rapidly and actually fertilize the water. This water, infused with tiny plants, has a scum on its top, which is killed by sunlight and sinks to the bottom, thus becoming the foundations of bog muck. Larger plants could root in the muck, and sphagnum moss floats above it. Any traveler who begins to go into the "sink holes" of the swamps will understand, and he will also notice the giant-sized bushes which helped to recapture the soil in these places. The heath family, including huckleberries, arbutus, cranberry, and blueberries, is known for invading such areas. Deciduous trees, particularly red maple, mountain ash, yellow birch, and a black ash, then attempt to crowd in for a share of the terrain, and Nature goes on changing what in eons of time produces the mutation of a forest.

But at the three Garrett County swamps there is altitude, which alters the natural pattern. Lack of heat for evaporation, and poor drainage, both combine to retain the swamp, which is like a frost pocket, for the cooler the air draining into its center will displace warmer air that rises above it. Night drainage of this air creates what we see as a late summer or early spring keeper of frost, very much in contrast to the surrounding climate.

The glaciers have retreated northward and with them go most of our heavy conifers and any thoughts of reindeer eating moss. But when the Fourth of July is not too many weeks away, someone in Finzel is always heard to say, "Has anyone been in the swamp yet? I was wondering about the huckleberries." If you are one of the industrious, or someone who appreciates the best of fruit pies, you tie your pant legs shut to keep out the terrific insects, don the oldest shade hat you own, and go along the path, where it is soon evident that the berries are UP, UP, and only for the stalwart who will reach or climb. Personally, on my expedition there, I looked all along in the undergrowth for a little, google-eyed musk ox.

Vepco Boosts Mining Near Mt. Storm Station

Laurel Run Mining company, a Virginia Electric and Power company subsidiary, is developing a mine adjacent to the Vepco generating station at Mt. Storm, W. Va., which will produce about one-third of the total coal consumed at Mt. Storm by the time it reaches full production in early 1977.

This development was cited by Stanley Ragone, senior vice president for power for Vepco, in stating that the electric utility is doing everything possible to hold down the cost of fossil fuel.

It was included with prepared testimony filed with the State Corporation Commission in Virginia in support of the fossil fuel adjustment clause. "Vepco could not have survived during the past year without a fuel adjustment clause," Mr. Ragone said.

If the company had not collected the $226 million under the fuel adjustment clause during the 12 months which ended February 28, he said, Vepco would have suffered a net loss of $149 million. Vepco would not have been able to pay the interest on its mortgage bonds, he said, and "the company would have been insolvent."

By the end of 1977, Vepco expects to be 50 percent nuclear, which will be a considerable savings to customers.

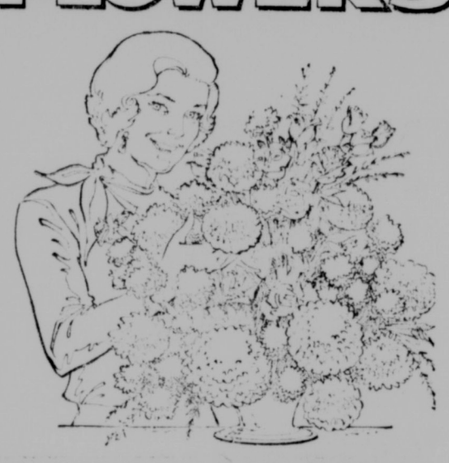
IS YOUR HOME A "HALFWAY HOUSE"?



If your house was built in 1964, it would probably cost 50% more to build the same house today. So it's important for you to watch property values carefully to make sure your insurance stays current with these increasing costs.

We can help you find out if you own a "Halfway House". We'll give you a copy of the Dwelling Approximator, a simple folder that will help you determine the approximate replacement value of your home. Then, we'll review your present home insurance with you to help you determine whether it gives you adequate protection.

LETTERS TO THE EDITOR

Dear Sir:

We lived in Oakland just four years and in that time Oakland became "home" to me. We found the warmest, friendliest people there that we have encountered in any of our moves across the country.

Every Saturday morning when The Republican arrives I'm back in Oakland for about an hour. Please renew my subscription.

Dear Sir:

I read with interest the article about the 20 mile walk-a-thon for the March of Dimes. This will be my second year walking at Virginia Beach in this event. We are not given prizes to walk. The only thing we get out of it is a free hamburger at Hardee's and a chance for a school dance, plus a very great deal of self satisfaction which comes from knowing that we walk now so that others might walk in the future. (11,276 people have signed up this year so far). I feel that perhaps the money spent on the gifts for the winners of your competition should be given to the March of Dimes itself.

Sincerely,
Tracey O. Teets

Dear Editor:

I am writing in my concern with Broadford Dam. I called the City Hall in Oakland and asked for information on a season pass for fishing and putting in a boat. I was told it would cost me $15.00 to park my truck, and $15 for launching my boat. I feel this is too much money since I have paid $7.00 for statewide fishing license and my tax money was used to help build and stock the lake with fish.

I would like for those who feel as I do to contact their House of Delegates representative or Department of Natural Resources and ask that no more state stocking of fish be done until these prices are lowered. When checking on Herrington Manor I was told there would be no charge for putting a boat in there this year.

We also have Deep Creek where there is no charge. So why can't these thousands of fish going into Broadford be put in the aforementioned impoundments where fishermen can get to them.

Dear Sir:

The article in the April 17, 1975, edition on VASCAR operations was surprising.

This article stated (VASCAR) are 100 percent accurate, and weather does not affect its operation. (VASCAR) is a good system to compute speed, but not 100 percent accurate. The components used in its construction, are at the very best, only within 5 percent of tolerance. Most components are between 5 percent and 25 percent of tolerance. The reason is the cost of manufacture. It is possible to manufacture; but not mass produce 100 percent accurate components, but they would be very expensive. Unless temperature is kept constant, heat will affect a computer's efficiency. Changes in voltage and current affect efficiency also. Direct sun rays striking the computer casing will heat the unit.

In addition, a small error in distance or time will produce an erroneous read-out. If you will sit down and manually compute some time and distance problems, then change either the factor of time or distance by a few feet or seconds to create your own error, you will see the point I am making.

Many problems in this field remain to be solved after 33 years of research and development. For example, targets traveling at different speeds and in different directions.

The (VASCAR) system is only as good as its operator, coupled with the care taken beforehand, during, and after its use. The Maryland Courts have been led to believe that the system is 100 percent accurate, but this is wrong, and is just another inequity added to a long list.

Very truly yours,
John H. Spencer
Oakland, Md.

Several Non-Injury Accidents Noted

Several non-injury mishaps occurred about the county last week, mostly in the southern part.

Boyd C. Steyer, RD 3, Deer Park, pulled onto Md. 135 from old 219 at Foodland last Saturday morning into the path of a car driven by Thomas C. Carr, Mt. Lake Park. Carr was traveling at an apparent excess speed and the collision resulted. Tfc. Ronald Lewis charged Carr with operating at excess speed. Steyer was charged with failing to stop at a stop sign.

Another wreck occurred the same day in Mt. Lake Park. Mildred E. Vetter, Star Route 219, Oakland, traveling north on Philadelphia Ave., failed to grant the right-of-way to John O. Durst, Jr., N. Second Street, Oakland, driving west on I street. The two collided at this point. Mildred Vetter was charged with failing to grant the right-of-way by Tfc. R. S. Lewis.

A one-car wreck occurred on the Garrett road just west of the Boiling Spring road about 4 p.m. the same day. Charles Junior Paugh, RD 3, Deer Park, failed to negotiate a left curve, crossed the road, struck an embankment and came to rest against some trees. Tfc. E. J. Upole charged Paugh on two counts, driving while intoxicated and while license is suspended or revoked.

Three accidents occurred last Thursday, in addition to the explosion and tractor accidents.

Clarence E. Crosco, Bradley Manor, Oakland, was driving west on Hutton road about 10 a.m. and coming out of a right hand turn. His car went out of control, off the left side of the roadway, through a fence of Bernard E. Bowser. Tfc. G. D. Broadwater charged him with operating an unsafe vehicle.

Mildred B. Bennett, Mt. Lake Park, was traveling west on the Hutton road near the Dilly road shortly past noon and had started to make a left turn into a private drive. At this time, Jimmy Dale Lewis, RD 2, Oakland, following the Bennett car, attempted to pass it and the two collided. Tfc. Broadwater charged Lewis with passing on the left when unsafe.

Two accidents were noted late last Wednesday.

The car of Thomas R. Whiteman, Highview Drive, Oakland, was parked, unattended, on the Oak Grove Tavern parking lot about 7 p.m. John E. Cogley, Rt. 135, Swanton, pulled into the parking lot to turn around to go east on the Hutton road. Upon leaving the parking lot, he struck the Whiteman car, legally parked, and left the scene. Tfc. E. J. Upole charged Cogley with driving while intoxicated and failing to notify the owner of the vehicle that he had struck it.

Olen F. Orendorf, Star Route, Grantsville, was traveling north on Md. 495 near the Jennings road about 4:30 p.m. when he lost control of his car on a wet road. The car then ran off the road to the left side and struck a telephone pole. The car was called a total loss. Tfc. L. R. Rosage charged him with operating with smooth tires.

One accident occurred the morning of April 21 in the Savage River State Forest. Francis L. Brode, Frostburg, driving a light truck along a dirt trail, failed to remain on the trail, drove to the left and struck two trees. His Power Wagon was called a total loss. Tfc. C. H. Hinnant investigated.

Another early morning wreck occurred April 9 on Md. 135 near Chestnut Grove Rd. James A. O'Haver, Rawlings, was westbound on Rt. 135 when he ran off the road onto the right shoulder, struck a ditch and overturned. The operator stated he was forced off the road. Trooper J. E. Foley investigated.

Route 40 School's Childhood Center Is Knocking Down Educational Barriers

Mrs. Dorothy Minick puts a lot of expression into her reading to a group in the multi-age Early Childhood Center at Route 40 Elementary-Middle School. Mrs. Minick, who has been teaching for nine years, is most enthusiastic about teaching in a multi-age classroom, and is looking forward to next year when the second grade is added to the multi-age center. Mrs. Minick and Mrs. Kamp worked to 5 p.m. daily for the first month of school, getting schedules organized and they feel things have run smoothly ever since. Mrs. Minick also said she had had a wonderful year and really felt good about the multi-age classroom program. Lewis Domenick, instructional supervisor, and Ernest Spoerlein, federal program coordinator with the county school system, have been instrumental in helping implement the multi-age program at Route 40.

by Carol Canan

An Early Childhood Center for children in kindergarten and grade one has proved a delight to two teachers and indeed the whole of Route 40 School this past year.

Teachers Mrs. Dorothy Minick and Mrs. Roberta Kamp and instructional aide Miss Angela Wilhelm worked closely with Mrs. Charleen Thomas, principal of the elementary-middle school in formulating a program for a multi-age, or ungraded, learning environment.

Mrs. Thomas, originally from Pennsylvania, where ungraded classrooms are the rule rather than the exception, came to Route 40 School just this year, replacing Matthew Stefringer who transferred to Grantsville School. Mr. Stieringer had put in an application with the county Board of Education to become one of three local schools to participate in the state multi-age pilot project.

At Route 40, 51 pupils, 32 who would ordinarily be called kindergarteners and 19 who are of first-grade age, were grouped together.

Similar projects are also underway at Friendsville and Accident Elementary Schools in this county, and in two Baltimore city schools and a few schools in Frederick county.

In the classroom, children are grouped according to skill, social and emotional needs, and other individual factors instead of by stringent graded guidelines. Thus, pupils are viewed primarily as children rather than kindergarteners or first graders.

The prime philosophy governing this multi-age system is that learning is a continual, ongoing, active process and that children must be taught at the level they are in each area, rather than pushed to keep up or held back with others in the class.

"Hands on" is encouraged, with many manipulative centers and objects available to children so that they can actually use their five senses in learning. What a child can actually feel or use is retained more readily than abstract ideas from a book. Textbooks are still used, but are reinforced by actual "hands on" learning experiences.

The program is success-oriented, basically bent on making a child feel good about learning by emphasizing his successes. The idea is that if a child is made to feel good about learning and what he has mastered, he will not only like school but love learning.

For this year, a hole was knocked in a wall between classrooms to allow movement between the rooms. A little door within a larger door was used at first, but this was soon abandoned in favor of an open, free-flowing archway. The program will grow next year to include the second grade at the school, with teacher Mrs. Alice Snyder joining the team-teaching crew. Another hole will be made in a classroom across the hall to allow a three-way flow of pupils and teachers.

The children's day follows a typical schedule of activities for youngsters their age. Teachers take turns with different groups in reading, math, social studies, writing and other activities. At least four parent volunteers come in several hours a week to help wherever possible, making bulletin boards or learning centers or to reinforce a teacher's instruction in a specific area with specified children.

There are also three resource teachers who come one day a week to the school and work in the Early Education Center, including Ralph Miller, art; Dale Garlitz, physical education, and Linda Lowry, music. Mrs. Beverly Malone is a permanent resource teacher at the school, assisting with specific learning problems.

Ronn Friend, of the county Resource Center, is working with those with functional reading disabilities and also helped develop the cross-age tutoring program at the school.

Resource teachers give the classroom teachers valuable extra time for conferences, schedule making and planning sessions.

In the tutoring program, students in the seventh and eighth grades are released from classroom duties for two weeks to help youngsters in the Center. These volunteers, who sign a contract, receive part of their credit in Communications in English by working in the tutoring program. They are assigned to work with groups by the teachers, who then have more time to spend with all the groups.

The groups of children do not remain constant, since the project is also to encourage children to like everyone in their room, rather than concentrate on one or two special friends in their "group".

One of the pluses of the project is that it attempts to teach children that they are responsible for their own behavior, coupled with consideration of others. They may misbehave only if such behavior does not injure themselves or others and if they do not disturb anyone by such behavior.

The Route 40 program was sited by the State Department of Education this spring, and the slide program depicting a day at the Center developed by Ronn Friend, was used at a state meeting of Early Childhood Center teachers in March. Over 450 educators involved in the state pilot program were shown slides and heard Doug Turner, 5-year-old Center student, and Mr. Friend point out highlights of a typical day at the Route 40 Center. The program is available through the County Board of Education office or Mr. Friend for showing to P.T.A.s or interested groups.

Mrs. Kamp gives a group instruction in reading from a comfortable position in a corner of the Early Education Center for multi-ages at Route 40 School. The other teacher in the classroom, Mrs. Dorothy Minick, the instructional aide Angela Wilhelm, and three cross-age tutors also were helping with other groups of children during the reading hour.

Making like telephone poles, several students are aided by seventh grade tutor John Faidley in developing large muscle control. At the Early Childhood Center at Route 40 School, even the hallway is used for classroom space so that other activities may not be disrupted. Dale Garlitz is physical education instructor at Route 40 School.

Cindy Knotts left, gives some individual attention to each student she is helping in the cross-age tutoring program at Route 40 School. Cindy is one of several seventh and eighth graders who help children through a tutoring program developed by Ronn Friend, county Resource teacher.

Mrs. Roberta Kamp, instructor at the Route 40 Early Childhood Center for kindergarten and first grade pupils, gives cross-age tutor Allen Turner instructions on how to give his "class" reading assistance. Allen is a seventh grader at Route 40 Elementary-Middle School.

Guidelines Formed For Bicentennial Programs in Schools

With the National Bicentennial approaching rapidly, the Garrett County School system has formulated and released a set of guidelines as suggestions for possible observances in county schools.

The program is being coordinated by Robert Rodeheaver, who has completed a 48-page guideline booklet for distribution to school committees now being formed. Mr. Rodeheaver has visited the principal in each of the county schools and asked cooperation with the project.

He asked each school to form a faculty committee to decide what facets of a bicentennial observance would be best carried out in that school.

The guideline includes suggestions for a chorus and band program featuring historical characters and songs; art exhibits, P.T.A. programs, a Bicentennial week or day; and many other thoughts for school participation.

To Present Program

Sunday, May 4, will be observed as Children's Day in the Sunday School of St. Paul's United Methodist Church, Oakland. Persons will go first to their regular classes to prepare roll books. Then all will gather in Fellowship Hall for a program to be presented by the boys and girls in the various age groups through the sixth grade. There will be songs, recitations, skits, and similar presentation. Parents and other interested persons are invited.

Five-Year Plan For Metric Changeover Plotted For Schools

A proposed five-year plan for metrification in county public schools has been formulated by Robert Rodeheaver, coordinator and instructional supervisor for the county high schools.

His outline for the five-year program was submitted recently in response to a Maryland resolution which called for conversion to the International Metric System. Only Maryland and California have resolutions concerning changeover to the metric system.

The plan has two goals, stating that by 1980 the metric system will be the system of measurement used in all phases of public school operation in Garrett County, and that by 1980, the metric system will be the system of measurement used in all instructional areas.

Objectives include providing specific or general training for all personnel involved in instruction; modifying existing curricula to include the metric system; evaluating and selecting instructional materials; providing for student instruction; creation of awareness and training for all personnel involved in non-instructional areas; and meeting the needs of continuing metric education.

Teachers at various schools have been attending meetings with Mr. Rodeheaver on the metric proposal, including Elmer Redinger, of Accident; Elaine Ott, Bloomington; Barbara Conway, Center Street; Jeanne Whitehair, Crellin; Les McDaniel, Dennett Road; Charles Strauss, Jr., Friendsville; Patrick Delaney, Grantsville; Judith Thomas, Green Street.

Charmaine Paugh, Kitzmiller; Gary Turney, Loch Lynn; Terry Bell, Northern High School; Mary Ann Thoerig, Oak Street; Ruth Wilhelm, Red House; Betty Smith, Route 40; James Zimmerman, Southern High School; Alice Beachy, Swan Meadow; Alvina Livengood, Yoder School.

Mr. Rodeheaver and Terry Bell are available to speak to P.T.A. groups or other gatherings upon request to explain the five-year plan for the schools.

Oakland Receives Spot Of Publicity In U. S. News

Oakland came in for a spot of publicity in the May 5 issue of U.S. News and World Report, in a story on the mood of America, "Things Have Got to Get Better."

Attitudes that surfaced in a late April survey of the national mood, conducted by staff members in 28 states were summarized in the article.

The paragraphs concerning Oakland were included in a summary of the feelings in the East:

"For others, skyrocketing utility rates are the major irritant. In early April, roughly half the nearly 5,000 residents of Oakland, Md., turned out for a meeting to protest proposals for higher electricity charges.

"HEATING WITH WOOD. Thomas R. Janes, an Oakland attorney, reports he is using a wood stove to heat his farm home. He explains that 'wood is virtually free in this county, if you will split it.'"

The U.S. News was optimistic about Oakland's population, and Mr. Janes' "farm home" is a house on East Pennington street. But it did get the area some publicity.

His invitation to the commissoners was to join in the trip for a day or two through this area. The invitation also went to Delegate DeCorsey Bolden.

The group will include a student chosen in a competition sponsored by the Interstate Commission on the Potomac River basin.

Mobile Home Dealers Must Collect State Tax

Recent examinations by the Maryland Retail Sales Tax division disclosed that some mobile home dealers are not collecting the 4 percent Maryland sales tax on sales to Maryland residents, according to Charles Lewis, supervisor in charge of the sales tax branch office in Hagerstown.

The only transaction in which the use tax is not required to be paid would be a sale between two individuals where the purchase price is less than $1,000.

Henry A. Heinmuller, Jr., director of the Retail Sales Tax division, stated that the Maryland law requires the seller to collect the Maryland tax at the time the sale is made.

Out of state dealers are also required to collect the Maryland sales tax on sales made to Maryland residents.

Mobile home owners in Washington, Frederick, Allegany and Garrett counties who have not paid sales tax on their homes were advised to contact Mr. Lewis at the branch office in Hagerstown.

Food prices were said to be dropping in late April.

Introducing Your Sheriff Department

Van Evans, of the Garrett County Sheriff's Department, is featured this week in the first of nine biographical sketches about the deputies and their boss. Other deputies and Sheriff John Evans, Jr., will be featured weekly.

Deputy Evans has been employed at the sheriff's office for the past one and one-half years. A county native, he hails from Kitzmiller where his parents, Chester and Earlene Evans, still reside.

He is a 1969 graduate of Southern High School, where he participated in Varsity football and baseball. Following graduation, he joined the U. S. Marine Corps, serving three years at Camp LeJeune, North Carolina, and in Japan. While in the service, he graduated from Military Police school and won various awards including the Good Conduct Medal, the Meritorious Mast, and qualified as an expert with the pistol and rifle.

Following his discharge from the service, he was hired by the local sheriff's department and in April, 1974, began ten weeks of intensive police training at Prince George's Police Academy, where he qualified as an expert on the pistol range. He graduated second in his class at the Academy.

He is assigned to the Oakland area. He and his wife, the former Mary Lynn Sweitzer, Mt. Lake Park, live in Accident and have one son, Robert, aged 1½.

Deputy Evans is currently taking evening courses at Garrett Community College, including a Criminal Law course.

A two-dozen car pile-up in Naples, Italy, killed 11 persons.

Two Are Placed On Probation After Investigation

Two persons were placed on probation, previously found guilty of larceny, by Judge Lewis R. Jones in District Court during the week ending yesterday. Two others received suspended sentences for assault and battery. Several cases were dismissed including worthless checks and assault and battery.

Charlotte Louise Hill and Paul Jeffrey Davis, both of McHenry had been found guilty of larceny of two rings from a shop at Village Inn at a trial March 11. At that time a presentence investigation was ordered. Last Friday, the guilty verdict was changed to probation before verdict for three years under supervision, under the general conditions and each is to make restitution of one half of the $150 value of the rings.

Josiah J. Johnson, RD 1, in Grantsville, made no contest of the charge of assault and battery. A 30-day sentence was suspended and he was placed on probation for one year and to be of good behavior. The sentence and probation is to run concurrently with another similar charge against Johnson noted last week.

Stanley W. Tasker, of RD 1, Oakland, pleaded not guilty of assault and battery on his wife, Norma A. Tasker, on April 7. He was found guilty and received a 30-day suspended sentence and placed on probation for one year. He is to be of good behavior, stay away from his wife unless there is reconciliation, and support the children.

The preliminary hearing for Harry W. Mayle, Baltimore, charged with larceny of a dump truck and damaging and tampering with a vehicle has been rescheduled for May 19.

Other cases were dismissed.

Roy C. Porter, Monongahela, Pa., had been charged with assault and battery, October 7, in Friendsville. Dismissed due to lack of prosecution.

David N. Warnick, Shade Hollow road, Grantsville, had been charged with assault and battery on his wife but she would not testify.

Frank Polce, Dennett Road, Oakland, had been charged with assault and battery in Oakland April 4. Dismissed for failure to prosecute.

Roy C. Wilhelm, Star Route, Grantsville, had been charged with passing a worthless check March 3, in Grantsville. Restitution had been made.

Donald Ray Ashby, Crellin, had been charged with passing a worthless check for $181.48 at W. H. Fratz, in Accident last November. Restitution had been made.

Freda Mae Morton, of RD 1, Swanton, had been charged with passing a worthless check at a food store in Mt. Lake Park. The case was dismissed due to insufficient evidence.

Michael Baker, RD 1, Oakland, had been charged with disorderly conduct on the land of another person on the Crellin road April 15. The case was dismissed due to insufficient evidence.

A plea of not guilty was sustained in the charge of larceny of a steel beam against Juanita Irene Stinson, Mt. Lake Park. The beam was allegedly taken from the Rosedale warehouse of William A. Shirer, valued at $90.

John Howard Capel, Baltimore, had been charged with disorderly intoxication last Saturday on RD 2, Accident. At a bail hearing Tuesday, he was released on his own recognizance pending trial May 6.

Insurance FACTS

When you are thinking about building a life insurance program, you are thinking about building a lifetime plan. This should be developed along the principle of providing for the needs of your dependents and yourself in the order of their importance. The breadwinner of the family has needs that the wife or husband often does not. If, however, one or the other is directly contributing to the support of the family, he or she is also a breadwinner. Before considering types of policies, you must decide what you want your life insurance to do for you and your dependents.

If you would like to discuss your life insurance with experienced and knowledgeable agents, do call us at GONDER'S INSURANCE AGENCY, 203-205 South 2nd Street, 334-3343. We will do our best to give you all the information you need for your particular needs, and help you come to the right decision for your future protection. We are known for our fast claim service. plain as the nose on your face

That's the way Grandma described things that were absolutely clear.

Religion was one of these!

Of course, she knew that theologians debate certain subjects. She sometimes lamented the fact there were so many denominations—which in her day weren't cooperating as they are now. And Granny was fully aware that a few individuals claim to be atheists or agnostics.

But the idea that God created us...loves us...seeks us...saves us. To Granny that was plain as the nose on your face.

As Granny often added: *Even a child knows that!* Every Sunday millions of them are proving her right.

American Freedom and Christian Responsibility
By
Rev. W. H. Leake, Deer Park, Md.

Dear Readers of this column, it has come to the attention of this writer that the YAF has planned a meeting at the First National Bank Community Room on Saturday, May 10th at 7:30 p.m. One of the purposes of this meeting will be to introduce the new committee of Citizens for Integrity and Decency and to take a hard look at the Family Health Program (Sex Education, etc.) that is presently being planned for the Garrett County School System. They have announced that two outstanding citizens from the lower part of our State will be speaking at the meeting. One of the speakers is a great friend of ours, a Mrs. Barbara Morris from Howard County; Barbara is a registered Pharmacist and is a nationally recognized authority on the Philosophy and theory of education. Want to know what OPEN SPACE SCHOOLS lead to, then be sure to hear Barbara, she is a great American and an excellent speaker. With Barbara will be Mrs. Malcom Lawarence from Montgomery County. Mrs. Lawarence has been a leader in her County against Sex Education, Sensitivity training, etc. Be sure to hear what Mrs. Lawarence has to say on these subjects.

PARENTS, GRANDPARENTS, ETC. It's time we do more than just complain about what's going on, it's time to get informed, then get involved. EVERY CONCERNED PARENT AND TEACHER NEEDS TO HEAR WHAT THESE LADIES HAVE TO SAY.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY LAWRENCE W. ALTHOUSE

NO HIDING PLACE

Lesson for May 4, 1975

Background Scripture: Psalms 139.
Devotional Reading: John 14:15-21.

A friend of mine told me recently that there are times when his work piles up and the pressures seem unbearable and he day-dreams about "running-away from it all" to some far-away place where he can find peace and quiet.

Rev. Althouse

"Do you think of it seriously?" I asked.

"Not really," he replied, "for I know there's really no hiding-place from God."

God knows me

This is actually what the prophet Jonah learned the hard way: a man cannot hide from God. No matter what he did, no matter where he went, he could not seem to find a hiding place secure from God.

This too was the experience of the Psalmist:

"O Lord, thou hast searched me and known me! Thou knowest when I sit down and when I rise up; thou discernest my thoughts from afar." (139:1,2)

In a novel I read some time ago, one of the characters successfully hides a disgraceful act for many years. At last, however, he relizes that he cannot keep this knowledge inside himself any longer and, staring at himself in the mirror, he cries: "You thought you could get away with it, but by God, you couldn't!"

This is what the Psalmist found too:

"Even before a word is on my tongue, lo, O Lord, thou knowest it altogether" (139:4)

There are no secrets in God's sight.

Where can I hide?

Jonah, faced with a task from God that he didn't want to perform, decided to "skip town." He went as far from Israel as he could. Apparently, he thought that God was limited to his own country. His God was too small, too limited. In reality, he found, God is universal. He is everywhere and there is no place where he cannot find us:

"Wither shall I go from thy Spirit? Or wither shall I flee from thy presence? (139:7)

Is there nowhere we can hide from God?

Nowhere, the Psalmist discovered:

"If I ascend to heaven, thou art there! If I make my bed in Sheol, thou art there!" (139:8)

It is foolish to try to hide from God for there is no hiding place he cannot find. We may try to bury ourselves in work, we may busy ourselves in fun and good times, we may even temporarily blot him out of our minds, but we cannot ever hide from him that he doesn't find us.

At last, realizing that it is fruitless to flee from God, the Psalmist submits to God's scrutiny: "Search me, O God, and know my heart! Try me and know my thoughts!" (139:23).

Finally, he acknowledges: from God there is no hiding place!

GRANDMOTHER'S DAY
IS MAY 11th

This year we want to pay a special tribute to all grandmothers — young and old. Where would we be without these wonderful and special women in our lives? Surely they might tend to spoil the kids with an extra helping of love. And yes, they always want a new photograph of the family to show off to their neighbors. But, isn't it a wonderful feeling to know someone loves us so much?

A great many grandmothers come into our pharmacy and they are treated with the special care they deserve. And we are never too busy to look at that new family photograph.

Mrs. E. I. Baumgartner, Mrs. James A. Riley, and Mrs. Paul T. Calderwood, left to right, were the official delegates from the Civic Club of Oakland to the 76th annual convention of the Maryland Federation of Women's clubs, held April 20 through 22 at Hunt Valley Inn, Cockeysville. The last two are past presidents of the federation's western district that includes five counties.

Sunday evening's program had a bicentennial air with Mrs. Wiliam D. Mizell, Bethesda, presenting "The Moppets," comprising children of ages six through twelve.

Monday's luncheon speaker was Mrs. Esther Peterson, of Giant Food chain, speaking on "How Do Consumers React To Problems of 1975?" A prayer breakfast Tuesday morning was one of the features. Dr. Maxwell N. Weisman, director, division of Alcohol Control, gave a presentation on "Alert-Alcoholism." Total meal reservations totaled 1,710. Membership awards were made to clubs which had the highest percentages of increase in membership during the year.

In the photo Mrs. Riley, president of the local club, is dressed in a formal Korean gown which she obtained when she and her husband were in that area.

HANDY HINTS

By A & A Construction Co., Inc.

Route 219 Oakland, Md. (301) 334-9777

A primer should always be applied on raw wood. Make sure the wood is dry, and any cracks are filled in.

However you store your paint brushes (once you have cleaned them, of course,) make sure brushes are not kept in a bent position.

Stain will not "take" over any kind of surface coating. But you can stain over stain, deepening or changing the color.

For some handy hints that can save you money on building your new home (vacation or permanent). Phone one of us:

SPORTS Go-Round

Basketball! What game can match it as a test of a team's accuracy? In fact, basketball is a world-wide sport, played on strength, endurance, speed, and courts throughout many nations. But have you ever heard of basket endball? This game, although similar to basketball, is not nearly as popular. Dribbling is forbidden in the game, and players must always stay within their assigned zones. The game is divided into three periods in which members of the teams rotate so that each gets to play all the zones.

Sex Education in Garrett County Schools Parents Awa[illegible]e

Do you know what is planned for your children if this committee of 25 people which is supposed to represent the parents and vote on whether or not we are to adopt this Allegheny curriculum on sex education. if you want to know, we would advise you to attend the next meeting of this committee and school board, and view (if shown) things that only a married person or expectant mother should know. We, the parents of 6, with 4 girls still in Garrett Co. schools, are very much interested in what is planned for these young minds which could be very easily warped beyond repair if the school board is allowed to teach this curriculum on sex in our schools.

Contact these committee members; ask them their views. Ask them how they are representing you. The list of this committee should be available to you from the school board, if there is nothing to hide from the parents. Ask the school board why we were told that the meetings were closed to the parents. Also we were told by the one who conducted the last meeting that it was no use to come to the door, that we would be refused entrance. We are the parents that had to call Goodloe Byron, who in turn told us to contact Delegate DeCorsey Bolden. We were later informed that parents could sit in on meetings, but could not comment on any issue until the committee had either approved or rejected what was shown at this particular meeting. Many of this committee had to rush home and couldn't stay to hear what the parents had to say. How can this committee represent us if we can't even voice our feelings until it is too late. We were informed by those in high authority that if this is once adopted without the parents knowing what filth is being taught to their children, it will be too late to act. Come to the next meeting. Also contact:

Congressman Goodloe Byron
Governor Marvin Mandel
Delegate DeCorsey Bolden
Senator Ed Mason
James A. Sensenbaugh

Parents, it is now or never. Stand up and be counted. Attend this next meeting. Contact us for the date. Parents, it's now or never.

Column For Homemakers

By Mrs. Freda Denison Extension Agent

Vegetable Gardening

Can you really save money by growing part or all of your own vegetables? Could you grow some small fruits, too. Many Consumers are asking these questions. The answer to these questions is "Yes, if . . . . . ". There are several "ifs" to recognize before you buy seeds or plow up a piece of lawn

The first "if" has to do with making a sensible judgment on how much land you can plow and spade up for your needed use.

Another "if" has to do with the plans for how you will use the growing vegetables. Maybe you only want fresh vegetables during the summer and you may want to raise more so you can preserve them for future use.

Perhaps you can inspire a neighborhood gardening plan, sharing land, costs, work and harvest.

Regardless what you decide, you will need information for each step, if gardening is a new project. For good information call or drop in on your Extension Agent, Agriculture who works for the Cooperative Extension Service. The local library is another good source of information. The garden shops are another good source of information also.

The Extension bulletin, "Vegetable Gardening in Maryland" has good planning information. The information contained in this booklet helps to cover another "if". This relates to how successful home gardens can be and rests on getting good seeds, not old ones, keeping insects in check and preparing the soil you'll garden in.

The next "if refers to how you will preserve the surplus harvest.

There are 3 possible methods of preserving foods: Canning, freezing and drying. The simplest and probably easiest is freezing. If you have a freezer space available, use it, but check to make sure which foods take best to freezing and which are better canned.

The Cooperative Extension Service can also serve you with this information. Check with your Home Economist for helpful information.

Drying is more complicated and can be used for fewer foods.

Booklets available from the Extension Office are, "Home Freezing of Fruits and Vegetables", "Home Canning of Fruits and Vegetables" "Storing Perishable Foods in the Home", and "How to Make Jellies, Jams and Preserves at Home". Cost of this last bulletin is .30 - others free.

Canning equipment can be expensive but if it does the job, it will pay for itself, and also save lives.

Virginia Knouer's Office of Consumer Affairs, at the Department of Health, Education and Welfare in Washington, says, "Supplies will be available for canning to all parts of the country sometime before the next canning season. But buy only what you need and leave some for the next gardener."
